PROXY STATEMENT

MoneyGram International, Inc. (the Company) is furnishing this Proxy Statement to you in connection with the solicitation by the Board of Directors of the Company (the Board) of proxies for use at the Company's special meeting (the Special Meeting) of the holders (the Stockholders) of the Company's common stock, par value \$0.01 per share (the Common Stock), to be held at [], Dallas, Texas, at [], Central Standard Time, on [], 2011.

The notice, this Proxy Statement and the form of proxy enclosed are being first sent to the Stockholders on or about [], 2011.

When used in this Proxy Statement, the terms MoneyGram, the Company, we and our refer to MoneyGram International, Inc.

QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETING AND VOTING

Q: Why am I receiving this Proxy Statement?

A: The Company sent you this Proxy Statement and the enclosed proxy card because the Board is soliciting proxies for a Special Meeting of the Stockholders. You are receiving this Proxy Statement because you owned shares of the Common Stock entitled to vote on [], 2011, the record date for the Special Meeting, and as a result you are entitled to vote those shares at the Special Meeting. By use of a proxy, you can vote whether or not you attend the Special Meeting. This Proxy Statement describes the matter on which the Company would like you to vote and provides information on such matter so that you can make an informed decision.

Q: Who is soliciting my vote?

A: The Board is soliciting your vote at the Special Meeting.

Q: What is the purpose of the Special Meeting?

A: You will be voting on a proposal to approve an amendment to the Company's Amended and Restated Certificate of Incorporation which will (i) effect a reverse stock split of the Company's issued and outstanding shares of Common Stock at a ratio that will be determined by the Board and that will be within a range of one-for-five (1:5) to one-for-ten (1:10) (the Reverse Stock Split) and (ii) reduce the number of authorized shares of Common Stock by the same ratio as the Reverse Stock Split (the Authorized Share Reduction) if the Board determines, in its sole discretion, at any time prior to the first anniversary of the Special Meeting that the Reverse Stock Split and the Authorized Share Reduction are in the best interests of the Company and the Stockholders.

Q: How will fractional shares resulting from the Reverse Stock Split be treated?

A: We do not currently intend to issue fractional shares in connection with the Reverse Stock Split. Fractional shares resulting from the Reverse Stock Split will be collected and pooled by the Company's transfer agent and sold in the open market, and the proceeds will be allocated to the Stockholders' respective accounts pro rata in lieu of fractional shares.

Table of Contents

Q: When will the Reverse Stock Split and Authorized Share Reduction become effective?

A: If approved by the Stockholders, the Reverse Stock Split and Authorized Share Reduction will become effective upon filing the amendment to our Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware. However, notwithstanding approval of the Reverse Stock Split and the Authorized Share Reduction by the Stockholders, the Board will have the sole authority to elect, at any time prior to the first anniversary of the Special Meeting, whether or not to amend the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction. If the Board does not implement the Reverse Stock Split and the Authorized Share Reduction prior the first anniversary of the receipt of the requisite Stockholder approval at the Special Meeting, Stockholder approval would be required again prior to implementing any reverse stock split.

Q: Who is entitled to vote at the Special Meeting?

A: Stockholders of record as of the close of business on the record date will be entitled to notice of, and to vote at, the Special Meeting.

Q: How many shares can vote?

A: On the record date, the Company had [] issued and outstanding shares of Common Stock, which constitute its only outstanding voting securities. Each Stockholder is entitled to one vote for each share of Common Stock held as of the record date.

Q: How does the Board recommend I vote on the proposal?

A: The Board recommends that each Stockholder vote **FOR** the proposal to approve an amendment to the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction.

Q: Why is the Board recommending that I vote **FOR the proposal?**

A: The Board desires to effect the Reverse Stock Split and the Authorized Share Reduction to attempt to achieve a price per share for the Common Stock that may increase the marketability, trading volume and liquidity of the Common Stock.

Q: How many votes must be present to hold the Special Meeting?

A: The presence in person or representation by proxy of the holders of a majority of the outstanding Common Stock on the record date is necessary to constitute a quorum for the matters to be voted upon at the Special Meeting.

Q: What vote is required to approve the proposal?

A: To be approved, the proposal to approve an amendment to the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction must receive a **FOR** vote, either in person or by proxy, from the holders of a majority of the shares of outstanding Common Stock.

Affiliates and co-investors of Thomas H. Lee Partners, L.P. (the **THL Investors**) hold approximately 78.9% of the outstanding shares of Common Stock and have indicated their intention to vote **FOR** the proposal, thereby assuring its

approval. The shares of our Series D Participating Convertible Preferred Stock, all of which were held by affiliates of Goldman, Sachs & Co. (the GS Investors) on the record date, are non-voting while held by the GS Investors and, therefore, are not entitled to vote on the proposal.

Q: If I am a stockholder of record, how do I vote?

A: Your vote is important. You may submit a proxy via the Internet, by telephone or by mail or you may vote by ballot by attending the Special Meeting. The Internet and telephone proxy submission procedures are provided on the accompanying proxy card. If you submit a proxy by telephone or via the Internet, you do not need to return your proxy card.

Table of Contents

Q: If I am a beneficial owner of shares held in street name, how do I vote?

A: If you are a beneficial owner of shares held in street name, you must either direct the brokerage firm, bank, broker-dealer or other record holder of your shares as to how to vote your shares, or obtain a proxy from the brokerage firm, bank, broker-dealer or other record holder to vote at the Special Meeting. Please refer to the voter instruction cards used by your brokerage firm, bank, broker-dealer or other record holder for specific instructions on methods of voting, including by telephone or using the Internet.

Q: How are abstentions treated?

A: Abstentions are counted as being present or represented for purposes of determining whether a quorum is present and will have the same effect as a vote against the proposal.

Q: What happens if I do not give specific voting instructions?

A: **Stockholders of Record.** If you are a stockholder of record and you:

indicate when voting on the Internet or by telephone that you wish to vote as recommended by the Board; or

if you sign and return a proxy card without giving specific voting instructions,

then the proxy holders will vote your shares in the manner recommended by the Board on all matters presented in this Proxy Statement (i.e., in favor of the proposal) and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the Special Meeting.

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, the organization may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization does not have the authority to vote your shares with respect to the non-routine matter. This is generally referred to as a broker non-vote. Broker non-votes will not be counted for purposes of determining whether a quorum is present and will have the same effect as a vote against the proposal. Because we consider the proposal to be a non-routine matter and there are no routine matters expected to be acted on at the Special Meeting, we do not expect to receive any broker non-votes in connection with the Special Meeting.

Q: Can I change my vote or revoke my proxy?

A: Yes. Even if you submitted a proxy by telephone or via the Internet or if you signed the proxy card in the form accompanying this Proxy Statement, you retain the power to revoke your proxy and to change your vote. You can revoke your proxy any time before it is exercised by giving written notice to the Corporate Secretary specifying such revocation. You may also revoke your proxy by a later-dated proxy by telephone or via the Internet or by timely delivery of a valid, later-dated proxy by mail or by voting by ballot at the Special Meeting. Your attendance at the Special Meeting in itself will not automatically revoke a previously submitted proxy. However, if you hold your shares through a broker, bank or nominee and have instructed your broker, bank or nominee how to vote your shares, you must follow directions received from the broker, bank or nominee in order to change your vote or to vote at the Special Meeting.

Q: Are Stockholders entitled to exercise appraisal rights in connection with the proposal?

A: No. Under Delaware law, Stockholders are not entitled to exercise appraisal rights in connection with the proposal, and the Company will not independently provide Stockholders with any such right.

Q: Who is paying for the cost of this proxy solicitation?

A: The Company is paying the costs of the solicitation of proxies. The Company must pay brokerage firms and other persons representing beneficial owners of shares held in street name their reasonable out-of-pocket expenses incurred in connection with sending the proxy materials to beneficial owners and obtaining beneficial owners' voting instructions. In addition to soliciting proxies by mail, the Board members, officers and employees may solicit proxies on the Company's behalf, without additional compensation, personally or by telephone.

THE PROPOSAL

APPROVAL OF AN AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO EFFECT THE REVERSE STOCK SPLIT

General

The Board has authorized, and recommends for approval by the Stockholders, an amendment to the Company's Amended and Restated Certificate of Incorporation that, if approved by the Stockholders and filed with the Secretary of State of the State of Delaware, would effect the following changes:

a reverse stock split of the issued and outstanding Common Stock to combine the shares of the Common Stock at a ratio that will be determined by the Board prior to the filing of the amendment and that will be within a range of one-for-five (1:5) to one-for-ten (1:10) (the Reverse Stock Split); and

following the effectiveness of the Reverse Stock Split, the number of authorized shares of Common Stock would be reduced by the reverse stock split ratio determined by the Board.

If the Company receives the required Stockholder approval of this proposal, the Board will have the sole authority to elect, at any time prior to the first anniversary of the Special Meeting: (1) whether or not to amend the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction, and (2) if so, the number of whole shares of Common Stock between and including five and ten which will be combined into one share of Common Stock, and the number of shares of Common Stock which will be authorized by such amendment, in any of the combinations set forth in the following table:

Number of Whole Shares of Common Stock which will be Combined into One Share of Common Stock	Corresponding Number of Authorized Shares of Common Stock
5	260,000,000
6	216,666,667
7	185,714,286
8	162,500,000
9	144,444,444
10	130,000,000

If the Board elects to effect the Reverse Stock Split at any of the ratios set forth in the table above, the Board will also effect the Authorized Share Reduction to the number of authorized shares of Common Stock corresponding to such reverse stock split ratio in the table above.

If approved by the Stockholders, the Reverse Stock Split and Authorized Share Reduction will become effective upon filing the amendment to the Company's Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware. However, notwithstanding approval of the Reverse Stock Split and the Authorized Share Reduction by the Stockholders, the Board will have the sole authority to elect, at any time prior to the first anniversary of the Special Meeting, whether or not to amend the Company's Amended and Restated Certificate of Incorporation to

effect the Reverse Stock Split and the Authorized Share Reduction. If the Board does not implement the Reverse Stock Split and the Authorized Share Reduction prior to the one year anniversary of the receipt of the requisite Stockholder approval at the Special Meeting, Stockholder approval would be required again prior to implementing any reverse stock split.

The text of the proposed amendment of the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction is included as Appendix A to this Proxy Statement.

Table of Contents

Reasons for the Reverse Stock Split and the Authorized Share Reduction

The Board authorized the Reverse Stock Split and the Authorized Share Reduction with a view to increasing the per share trading price of the Common Stock. Other reasons include:

Increase in Eligible Investors. The Reverse Stock Split could allow a broader range of institutions to invest in the Company's stock (namely, funds that are prohibited or discouraged from buying stocks with a price below a certain threshold), potentially increasing marketability, trading volume and liquidity of the Common Stock. In recent months, the stock market and our stock price have experienced volatility and our stock has traded at prices below the investing guidelines for certain institutional investors and investment funds. We believe that Stockholder approval of the Reverse Stock Split will provide the Board with flexibility to make our Common Stock a more attractive investment for many investors, which we believe will enhance the liquidity for the holders of our Common Stock and may facilitate any future sales of our Common Stock or Series D Preferred Stock held by the THL Investors or the GS Investors if such holders determine to sell such shares.

Increased Analyst and Broker Interest. The Reverse Stock Split could increase analyst and broker interest in the Company's stock as their policies can discourage or prohibit them from following or recommending companies with low stock prices. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have adopted internal policies and practices that either prohibit or discourage them from investing in such stocks or recommending them to their customers. Some of those policies and practices may also function to make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on transactions in low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current average price per share of the Common Stock can result in individual Stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were substantially higher.

Risks Associated with the Reverse Stock Split

The Reverse Stock Split May Not Increase the Company's Stock Price over the Long-Term, Which Would Prevent the Company From Realizing Some of the Anticipated Benefits of the Reverse Stock Split. The Board expects that a Reverse Stock Split of the Common Stock will likely increase the market price of the Common Stock immediately following the Reverse Stock Split. However, the effect of a reverse stock split upon the market price of the Common Stock cannot be predicted with any certainty, and the history of similar stock split combinations for other companies is varied. It is possible that the per share price of the Common Stock after the Reverse Stock Split will not rise in proportion to the reduction in the number of shares of Common Stock outstanding resulting from the Reverse Stock Split. The market price of the Common Stock may be affected by other factors which may be unrelated to the number of shares outstanding, including the Company's future performance.

The Reverse Stock Split May Decrease the Liquidity of the Common Stock. The liquidity of the Common Stock may be decreased by the proposed Reverse Stock Split given the reduced number of shares that would be outstanding after the Reverse Stock Split, particularly if the stock price does not increase as a result of the Reverse Stock Split.

The Reverse Stock Split May Result in Some Stockholders Owning Odd Lots That May Be More Difficult to Sell or Require Greater Transactions Costs per Share to Sell. If the Reverse Stock Split is implemented, it will increase the number of Stockholders who own odd lots of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd lots may be higher than the costs of transactions of more than 100 shares of Common Stock.

Table of Contents

Effects of the Reverse Stock Split

Reduction of Shares Held by Individual Stockholders. After the effective date of the Reverse Stock Split, each Stockholder will own fewer shares of Common Stock. However, the Reverse Stock Split will affect all Stockholders uniformly and will not affect any Stockholder's percentage ownership interest in the Company, except to the extent that the Reverse Stock Split results in any Stockholders receiving cash in lieu of fractional shares as described below. Proportionate voting rights and other rights of the Stockholders will not be affected by the Reverse Stock Split (other than as a result of the payment of cash in lieu of fractional shares). For example, a holder of 2% of the voting power of the outstanding shares of Common Stock immediately prior to the Reverse Stock Split would continue to hold 2% of the voting power of the outstanding shares of Common Stock immediately after the Reverse Stock Split (subject to adjustment for any payment of cash in lieu of fractional shares). The number of Stockholders of record will not be affected by the Reverse Stock Split (except to the extent that any Stockholder holds only a fractional share interest and receives cash for such interest after the Reverse Stock Split).

Reduction in Total Issued and Outstanding Shares. The Reverse Stock Split will reduce the total number of issued and outstanding shares of Common Stock by the reverse stock split ratio determined by the Board within the limits set forth in this proposal.

Change in Number and Exercise Price of Employee and Director Equity Awards. If the Reverse Stock Split is approved and implemented, the terms of equity awards under the MoneyGram International, Inc. 2005 Omnibus Incentive Plan, as amended (the 2005 incentive plan), including the per share exercise price of options and the number of shares issuable under outstanding awards, will be proportionately adjusted to maintain the approximate economic value of the awards. As of June 30, 2011, we had outstanding under the 2005 incentive plan options to purchase 40,671,458 shares of Common Stock at a weighted average exercise price of \$3.02 per share. A Reverse Stock Split will not affect the expiration date of outstanding stock options. The number of shares remaining reserved or available for grant under the 2005 incentive plan and deferred compensation plans will be reduced proportionately as well.

Regulatory Effects. The Common Stock is currently registered under Section 12(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the Company is subject to the periodic reporting and other requirements of the Exchange Act. The Reverse Stock Split will not affect the registration of the Common Stock under the Exchange Act or the Company's obligation to publicly file financial and other information with the Securities and Exchange Commission (the SEC). If the Reverse Stock Split is implemented, the Common Stock will continue to trade on the New York Stock Exchange (the NYSE) under the symbol MGI (although the NYSE would likely add the letter D to the end of the trading symbol for a period of 20 trading days to indicate that the Reverse Stock Split has occurred).

No Going Private Transaction. Notwithstanding the decrease in the number of outstanding shares following the Reverse Stock Split, the Board does not intend for this transaction to be the first step in a series of plans or proposals of a going private transaction within the meaning of Rule 13e-3 of the Exchange Act.

Effect on Ability to Pay Dividends. The Board has not declared, nor does it have any plans to declare in the foreseeable future, any dividends on the Common Stock. The payment of dividends will be in the discretion of the Board. Therefore, the Reverse Stock Split will not have any effect on dividends or other future distributions, if any, to the Company's stockholders.

Effect on Series D Preferred Stock. With respect to our Series D Participating Convertible Preferred Stock, par value \$0.01 per share (the Series D Preferred Stock), the Amended and Restated Certificate of Designations, Preferences and Rights for the Series D Preferred Stock provides that the Conversion Ratio (as defined therein) in effect at the time of the effective date of the Reverse Stock Split shall be adjusted to the number obtained by multiplying the Conversion Ratio in effect at the time of the effective date of the Reverse Stock Split by a fraction, the numerator of

which shall be the number of shares of Common Stock outstanding immediately following such action, and the denominator of which shall be the shares of Common Stock outstanding immediately prior to such action. As of the record date, the Conversion Ratio of the Series D Preferred Stock was 1,000. For example, based on the outstanding shares of Common Stock on the record

Table of Contents

date, the Conversion Ratio would be adjusted to a number from 200 to 100 based on the range of reverse stock split ratios of one-for-five (1:5) to one-for-ten (1:10). The actual Conversion Ratio adjustment will depend on the reverse stock split ratio determined by the Board and the number of shares of Common Stock outstanding on the effective date of the Reverse Stock Split.

Determination of the Specific Reverse Stock Split Ratio

If the Board chooses to implement the Reverse Stock Split, the Board's selection of the specific reverse stock split ratio will be based primarily on the price level of the Common Stock immediately prior to the Reverse Stock Split and the expected stability of the price level of the Common Stock going forward. We expect that the primary focus of the Board in determining the reverse stock split ratio will be to select a ratio that they believe is likely to result in increased marketability and liquidity of the Common Stock and may encourage interest and trading in the Common Stock for the reasons discussed under "Reasons for the Reverse Stock Split and Authorized Share Reduction" above.

We believe that granting the Board the authority to set the ratio for the Reverse Stock Split is essential because it provides the Board with the maximum flexibility to react to changing market conditions and to therefore act in the best interests of the Company and our stockholders. If the Board implements the Reverse Stock Split, the Company will make a public announcement regarding the determination of the exact reverse stock split ratio.

Board Discretion to Implement the Reverse Stock Split and the Authorized Share Reduction

The Board will implement the Reverse Stock Split and the Authorized Share Reduction, if at all and notwithstanding approval of the Reverse Stock Split and Authorized Share Reduction by the Stockholders, only upon a determination by the Board, in its sole discretion, that the Reverse Stock Split and the Authorized Share Reduction are in the best interests of the Company and its Stockholders at the time of such determination. Such determination will be based upon factors the Board deems appropriate, including without limitation the Company's then current stock price, the existing and expected marketability and liquidity of the Common Stock, prevailing market conditions and the likely effect on the market price of the Common Stock. If the Board does not implement the Reverse Stock Split and the Authorized Share Reduction prior to the one year anniversary of the receipt of the requisite Stockholder approval at the Special Meeting, Stockholder approval would be required again prior to implementing any reverse stock split.

Amendment Effective Time

The effective date of the Reverse Stock Split and the Authorized Share Reduction will be the date on which the Certificate of Amendment to the Company's Amended and Restated Certificate of Incorporation to effect the amendment contemplated by this proposal is accepted and recorded by the Delaware Secretary of State (subject to any specific future time of effectiveness stated therein) in accordance with Section 103 of the Delaware General Corporation Law. The exact timing of the filing of the amendment will be determined by the Board based on its determination that such action will be in the best interests of the Company and its Stockholders as described above. Except as explained below with respect to fractional shares, on the effective date of the amendment to effect the Reverse Stock Split, shares of the Common Stock issued and outstanding immediately prior thereto will be combined and converted, automatically and without any action on the part of the Stockholders, into new shares of the Common Stock in accordance with the reverse stock split ratio determined by the Board within the limits set forth in this proposal.

Required Vote

Approval of this proposal requires the affirmative vote, either in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock. Abstentions and broker non-votes will have the same effect as voting

AGAINST the adoption of this proposal because the required vote is based on the number of shares outstanding rather than the number of votes cast. The THL Investors, who hold approximately 78.9% of the outstanding shares of Common Stock have indicated their intention to vote in favor of this proposal,

Table of Contents

thereby assuring its approval. The shares of our Series D Preferred Stock, all of which were held by the GS Investors on the record date, are non-voting while held by the GS Investors and are, therefore, not entitled to vote on this proposal.

The Board urges you to vote FOR this proposal to amend the Company's Amended and Restated Certificate of Incorporation to effect the Reverse Stock Split and the Authorized Share Reduction.

Accounting Treatment

Following the effectiveness of the amendment to the Company's Amended and Restated Certificate of Incorporation, the stated capital on the Company's balance sheet and the additional paid-in capital account, in each case, attributable to the Common Stock, will be adjusted to reflect the Reverse Stock Split. The par value per share of the Common Stock will remain unchanged at \$0.01 per share after the Reverse Stock Split. As a result, on the effective date of the Reverse Stock Split, the stated capital on the Company's consolidated balance sheet attributable to Common Stock will be reduced in proportion to the size of the reverse stock split ratio determined by the Board and the additional paid-in-capital account will be increased by the amount by which the stated capital is reduced. Our stockholders equity, in the aggregate, will remain unchanged. Per share net income or loss will be increased because there will be fewer shares of the Common Stock outstanding. The shares of Common Stock held in treasury will not be reduced in proportion to the size of the reverse stock split ratio determined by the Board. The Company does not anticipate that any other accounting consequences, including changes to the amount of stock-based compensation expense to be recognized in any period, will arise as a result of the Reverse Stock Split.

Interests of Certain Persons in the Proposal

Certain of the Company's officers and directors have an interest in this proposal as a result of their ownership of shares of stock of the Company, as set forth in the section entitled Security Ownership of Management below. However, the Company does not believe that its officers or directors have interests in the Reverse Stock Split or Authorized Share Reduction that are different from or greater than those of any other Stockholder of the Company.

Fractional Shares

The Company does not currently intend to issue fractional shares in connection with the Reverse Stock Split. Stockholders who own the Common Stock prior to the effective date of the Reverse Stock Split and who otherwise would hold fractional shares because the number of shares of the Common Stock they held before the Reverse Stock Split would not be evenly divisible based on the Reverse Stock Split ratio will be entitled to a cash payment (without interest or deduction) in respect of such fractional shares. To avoid the existence of fractional shares of the Common Stock, shares that would otherwise result in fractional shares from the application of the Reverse Stock Split will be collected and pooled by the Company's transfer agent and sold in the open market and the proceeds will be allocated to the Stockholders' respective accounts pro rata in lieu of fractional shares. The Company will not receive any proceeds from any such sales. The ownership of a fractional interest will not give the holder any voting, dividend or other rights, except to receive the above-described cash payment. The Company will be responsible for any brokerage fees or commissions related to the transfer agent's selling in the open market shares that would otherwise represent fractional shares.

Escheat Laws

Stockholders should be aware that, under the escheat laws of various jurisdictions, any amounts due for fractional interests that are not timely claimed after the effective date of the Reverse Stock Split may be required to be paid to the designated agent for each such jurisdiction, unless correspondence has been received by the Company or Wells

Fargo Shareowner Services, the Company's transfer agent, concerning ownership of such funds within the time permitted in such jurisdiction. Thereafter, if applicable, Stockholders otherwise entitled to receive such funds, but who do not receive them due, for example, to their failure to timely comply

with the transfer agent's instructions (described below), will have to seek to obtain such funds directly from the state to which they were paid.

Exchange of Stock Certificates

If the Reverse Stock Split is effected, Stockholders holding certificated shares will be required to exchange their stock certificates for the appropriate number of shares held electronically in book entry form (Book Entry Shares) resulting from the Reverse Stock Split. This means that, instead of receiving a new stock certificate, Stockholders holding certificated shares prior to the effective time of the Reverse Stock Split will receive a statement of holding indicating the number of Book Entry Shares held by them after giving effect to the Reverse Stock Split. Stockholders of record on the effective date of the Reverse Stock Split will be furnished the necessary materials and instructions for the surrender and exchange of share certificates at the appropriate time by the Company's transfer agent. Stockholders will not have to pay any transfer fee or other fee in connection with such exchange. As soon as practicable after the effective date of the Reverse Stock Split, the transfer agent will send a letter of transmittal to each Stockholder advising such holder of the procedure for surrendering certificates representing the number of shares of the Common Stock prior to the Reverse Stock Split (Old Stock Certificates) in exchange for Book Entry Shares representing the number of shares of the Common Stock resulting from the Reverse Stock Split.

You should not send your Old Stock Certificates now. You should send them only after you receive the letter of transmittal from the Company's transfer agent.

As soon as practicable after the surrender to the transfer agent of any Old Stock Certificate, together with a duly executed letter of transmittal and any other documents the transfer agent may specify, the transfer agent will deliver to the person in whose name such Old Stock Certificate had been issued Book Entry Shares registered in the name of such person.

Until surrendered as contemplated herein, each Old Stock Certificate shall be deemed at and after the effective time of the Reverse Stock Split to represent the number of full shares of the Common Stock resulting from the Reverse Stock Split. Until they have surrendered their Old Stock Certificates for exchange, Stockholders will not be entitled to receive any dividends or other distributions, if any, that may be declared and payable to holders of record.

Any Stockholder whose Old Stock Certificate has been lost, destroyed or stolen will be entitled to Book Entry Shares only after complying with the requirements that the Company and the transfer agent customarily apply in connection with lost, stolen or destroyed certificates.

If any Book Entry Shares are to be issued in a name other than that in which the Old Stock Certificates are registered, it will be a condition of such issuance that (1) the person requesting such issuance must pay to the Company any applicable transfer taxes or establish to the Company's satisfaction that such taxes have been paid or are not payable, (2) the transfer complies with all applicable federal and state securities laws, and (3) the surrendered certificate is properly endorsed and otherwise in proper form for transfer. In all other cases, no service charges, brokerage commissions or transfer taxes shall be payable by any holder of any Old Stock Certificate.

Stockholders who hold only uncertificated shares, either as direct or beneficial owners, will have their holdings electronically adjusted by the Company's transfer agent and, for beneficial owners, by their brokers or banks which hold in street name for their benefit, as the case may be to give effect to the Reverse Stock Split.

Certain U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following discussion is a summary of certain U.S. federal income tax consequences of the Reverse Stock Split to the Company and to Stockholders that hold shares of the Common Stock as capital assets for U.S. federal income tax purposes. This discussion is based upon provisions of the U.S. Internal Revenue Code of 1986, as amended (the Code), the Treasury regulations promulgated under the Code, and U.S. administrative rulings and court decisions, all as in effect on the date hereof and all of which are subject

Table of Contents

to change, possibly with retroactive effect, and differing interpretations. Changes in these authorities may cause the U.S. federal income tax consequences of the Reverse Stock Split to vary substantially from the consequences summarized below.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to Stockholders in light of their particular circumstances or to Stockholders who may be subject to special tax treatment under the Code, including, without limitation, dealers in securities, commodities or foreign currency, persons who are treated as non-U.S. persons for U.S. federal income tax purposes, certain former citizens or long-term residents of the United States, insurance companies, tax-exempt organizations, banks, financial institutions, small business investment companies, regulated investment companies, real estate investment trusts, retirement plans, persons that are partnerships or other pass-through entities for U.S. federal income tax purposes, persons whose functional currency is not the U.S. dollar, traders that mark-to-market their securities, persons subject to the alternative minimum tax, persons who hold their shares of Common Stock as part of a hedge, straddle, conversion or other risk reduction transaction, or who acquired their shares of Common Stock pursuant to the exercise of compensatory stock options, the vesting of previously restricted shares of stock or otherwise as compensation. If a partnership or other entity classified as a partnership for U.S. federal income tax purposes holds shares of Common Stock, the tax treatment of a partner thereof will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner in a partnership holding shares of Common Stock, you should consult your tax advisor regarding the tax consequences of the Reverse Stock Split.

The Company has not sought, and will not seek, a ruling from the U.S. Internal Revenue Service (the IRS) or an opinion of counsel regarding the U.S. federal income tax consequences of the Reverse Stock Split. As a result, there can be no assurance that the IRS will not challenge the statements and conclusions set forth below or that a court would not sustain any such challenge. In addition, this summary does not address any state, local, estate, alternative minimum, or foreign tax consequences of the Reverse Stock Split. **Accordingly, each Stockholder should consult its own tax advisor regarding the U.S. federal, state, local, foreign, and other tax consequences of the Reverse Stock Split to such Stockholder.**

Tax Consequences to the Company. We believe that the Reverse Stock Split will constitute a reorganization under Section 368(a)(1)(E) of the Code. Accordingly, we should not recognize taxable income, gain or loss in connection with the Reverse Stock Split. In addition, we do not expect the Reverse Stock Split to affect our ability to utilize our net operating loss carryforwards.

Tax Consequences to Stockholders. Except with respect to any cash received by a Stockholder in lieu of a fractional share of Common Stock, discussed below, the Stockholders should not recognize any gain or loss for U.S. federal income tax purposes as a result of the Reverse Stock Split. Each Stockholder's aggregate tax basis in the Common Stock it receives pursuant to the Reverse Stock Split (including any fractional share not actually received) should equal the Stockholder's aggregate tax basis in the Common Stock it surrenders therefor. In addition, each Stockholder's holding period for the Common Stock it receives in the Reverse Stock Split should include such Stockholder's holding period for the Common Stock it surrenders therefor.

In general, the receipt of cash by a Stockholder in lieu of a fractional share of the Common Stock pursuant to the Reverse Stock Split should be treated for U.S. federal income tax purposes as though such fractional share had been issued to the Stockholder pursuant to the Reverse Stock Split and then redeemed by the Company, and such Stockholder should recognize taxable gain or loss thereon based on the difference between the amount of cash received and such Stockholder's basis in the fractional share. Such gain or loss will generally be capital gain or loss and will be long-term capital gain or loss if the Stockholder's holding period in the fractional share is greater than one year as of the effective date of the Reverse Stock Split. Special rules may apply to cause all or a portion of the cash received in lieu of a fractional share to be treated as dividend income with respect to certain Stockholders who own

more than a minimal amount of Common Stock (generally more than 1%), who exercise some control over the affairs of the Company, or whose relative ownership of the Common Stock is not reduced as a result of the Reverse Stock Split (determined after applying certain ownership attribution rules that may treat the Common Stock owned by certain family members and related entities of a Stockholder as owned by such Stockholder). Stockholders should consult

Table of Contents

their own tax advisors regarding the tax effects to them of receiving cash in lieu of fractional shares based on their particular circumstances.

Information Reporting and Backup Withholding. Information returns generally will be required to be filed with IRS with respect to the receipt of cash in lieu of a fractional share of Common Stock pursuant to the Reverse Stock Split in the case of certain Stockholders. In addition, Stockholders may be subject to backup withholding (at the current applicable rate of 28%) on the payment of such cash if they do not provide their taxpayer identification numbers in the manner required or otherwise fail to comply with applicable backup withholding rules. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or allowed as a credit against the Stockholder's federal income tax liability, if any, provided the required information is timely furnished to the IRS.

THE BOARD RECOMMENDS A VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION WHICH WILL (I) EFFECT THE REVERSE STOCK SPLIT AND (II) PROPORTIONATELY REDUCE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK IF THE BOARD DETERMINES, IN ITS SOLE DISCRETION, AT ANY TIME PRIOR TO THE FIRST ANNIVERSARY OF THE SPECIAL MEETING THAT THE REVERSE STOCK SPLIT AND THE AUTHORIZED SHARE REDUCTION ARE IN THE BEST INTERESTS OF THE COMPANY AND THE STOCKHOLDERS.
