Percentages are calculated as a percentage of net assets applicable to common shares.

(a) 144A-Private Placement security which is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. This security may only be resold in transactions exempt from registration which are normally those transactions with qualified institutional buyers.

(b) Market value is determined in

accordance with  
procedures  
established in  
good faith by  
the Board of  
Trustees.

(c) Non-income  
producing  
security.

(d) Security has  
been deemed  
illiquid.

**Security Valuation** Investments are stated at value using market quotations or indications of value obtained from an independent pricing service. For those securities where quotations or prices are not readily available, valuations are obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established in good faith by the Board of Trustees. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

**Van Kampen High Income Trust II****Portfolio of Investments September 30, 2009 (Unaudited) continued**

**Fair Value Measurements** Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 *Fair Value Measurements and Disclosures* (ASC 820) (formerly known as FAS 157), defines fair value as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust's investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of September 30, 2009 in valuing the Trust's investments carried at value.

| Investment                                    | Level 1       | Level 2                             | Level 3                         | Total        |
|---|---------------|-------------------------------------|---------------------------------|--------------|
|   | Quoted Prices | Other Significant Observable Inputs | Significant Unobservable Inputs |              |
| <b>Investments in an Asset Position</b>       |               |                                     |                                 |              |
| Corporate Bonds                               | \$            | \$ 86,001,853                       | \$                              | \$86,001,853 |
| Common and Preferred Stocks                   |               |                                     |                                 |              |
| Apparel, Accessories & Luxury Goods           |               |                                     |                                 |              |
| Highways & Railtracks                         |               |                                     |                                 |              |
| IT Consulting & Other Services                |               |                                     |                                 |              |
| Wireless Communications                       |               | 166,478                             |                                 | 166,478      |
| Repurchase Agreements                         |               | 603,000                             |                                 | 603,000      |
| <b>Total Investments in an Asset Position</b> | \$            | \$ 86,771,331                       | \$                              | \$86,771,331 |

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

|                               | Common Stocks | Corporate Bonds |

Item 2. Controls and Procedures.

(a) The Trust's principal executive officer and principal financial officer have concluded that the Trust's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Trust in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Trust's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

Item 3. Exhibits.

(a) A certification for the Principal Executive Officer of the registrant is attached hereto as part of EX-99.cert.

(b) A certification for the Principal Financial Officer of the registrant is attached hereto as part of EX-99.cert.
