BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)
June 30, 2009

1. Organization and Operation of the Company

Organization

Blue Dolphin Energy Company was incorporated in Delaware in January 1986 to engage in oil and gas exploration, production and acquisition activities and oil and gas transportation and marketing. We were formed pursuant to a reorganization that was effective as of June 9, 1986.

The unaudited condensed consolidated financial statements of Blue Dolphin Energy Company and its wholly-owned subsidiaries (referred to herein, with its predecessors and subsidiaries, as Blue Dolphin, we, us and our) included herein have been prepared by us, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) and, in the opinion of management, reflect all adjustments necessary to present fair consolidated statements of operations, financial position and cash flows. We believe that the disclosures are adequate and the information presented is not misleading. This report has been prepared in accordance with Form 10-Q instructions and therefore, certain information and footnote disclosures normally included in audited financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to the SEC s rules and regulations.

Our accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto included in our annual report on Form 10-K for the fiscal year ended December 31, 2008. The results of operations for the three and six months ended June 30, 2009 are not necessarily indicative of the results of operations to be expected for the year ended December 31, 2009.

2. Summary of Significant Accounting Policies

Accounting Estimates. We have made a number of estimates and assumptions relating to the reporting of consolidated assets and liabilities and to the disclosure of contingent assets and liabilities to prepare these unaudited condensed consolidated financial statements in conformity with GAAP. This includes the estimated useful life of pipeline assets, valuation of stock-based payments and reserve information, which affects the depletion calculation as well as the full-cost ceiling limitation. While we believe current estimates are reasonable and appropriate, actual results could differ from those estimated.

Fair Value Measurements. On January 1, 2008, we adopted Statement of Financial Accounting Standards (SFAS) Statement No. 157, *Fair Value Measurements* (SFAS 157), which clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures on fair value measurements. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2), that deferred the effective date of SFAS 157 for one year for nonfinancial assets and liabilities recorded at fair value on a non-recurring basis. The effect of adoption of SFAS 157 for financial assets and liabilities recognized at fair value on a recurring basis did not have a material impact on our consolidated financial position and results of operations. We are assessing the impact of SFAS 157 for nonfinancial assets and liabilities.

On January 1, 2008, we adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 permits companies to choose an irrevocable election to measure certain financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. We did not elect the fair value option under SFAS 159 for any of our financial assets or liabilities upon adoption.

Full-Cost Method of Accounting. We follow the full-cost method of accounting for oil and gas properties, wherein costs incurred in the acquisition, exploration and development of oil and gas reserves are capitalized. Under this method of accounting, we recognized an impairment to our oil and gas properties of \$203,110 for the six months ended June 30, 2009.

Table of Contents

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)
June 30, 2009

Earnings per Share. We apply the provisions of SFAS No. 128, *Earnings per Share* (SFAS 128). SFAS 128 requires the presentation of basic earnings per share (EPS) which excludes the dilutive effect of securities or contracts to issue common stock, and is computed by dividing net income (loss) available to common stockholders by the weighted-average number of shares of common stock outstanding for the period. SFAS 128 requires dual presentation of basic EPS and diluted EPS on the face of the condensed and consolidated statement of operations and requires a reconciliation of the numerators and denominators of basic EPS and diluted EPS. Diluted EPS is computed by dividing net income (loss) available to common stockholders by the diluted weighted average number of shares of common stock outstanding, which includes the potential dilution that could occur if securities or other contracts to issue common stock were converted to common stock that then shared in the earnings of the entity. Employee stock options and stock warrants outstanding at June 30, 2009 were not included in the computation of diluted earnings per share because their assumed exercise and conversion would have an antidilutive effect on the computation of diluted loss per share.

Basic and Diluted	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Net loss	\$ (750,249)	\$ (175,479)	\$ (1,750,258)	\$ (700,853)
Weighted average number of shares of common stock outstanding and potential dilutive shares of common stock	11,765,519	11,632,165	11,741,727	11,624,746
Per share amount	\$ (0.06)	\$ (0.02)	\$ (0.15)	\$ (0.06)

Recent Accounting Developments

Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. In June 2008, the FASB issued FSP No. *Emerging Issues Task Force* (EITF) 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP 03-6-1). This FSP provides that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share under the two-class method described in SFAS No. 128, *Earnings Per Share*. FSP 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years and will require all earnings per share data presented for prior-periods to be restated retrospectively. We currently do not anticipate that FSP 03-6-1 will have a material impact on our earnings per share data for fiscal year 2009 or on earnings per share data for any prior periods presented.

Subsequent Events. In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS 165), effective for interim and annual periods ending after June 15, 2009. SFAS 165 provides guidance to establish general standards of accounting for and disclosures of events that occur subsequent to the balance sheet date but before financial statements are issued or available to be issued. The adoption of SFAS 165 did not have a material impact on our condensed consolidated financial statements. We evaluated all subsequent events or transactions that occurred after June 30, 2009 up through August 13, 2009, the date our condensed consolidated interim financial statements as of and for the six month period ended June 30, 2009 were issued, and during this period no material subsequent events occurred that would require recognition or disclosure in these condensed consolidated interim financial statements,

other than as disclosed in Note 8.

Accounting for Transfers of Financial Assets. In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets* (SFAS 166), effective for interim and annual periods beginning after November 15, 2009. SFAS 166 amends SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, removing the concept of a qualifying special-purpose entity and eliminating the exception from applying FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities*, to variable

8

Table of Contents

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)
June 30, 2009

interest entities that are qualifying special-purpose entities. It also changes the requirements for derecognition of financial assets and requires additional disclosures. Early adoption is prohibited. We are evaluating the impact, if any, this standard will have on our financial statements.

Variable Interest Entities. In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (SFAS 167), effective for interim and annual periods beginning after November 15, 2009. SFAS 167 requires an analysis to determine whether a variable interest gives an entity a controlling financial interest in the variable interest entity. SFAS 167 also requires ongoing qualitative assessments of whether an entity is the primary beneficiary of a variable interest entity and expands required disclosures. We are evaluating the impact, if any, this standard will have on our financial statements.

FASB Accounting Standards Codification. In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (SFAS 168), effective for interim and annual periods ending after September 15, 2009. SFAS 168 establishes the Codification as the single source of authoritative United States accounting and reporting standards. It combines existing authoritative standards into a comprehensive, topically organized database. The primary effect will be in the consolidated footnotes where references to U.S. GAAP and to new FASB pronouncements will be based on the sections of code rather than to individual FASB standards.

3. Business Segment Information

Our operations are conducted in two principal business segments: (i) pipeline transportation services and (ii) oil and gas exploration and production. Our segments are managed jointly mainly due to our size. Management uses earnings before interest expense and income taxes (EBIT) to assess the operating results and effectiveness of our business segments, which consist of our consolidated businesses and investments. We believe EBIT is useful to our investors because it allows them to evaluate our operating performance using the same performance measure analyzed internally by management. We define EBIT as net income (loss) adjusted for: (i) items that do not impact our income or loss from continuing operations, such as the impact of accounting changes, (ii) income taxes and (iii) interest expense (income). We exclude interest expense (income) and other expense or income not pertaining to the operations of our segments from this measure so that investors may evaluate our current operating results without regard to our financing methods or capital structure. We understand that EBIT may not be comparable to measurements used by other companies. Additionally, EBIT should be considered in conjunction with net income and other performance measures such as operating cash flows.

Asset retirement obligations as of December 31, 2008	\$ 2,183,190
Liabilities settled	(32,037)
Accretion expense	55,837
 Asset retirement obligations as of June 30, 2009	 \$ 2,206,990

5. Stock-Based Compensation

Effective April 14, 2000, after approval by our stockholders, we adopted the 2000 Stock Incentive Plan (the 2000 Plan). Under the 2000 Plan, we are able to make awards of stock-based compensation. The number of shares of common stock reserved for grants of incentive stock options (ISOs) and other stock-based awards was increased from 650,000 shares to 1,200,000 shares after approval by our stockholders at the 2007 Annual Meeting of Stockholders, which was held on May 30, 2007. As of June 30, 2009, we had 310,040 shares of common stock remaining available for future grants. Options granted under the 2000 Plan have contractual terms from six to ten years. The exercise price of ISOs cannot be less than 100% of the fair market value of a share of common stock determined on the grant date. The 2000 Plan is administered by the Compensation Committee of our Board of Directors.

Pursuant to SFAS 123R, we estimate the fair value of stock options granted on the date of grant using the Black-Scholes-Merton option-pricing model. The following assumptions were used to determine the fair value of stock options granted during the year ended December 31, 2008. There were no stock options granted in the six months ended June 30, 2009.

	December 31, 2008
Stock options granted	75,000
Risk-free interest rate	3.23%
Expected term, in years	6.00
Expected volatility	90.7%
Dividend yield	0.00%

Expected volatility used in the model is based on the historical volatility of the common stock and is weighted 50% for the historical volatility over a past period equal to the expected term and 50% for the historical volatility over the past two years prior to the grant date. This weighting method was chosen to account for the significant changes in our financial condition beginning approximately three years ago. These changes include changes in our working capital, changes in pipeline throughput and the reduction and ultimate elimination of our outstanding debt.

The expected term of options granted used in the model represents the period of time that options granted are expected to be outstanding. The method used to estimate the expected term is the simplified method as allowed under the provisions of the SEC's Staff Accounting Bulletin No. 107. This number is calculated by taking the average of the sum of the vesting period and the original contract term. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the date of the grant. As we have not declared dividends on common stock since we became a public company, no dividend yield was used. No forfeiture rate was assumed due to the lack of forfeiture history for this type of award. Actual value realized, if any, is dependent on the future performance of common stock and overall stock market conditions. There is no assurance that the value realized by an optionee will be at or near the value estimated by the Black-Scholes-Merton option-pricing model.

Table of Contents

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)
June 30, 2009

At June 30, 2009, there were a total of 455,559 shares of common stock reserved for issuance upon exercise of outstanding options under the 2000 Plan. A summary of the status of stock options granted to key employees, officers and directors, for the purchase of shares of common stock for the periods indicated, is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Options outstanding at December 31, 2008	555,559	\$ 2.43		
Options granted		\$		
Options exercised		\$		
Options expired or cancelled	(100,000)	\$ 1.72		
Options outstanding at June 30, 2009	455,559	\$ 2.59	5.8	\$4,000
Options exercisable at June 30, 2009	337,559	\$ 2.47	5.5	\$4,000

The following table summarizes additional information about stock options outstanding at June 30, 2009:

Range of Exercise Prices	Number Outstanding	Options Outstanding		Options Exercisable	
		Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$0.35 to \$0.80	70,830	3.8	\$ 0.44	70,830	\$0.44
\$1.55 to \$1.90	23,429	2.6	\$ 1.71	23,429	\$1.71
\$2.81 to \$2.99	343,500	6.6	\$ 2.91	225,500	\$2.92
\$6.00	17,800	0.9	\$ 6.00	17,800	\$6.00
	455,559			337,559	

Table of Contents

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)
June 30, 2009

The following summarizes the net change in non-vested stock options for the periods shown:

	Shares	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2008	284,000	\$ 1.83
Granted		\$
Canceled or expired	(100,000)	\$ 1.20
Vested	(66,000)	\$ 2.35
Non-vested at June 30, 2009	118,000	\$ 2.08

As of June 30, 2009, there was \$157,883 of unrecognized compensation cost related to non-vested stock options granted under the 2000 Plan. The weighted average period over which the unrecognized compensation cost will be recognized is 9 months.

6. Contingencies

From time to time we are involved in various claims and legal actions arising in the ordinary course of business. In our opinion, the ultimate disposition of these matters will not have a material effect on our consolidated financial position, results of operations or cash flows.

7. Loan Receivable

On June 2, 2009, we issued a \$100,000 loan to Lazarus Energy Holdings, LLC, which is included in other current assets of the condensed consolidated financial statements. The non-interest bearing loan is due on or before December 31, 2009. The loan is secured by a first lien on property owned by Lazarus Environmental, LLC and a second lien on property owned by Lazarus Louisiana Refinery II, LLC.

8. Subsequent Events

Subsequent to the quarter ended June 30, 2009, we loaned \$2,000,000 under a promissory note in exchange for a seven month option to acquire a light, sweet crude topping unit in Nixon, Texas, a barge and truck terminal in Mermentau, Louisiana and 560,000 barrels of storage associated with the two facilities under a purchase and sale agreement. In addition, we entered into a consulting agreement related to the promissory note in which we will be paid \$500,000 for consulting services.

Cautionary Statements

Certain of the statements included in this quarterly report on Form 10-Q, including those regarding future financial performance or results or that are not historical facts, are forward-looking statements as that term is defined in Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and Section 27A of the Securities Act of 1933, as amended. The words expect, plan, believe, anticipate, project, estimate, and similar expressions are intended to identify forward-looking statements. Blue Dolphin Energy Company (referred to herein, with its predecessors and subsidiaries, as Blue Dolphin, we, us and our) cautions readers that these statements are not guarantees of future performance or events and such statements involve risks and uncertainties that may cause actual results and outcomes to differ materially from those indicated in forward-looking statements. Some of the important factors, risks and uncertainties that could cause actual results to vary from forward-looking statements include:

the level of utilization of our pipelines;

availability and cost of capital;

actions or inactions of third party operators for properties where we have an interest;

the risks associated with exploration;

the level of production from our oil and gas properties;

oil and gas price volatility;

uncertainties in the estimation of proved reserves and in the projection of future rates of production and timing of development expenditures;

regulatory developments; and

general economic conditions.

Additional factors that could cause actual results to differ materially from those indicated in the forward-looking statements are discussed under the caption Risk Factors in our annual report on Form 10-K for the year ended December 31, 2008. Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date thereof. We undertake no duty to update these forward-looking statements. Readers are urged to carefully review and consider the various disclosures made by us which attempt to advise interested parties of the additional factors which may affect our business, including the disclosures made under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations in this quarterly report.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Executive Summary

We are engaged in two lines of business: (i) pipeline transportation services to producer/shippers, and (ii) oil and gas exploration and production. Our assets are located offshore and onshore in the Texas Gulf Coast area. Our goal is to create greater long-term value for our stockholders by increasing the utilization of our existing pipeline assets and pursuing strategic alternatives that will diversify our asset base, improve our competitive position and are accretive to earnings. Although we are primarily focused on acquisitions of pipeline assets and maximizing our current facilities, we also continue to review, evaluate opportunities and acquire additional oil and gas properties.

Pipeline Transportation. Although the Blue Dolphin Pipeline System added a new shipper in the six months ended June 30, 2009 (the current period), pipeline revenues were down compared to the six months ended June 30, 2008 (the previous period). Deliveries from Galveston Area Block 321 into the Blue Dolphin Pipeline System began in mid-March 2009. The Blue Dolphin Pipeline System is currently transporting an aggregate of approximately 11

MMcf of gas per day from eight shippers. The GA 350 Pipeline is currently transporting an aggregate of approximately 19 MMcf of gas per day from six shippers.

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Oil and Gas Exploration and Production.

Galveston Area Block 321 In September 2008, we acquired a 0.5% overriding royalty interest in an exploratory well in Galveston Area Block 321. Drilling of the well commenced in late December 2008 and continued through early January 2009. The well commenced production in mid-March 2009. Production is currently being delivered through the Blue Dolphin Pipeline System.

High Island Block 115 The B-1 well resumed production in February 2009 after being shut-in due to damage to third party onshore facilities resulting from Hurricane Ike. The B-1 well is currently shut-in due to changes in the production handling agreement. We expect production to resume in late 2009. We maintain a 2.5% working interest in the well.

High Island Block 37 The A-2 well resumed production in February 2009 after being shut-in due to damage to third party onshore facilities resulting from Hurricane Ike. We maintain a 2.8% working interest in the well. Our pipeline assets remain significantly under-utilized. The Blue Dolphin Pipeline System is currently operating at approximately 7% of capacity, the GA 350 Pipeline is currently operating at approximately 29% of capacity and the Omega Pipeline is inactive. Production declines, temporary stoppages or cessations of production from wells tied into our pipelines or from our working and overriding royalty interests in wells in Galveston Area and High Island blocks could have a material adverse effect on our cash flows and liquidity if the resulting revenue declines are not offset by revenues from other sources. Due to our small size, geographically concentrated asset base and limited capital resources, any negative event has the potential to have a material adverse impact on our financial condition. We are continuing our efforts to increase the utilization of our existing assets and acquire additional assets that will diversify our asset base, improve our competitive position and be accretive to earnings.

Results of Operations

For the three months ended June 30, 2009 (the current quarter), we reported a net loss of \$750,249 compared to a net loss of \$175,479 for the three months ended June 30, 2008 (the previous quarter). For the six months ended June 30, 2009 (the current period), we reported a net loss of \$1,750,258 compared to a net loss of \$700,853 for the six months ended June 30, 2008 (the previous period).

Three Months Ended June 30, 2009 Compared to Three Months Ended June 30, 2008

Revenue from Pipeline Operations. Revenues from pipeline operations decreased by \$146,766, or 21%, in the current quarter to \$548,636 primarily as a result of decreases in gas volumes transported due to natural production declines. Revenues from the Blue Dolphin Pipeline System decreased to approximately \$464,000 in the current quarter compared to approximately \$583,000 in the previous quarter. Daily gas volumes transported on the Blue Dolphin Pipeline System averaged 18 MMcf of gas per day in the current quarter, down from 22 MMcf of gas per day in the previous quarter. Revenues on the GA 350 Pipeline decreased to approximately \$85,000 compared to approximately \$112,000 in the previous quarter due to a decrease in average daily gas volumes transported of 20 MMcf of gas per day in the current quarter from 27 MMcf of gas per day in the previous quarter.

Revenue from Oil and Gas Sales. Revenues from oil and gas sales decreased by \$249,478, or 85%, in the current quarter primarily due to lower commodity prices. The sales mix by product was 96% gas and 4% condensate. Our average realized gas price per Mcf in the current quarter was \$3.17 compared to \$10.99 in the previous quarter. Our average realized condensate price per barrel was \$31.96 in the current quarter compared to \$110.44 in the previous quarter.

Pipeline Operating Expenses. Pipeline operating expenses in the current quarter increased by \$89,365 to \$491,461 due to an increase in repairs related to damage from Hurricane Ike. The increases were partially offset by decreases in storage tank repairs and insurance expenses.

Lease Operating Expenses. Lease operating expenses decreased by \$82,420 in the current quarter due to decreased production.

Table of Contents

BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

General and Administrative Expenses and Stock Based Compensation. These expenses increased by \$129,526 to \$691,074 in the current quarter primarily due to increases in compensation expense, legal fees and office expense. These increases were partially offset by a decrease in property and liability insurance.

Other Income. Other income decreased due to a decrease in interest income of \$24,332 in the current quarter. Interest income decreased because of decreases in both the amount of available funds and the interest rate earned on those funds.

Six Months Ended June 30, 2009 Compared to Six Months Ended June 30, 2008

Revenue from Pipeline Operations. Revenues from pipeline operations decreased by \$179,824, or 15%, in the current period to \$1,063,395 primarily as a result of decreases in gas volumes transported due to natural production declines. Revenues from the Blue Dolphin Pipeline System decreased to approximately \$888,000 in the current period compared to approximately \$1,026,000 in the previous period. Daily gas volumes transported on the Blue Dolphin Pipeline System averaged 18 MMcf of gas per day in the current period, down from 21 MMcf of gas per day in the previous period. Revenues on the GA 350 Pipeline decreased to approximately \$176,000 compared to approximately \$217,000 in the previous period due to a decrease in average daily gas volumes transported of 21 MMcf of gas per day in the current period from 26 MMcf of gas per day in the previous period.

Revenue from Oil and Gas Sales. Revenues from oil and gas sales decreased by \$358,252, or 84%, in the current period due to the interruption in production from High Island Block 115 and High Island Block 37 as a result of damage to third party shore facilities caused by Hurricane Ike in September 2008, as well as lower commodity prices. The sales mix by product was 95% gas and 5% condensate. Our average realized gas price per Mcf in the current period was \$3.47 compared to \$9.50 in the previous period. Our average realized condensate price per barrel was \$44.28 in the current period compared to \$116.83 in the previous period.

Pipeline Operating Expenses. Pipeline operating expenses in the current period increased by \$139,669 to \$957,721 due to an increase in storage tank repairs, crane repairs and other repairs related to damage from Hurricane Ike. The increases were partially offset by decreases in insurance and chemical expenses.

Lease Operating Expenses. Lease operating expenses decreased by \$84,562 in the current period due to decreased production of our producing properties.

Impairment of Oil and Gas Properties. We recorded a full cost ceiling impairment of \$203,110 for the current period. Under the full cost method of accounting, we are required on a quarterly basis to determine whether the book value of our oil and natural gas properties (excluding unevaluated properties) is less than or equal to the ceiling, based upon the expected after tax present value (discounted at 10%) of the future net cash flows from our proved reserves, calculated using prevailing oil and natural gas prices on the last day of the period, or a subsequent higher price under certain circumstances. Any excess of the net book value of our oil and natural gas properties over the ceiling must be recognized as a non-cash impairment expense. Our ceiling was calculated using prices of \$47.19 per barrel of oil and \$3.65 per MMBtu. Accordingly, at March 31, 2009, our costs exceeded our ceiling limitation, resulting in a write-down of our oil and natural gas properties.

General and Administrative Expenses and Stock Based Compensation. These expenses increased by \$160,555 to \$1,355,912 in the current period primarily due to increases in compensation expense, consulting fees and office expense. These increases were partially offset by a decrease in property and liability insurance.

Other Income. Other income decreased due to a decrease in interest income of \$77,917 in the current period. Interest income decreased because of decreases in both the amount of available funds and the interest rate earned on those funds.

Liquidity and Capital Resources

Sources and Uses of Cash. Our primary source of cash is cash flow from operations. During the six months ended June 30, 2009, we had negative cash flow from operations of \$1,101,482, excluding working capital changes, due to low utilization of our pipeline systems, loss of oil and gas revenues attributable to Hurricane Ike, significantly lower commodity prices and payment of a severance package.

Table of Contents**BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Currently, we do not enter into any hedges or any type of derivatives to offset changes in commodity prices. We also do not have any outstanding debt or a credit facility with a bank or institution that may restrict us from issuing debt or common stock. Available cash at June 30, 2009 was approximately \$2.7 million.

The following table summarizes our change in cash flows at June 30, 2009 and 2008 (in thousands):

	June 30, 2009	June 30, 2008
Cash flow from operations		
Loss from operations	\$ (1,085)	\$ (212)
Change in current assets and liabilities	(16)	(123)
Total cash flow from operations	(1,101)	(335)
Net cash inflows		
Capital expenditures	(16)	(364)
Total cash outflows	(16)	(364)
Total change in cash flows	\$ (1,117)	\$ (699)

In the past two years, we have used a portion of our cash reserves to fund our working capital requirements that were not funded from operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

Not Applicable.

ITEM 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Accounting and Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon this evaluation, as of June 30, 2009, the Chief Executive Officer and Principal Financial and Accounting Officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including the Chief Executive Officer and Principal Financial and Accounting Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal controls over financial reporting during the period covered by this report that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we are involved in various claims and legal actions arising in the ordinary course of business. In our opinion, the ultimate disposition of these matters will not have a material effect on our financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in our annual report on Form 10-K for the fiscal year ended December 31, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

Remainder of Page Intentionally Left Blank

Table of Contents**BLUE DOLPHIN ENERGY COMPANY & SUBSIDIARIES****ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

Our 2009 Annual Meeting of Stockholders (the Meeting) was held on May 14, 2009.

In an uncontested election, five nominees to our Board of Directors were elected for one-year terms expiring on the date of our 2010 annual meeting of stockholders. The number of votes cast in relation to such matter is set forth below:

	Votes		Broker Non-Votes
	For	Withheld	
Laurence N. Benz	8,982,356	584,599	1,344,123
John N. Goodpasture	9,170,051	396,904	1,344,123
Harris A. Kaffie	9,178,704	388,521	1,344,123
Erik Ostbye	8,925,248	641,707	1,344,123
Ivar Siem	8,977,246	589,709	1,344,123

Also at the Meeting, stockholders voted on an amendment to our certificate of incorporation, as amended and restated, to increase the number of our authorized common stock, par value \$0.01 per share, from 25,000,000 shares to 100,000,000 shares. The voting results for such matter are as follows:

For	Votes		Broker Non-Votes
	Against	Abstain	
8,646,600	869,983	50,369	1,344,126

All proposed directors were elected to the Board of Directors. The proposal to amend our certificate of incorporation, as amended and restated, passed.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS
