  - ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 2.02 Results of Operations and Financial Condition.**

On July 27, 2010, Nabors Industries Ltd. (the "Company") issued a press release announcing its financial results for the second quarter and first six months of 2010. A copy of that release is furnished herewith as Exhibit 99.1 in accordance with General Instruction B.2 to Form 8-K.

The press release includes forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. The forward-looking statements are subject to risks and uncertainties, as disclosed by the Company from time to time in its filings with the Securities and Exchange Commission. As a result of these factors, the Company's actual results may differ materially from those indicated or implied by the forward-looking statements.

The Company also presented in the press release non-GAAP financial measures under Regulation G. The Company presented its adjusted income (loss) derived from operating activities for all periods presented in the release. The components of adjusted income (loss) derived from operating activities are computed by using amounts that are determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Adjusted income (loss) derived from operating activities is computed by subtracting direct costs, general and administrative expenses, depreciation and amortization, and depletion expense from Operating revenues and then adding Earnings from unconsolidated affiliates. As part of the press release information, we have provided a reconciliation of adjusted income (loss) derived from operating activities to income before income taxes, which is its nearest comparable GAAP financial measure. In addition, we provided a summary of the non-cash charges recorded during each of the periods presented and their impact in calculating each of the non-GAAP financial measures.

The Company included its adjusted income (loss) derived from operating activities in the release because management evaluates the performance of our business units and the consolidated company based on several criteria, including adjusted income (loss) derived from operating activities, and because it believes this financial measure is an accurate reflection of the ongoing profitability of the Company. The Company included the adjusted net income number because management believes the non-GAAP financial measure to be more indicative of the Company's on-going operating results and financial condition.
