SOMANETICS CORPORATION

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

AUGUST 31, 2001

1. ORGANIZATION AND OPERATIONS

We are a Michigan corporation that was formed in January 1982. We develop, manufacture and market the INVOS(R) Cerebral Oximeter, the only non-invasive patient monitoring system commercially available in the United States that continuously measures changes in the blood oxygen level in the brain. The Cerebral Oximeter is based on our proprietary In Vivo Optical Spectroscopy, or INVOS, technology. INVOS analyzes various characteristics of human blood and tissue by measuring and analyzing low-intensity visible and near infrared light transmitted into portions of the body. We are also developing the CorRestore(TM) patch for use in cardiac repair and reconstruction, including heart surgeries called surgical anterior ventricular endocardial restoration, or SAVER.

2. FINANCIAL STATEMENT PRESENTATION

We prepared our unaudited interim financial statements pursuant to the Securities and Exchange Commission's rules. Accordingly, they do not include all of the information and footnotes normally included in our annual financial statements prepared in accordance with generally accepted accounting principles. We believe, however, that the disclosures are adequate to make the information presented not misleading.

The unaudited interim financial statements in this report reflect all adjustments which are, in our opinion, necessary to a fair statement of the results for the interim periods presented. All of these adjustments that are material are of a normal recurring nature. Our operating results for the nine-month period ended August 31, 2001 do not necessarily indicate the results that you should expect for the year ending November 30, 2001. You should read

## Edgar Filing: SOMANETICS CORP - Form 10-Q

the unaudited interim financial statements together with the financial statements and related footnotes for the year ended November 30, 2000 included in our Annual Report on Form 10-K for the fiscal year ended November 30, 2000.

We have incurred an accumulated deficit of \$52,505,153 through August 31, 2001. We had working capital of \$1,577,846, cash and cash equivalents of \$424,088, total current liabilities of \$533,479 and shareholders' equity of \$2,844,333 as of August 31, 2001.

We believe that markets exist for the products we have developed and are developing; however, whether our products will be successful is uncertain. You should consider the following factors in evaluating the likelihood of our success: our limited resources and current financial condition, the problems and expenses frequently encountered by companies developing a new business, our ability to raise new funds, our ability to develop, apply and market new technology, and our industry and competitive environment.

For further discussion of our financial condition, including recent sales of securities, our working capital, our liquidity resources, requirements and plans, and our ability to continue as a going concern, please refer to "Liquidity and Capital Resources" in "Management's Discussion and Analysis of Financial Condition and Results of Operations."

### SOMANETICS CORPORATION

#### NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

AUGUST 31, 2001

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventory is stated at the lower of cost or market on a first-in, first-out (FIFO) basis. Inventory consists of:

	August 31, 2001	November 30, 2000
	-----	-----
Finished goods.....	\$ 57,941	\$ 36,374
Work in process.....	219,949	124,127
Purchased components.....	700,007	453,429
	-----	-----
Total.....	\$ 977,897	\$ 613,930
	=====	=====

Intangible Assets consist of patents and trademarks, and license acquisition costs. Patents and trademarks are recorded at cost and are being amortized on the straight-line method over 17 years. License acquisition costs are related to our acquisition of exclusive, worldwide, royalty-bearing licenses to specified rights relating to the CorRestore(TM) patch and related products and accessories.

## Edgar Filing: SOMANETICS CORP - Form 10-Q

We entered into a License Agreement as of June 2, 2000 with the inventors and their company, CorRestore LLC. The license grants us exclusive, worldwide, royalty-bearing licenses to specified rights relating to the CorRestore(TM) patch and related products and accessories for SAVER, subject to the terms and conditions of the license agreement. Pursuant to the license agreement, CorRestore LLC has agreed to provide various consulting services to us. We have agreed to pay all of the expenses of such consultation, of clinical testing of the CorRestore(TM) patch, training doctors in SAVER and training our personnel and customers in the use of the CorRestore(TM) patch.

In exchange for the licenses and consulting services, we agreed to the following compensation for CorRestore LLC and its agent, Wolfe & Company: (1) a royalty of 10% of our "net sales" of products subject to the licenses, (2) five-year warrants to purchase up to 400,000 Common Shares at \$3.00 a share, exercisable to purchase 300,000 shares immediately and to purchase an additional 50,000 shares upon our receipt of clearance or approval from the FDA to market the CorRestore(TM) patch in the United States and another 50,000 shares upon our receipt of CE certification for the CorRestore(TM) patch, (3) additional five-year warrants to purchase up to 2,100,000 common shares at \$3.00 a share, to be granted when we receive clearance or approval from the FDA to market the CorRestore(TM) patch in the United States, exercisable based on our cumulative net sales of the CorRestore(TM) patch products, and (4) a consulting fee of \$25,000 a year to each of the inventors until we sell 1,000 CorRestore(TM) patches.

6

7

### SOMANETICS CORPORATION

#### NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

AUGUST 31, 2001

License acquisition costs consist of professional service fees recorded at cost, our estimate of the fair value of the ten-year vested stock options to purchase 50,000 common shares at \$3.00 a share granted to one of our directors in connection with negotiating and assisting us in completing the transaction, and our estimate of the fair value of the 300,000 common share vested portion of the five-year warrants to purchase up to 400,000 common shares at \$3.00 a share issued in the transaction. We estimated the value of the stock options to purchase 50,000 common shares using the Black-Scholes valuation model with the following assumptions: expected volatility (the measure by which the stock price has fluctuated or is expected to fluctuate during the period) 111.16%, risk-free interest rate of 7.5%, expected life of 4 years and dividend yield of 0%. We estimated the value of the warrants to purchase 300,000 common shares using the Black-Scholes valuation model with the following assumptions: expected volatility (the measure by which the stock price has fluctuated or is expected to fluctuate during the period) 111.16%, risk-free interest rate of 7.5%, expected life of 5 years and dividend yield of 0%.

These costs are being amortized on the straight-line method over 5 years. Intangible assets consist of:

August 31, 2001  
-----

November 30, 2000  
-----

Edgar Filing: SOMANETICS CORP - Form 10-Q

License acquisition costs.....	\$ 1,096,898	\$ 1,096,898
Patents and trademarks.....	111,733	111,733
	-----	-----
Sub-total.....	1,208,631	1,208,631
Less accumulated amortization....	(339,661)	(169,943)
	-----	-----
Total.....	\$ 868,970	\$ 1,038,688
	=====	=====

Intangible assets are reviewed periodically for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recovered.

Loss Per Common Share - basic and diluted, is computed using the weighted average number of common shares outstanding during each period. Common shares issuable under stock options and warrants have not been included in the computation of the net loss per Common Share - diluted, because such inclusion would be antidilutive. As of August 31, 2001 and August 31, 2000, we had outstanding 2,683,328 and 2,262,081, respectively, of warrants and options to purchase common shares.

Accounting Pronouncements Effective December 1, 2000, we adopted Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities." This statement had no impact on our financial statements. Effective July 1, 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." This Statement is effective for fiscal years beginning after December 15, 2001, and establishes accounting and reporting standards for goodwill and other intangible assets. This Statement is effective for our financial statements for the fiscal year ending November 30, 2003. We have not yet determined the impact of this Statement on our financial statements.

Reclassifications - Certain reclassifications have been made to the financial statements for 2000 to conform to the 2001 presentation.

	-----	-----
Total .....	\$124,495	\$267,184
	=====	=====

### 5. COMMITMENTS AND CONTINGENCIES

We may become subject to products liability claims by patients or physicians, and may become a defendant in products liability or malpractice litigation. We have obtained products liability insurance and an umbrella policy. We might not be able to maintain such insurance or such insurance might not be sufficient to protect us against products liability.

### 6. COMMON STOCK

On December 4, 2000, we completed the sale of 112,994 common shares to Kingsbridge, at a price of \$1.77 per share, for gross proceeds of \$200,000.

Effective December 4, 2000, we granted 10-year options under the 1991 Stock Option Plan to purchase 14,667 common shares, and we granted 10-year options under the 1997 Stock Option Plan to purchase 180,333 common shares, to 27 of our key employees (including officers) and one of our consultants at an exercise price of \$1.97 per share (the closing sale price of the common shares as of the date of grant). Effective March 5, 2001, we granted 10-year options under the 1997 Stock Option Plan to purchase 322,800 common shares to seven of our key employees (including officers) at an exercise price of \$2.00 per share (the closing sale price of the common shares as of the date of grant). Stock Options issued to non-employees are valued at the date of grant using the Black Scholes valuation model, and are expensed as compensation expense over the vesting period of the stock option.

Effective February 22, 2001, we granted to five of our directors, who are not officers or employees, 10-year options under the 1997 Stock Option Plan to purchase an aggregate of 10,000 common shares at an exercise price of \$2.31 per share (the closing sale price of the common shares as of the date of grant).

On February 22, 2001, our shareholders approved the issuance of warrants to purchase 2,100,000 common shares to CorRestore LLC under specified circumstances pursuant to our CorRestore(TM) license agreement and to issue the underlying shares upon exercise of those warrants.

On February 22, 2001, our shareholders approved an amendment to the Somanetics Corporation 1997 Stock Option Plan to increase the number of common shares reserved for issuance pursuant to the exercise of options granted under the 1997 Plan by 325,000 shares, from 1,335,000 to 1,660,000 shares.

## Edgar Filing: SOMANETICS CORP - Form 10-Q

Effective March 5, 2001, we de-registered the remaining shares originally registered for resale by Kingsbridge Capital Limited under the Private Equity Line Agreement, because we no longer intend to sell any more shares to Kingsbridge, except upon any exercise of its warrant, and Kingsbridge is no longer publicly offering for resale the shares subject to the warrant we granted to them. On April 10, 2001, we mutually agreed with Kingsbridge to terminate the Private Equity Line Agreement, the related Registration Rights Agreement, and Kingsbridge's right to the discount on any unsold shares, in exchange for our payment of \$200,000 to Kingsbridge.

On April 9, 2001, we completed the private placement of 1,325,000 newly-issued common shares at a price of \$1.75 per share, for gross proceeds of \$2,318,750. Our estimated net proceeds, after deducting the placement agent's commission and the expenses of the offering, were approximately \$2,156,000. Brean Murray & Co., Inc. was our exclusive placement agent for the offering and received for its services (1) \$104,362.50 as a placement agent fee, and (2) warrants to purchase 25,000 common shares at \$2.10 per share exercisable during the four-year period beginning April 9, 2002. A. Brean Murray, one of our directors, and his wife control Brean Murray & Co., Inc. In addition, the Brean Murray & Co., Inc. Profit Sharing Plan purchased 32,285 common shares in the offering, and Robert R. Henry, one of our directors, purchased 100,000 common shares in the offering.

### 7. NOTES PAYABLE - BANK LINE OF CREDIT

On February 13, 2001, we entered into a Loan and Security Agreement with Crestmark Bank for a working capital line of credit for up to \$750,000, collateralized by all of our assets. Under the Agreement, Crestmark Bank may, but is not obligated to, lend us amounts we request from time to time, up to \$750,000, if no default exists. The loans are limited by a borrowing base based on qualifying accounts receivable and lender reserves. The loan is payable on demand, and collections of our receivables are directed to Crestmark Bank in payment of any outstanding balance of the loan.

The principal amount outstanding bears interest, payable monthly, at the prime rate (6% at September 25, 2001) plus 2% plus a 2.4% service fee, and we paid a \$45,000 commitment fee for the loan. Through August 31, 2001, we have borrowed \$920,050 under the agreement and repaid \$920,050 in principal amount through Crestmark's collection of our receivables and by using some of the proceeds from our April 9, 2001 offering. As of August 31, 2001, \$472,388 was available for borrowing, at Crestmark's discretion, under the facility. We have agreed to use the proceeds of the loans solely as working capital. The line of credit requires us to maintain minimum tangible net worth of \$500,000 and a ratio of total liabilities to tangible net worth not to exceed 3:1. The line of credit terminates upon Crestmark's demand.

### SOMANETICS CORPORATION

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

Some of the statements in this report are forward-looking statements. These forward-looking statements include statements relating to our performance

## Edgar Filing: SOMANETICS CORP - Form 10-Q

in this Management's Discussion and Analysis of Financial Condition and Results of Operations. In addition, we may make forward-looking statements in future filings with the Securities and Exchange Commission and in written material, press releases and oral statements issued by us or on our behalf. Forward-looking statements include statements regarding the intent, belief or current expectations of us or our officers, including statements preceded by, followed by or including forward-looking terminology such as "may," "will," "should," "believe," "expect," "anticipate," "estimate," "continue," "predict" or similar expressions, with respect to various matters.

It is important to note that our actual results could differ materially from those anticipated from the forward-looking statements depending on various important factors. These important factors include our history of losses and ability to continue as a going concern, our current dependence on the Cerebral Oximeter and SomaSensor, the challenges associated with developing new products, the uncertainty of acceptance of our products by the medical community, the lengthy sales cycle for our products, competition in our markets, our need for additional financing, our dependence on our distributors, and the other factors discussed under the caption "Risk Factors" and elsewhere in our Registration Statement on Form S-3 (file no. 333-59376) effective May 3, 2001 and elsewhere in this report.

All forward-looking statements in this report are based on information available to us on the date of this report. We do not undertake to update any forward-looking statements that may be made by us or on our behalf in this report or otherwise. In addition, please note that matters set forth under the caption "Risk Factors" in our registration statement constitute cautionary statements identifying important factors with respect to the forward-looking statements, including certain risks and uncertainties, that could cause actual results to differ materially from those in such forward-looking statements.

### RESULTS OF OPERATIONS

#### OVERVIEW

We develop, manufacture and market the INVOS Cerebral Oximeter, the only non-invasive patient monitoring system commercially available in the United States that continuously measures changes in the blood oxygen level in the brain. We are also developing the CorRestore(TM) patch for use in cardiac repair and reconstruction, including heart surgeries called surgical anterior ventricular endocardial restoration, or SAVER. The model 4100 Cerebral Oximeter was introduced in October 1997 and we began shipping the model 4100 in the first quarter of fiscal 1998. During the third quarter of fiscal 1999, we introduced our new model 5100 Cerebral Oximeter at an international trade show, and began international shipments of the model 5100 in August 1999. The model 5100 Cerebral Oximeter has the added capability of being able to monitor pediatric patients. In September 2000, we received clearance from the FDA to market the model 5100 Cerebral Oximeter in the United States. In June 2000, we entered into a license agreement for the CorRestore patch, which requires testing and FDA clearance or approval before we can sell it in the United States. During the second quarter of fiscal 2001, we submitted our 510(k) application to the FDA for the CorRestore patch, and are awaiting FDA clearance to market the CorRestore patch in the United States.

## Edgar Filing: SOMANETICS CORP - Form 10-Q

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

During fiscal 2000 and the first three quarters of fiscal 2001, our primary activities consisted of sales and marketing of the Cerebral Oximeter and the related disposable SomaSensor. We had an accumulated deficit of \$52,505,153 through August 31, 2001. We believe that our accumulated deficit will continue to increase for the foreseeable future.

We derive our revenues from sales of Cerebral Oximeters and SomaSensors to our distributors and to hospitals in the United States through our direct sales employees and our independent sales representatives. We recognize revenues when we ship our products to our distributors or to hospitals. Payment terms are generally net 30 days for United States sales and net 60 days or longer for international sales. Our primary expenses, excluding the cost of our products, are selling, general and administrative and research, development and engineering. During fiscal 1998, we began a no-cap sales program whereby we ship the Cerebral Oximeter to the customer at no charge, in exchange for the customer agreeing to purchase at a premium a minimum monthly quantity of SomaSensors.

THREE MONTHS ENDED AUGUST 31, 2001 COMPARED TO THREE MONTHS ENDED AUGUST 31, 2000

Our net revenues increased approximately \$104,000, or 10%, from \$1,006,408 in the three-month period ended August 31, 2000 to \$1,110,721 in the three-month period ended August 31, 2001. The increase in net revenues is primarily attributable to

- An increase in United States sales of approximately \$335,000, or 52%, from approximately \$637,000 in the third quarter of fiscal 2000 to approximately \$972,000 in the third quarter of fiscal 2001. This increase is primarily attributable to a 61% increase in sales of the disposable SomaSensor attributable to the growing use of the Cerebral Oximeter in cardiac and cardiovascular surgery programs in the United States.
- An 8% increase in the average selling price of SomaSensors, primarily as a result of no-cap sensor sales.

The increase in net revenues was partially offset by

- a decrease in international sales of approximately \$230,000, from approximately \$369,000 in the third quarter of fiscal 2000 to approximately \$139,000 in the third quarter of fiscal 2001. This decrease is primarily due to the stocking order for model 4100 and model 5100 Cerebral Oximeters and SomaSensors by Tyco Healthcare AG, formerly Nellcor Puritan Bennett Export Inc., in the third quarter of fiscal 2000, delays in marketing the Cerebral Oximeter in 39 markets, including Europe, in fiscal 2001, and reduced purchases by Baxter Limited in Japan in the third quarter of fiscal 2001. We expect international revenues to return to more normal levels by the fourth quarter of fiscal 2001.
- A 12% decrease in the average selling price of Cerebral Oximeters, primarily as a result of a change in the United States sales mix between direct sales of the Cerebral Oximeter and no-cap placements of the Cerebral Oximeter.

Approximately 13% of our net revenues in the third quarter of fiscal

## Edgar Filing: SOMANETICS CORP - Form 10-Q

2001 were export sales, compared to approximately 37% of our net revenues in the third quarter of fiscal 2000. Sales of SomaSensors, model 4100 Cerebral Oximeters, and model 5100 Cerebral Oximeters as a percentage of net revenues were as follows:

11

12

### SOMANETICS CORPORATION

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

PRODUCT -----	PERCENT OF NET REVENUE THIRD QUARTER OF FISCAL	
	2001 -----	2000 -----
SomaSensors.....	79%	59%
Model 4100 Cerebral Oximeters.....	13%	23%
Model 5100 Cerebral Oximeters.....	8%	18%
Total.....	100% =====	100% =====

One international distributor accounted for approximately 22% of net revenues for the three months ended August 31, 2000.

Gross margin as a percentage of net revenues was approximately 65% for the quarter ended August 31, 2001 and approximately 58% for the quarter ended August 31, 2000. The increase in gross margin as a percentage of net revenues is primarily attributable to

- an 8% increase in the average selling price of SomaSensors described above, and
- increased shipments of our new model SomaSensor, which was launched in the second quarter of 2001. This new model SomaSensor is less costly to manufacture than the previous model SomaSensor that was shipped in the third quarter of fiscal 2000.

These increases were partially offset by a 12% decrease in the average selling price of Cerebral Oximeters described above.

Our research, development and engineering expenses increased approximately \$110,000, or 100%, from \$110,594 for the three months ended August 31, 2000 to \$221,010 for the three months ended August 31, 2001. The increase is primarily attributable to a \$132,000 increase in costs associated with the development of the CorRestore patch.

## Edgar Filing: SOMANETICS CORP - Form 10-Q

Selling, general and administrative expenses decreased approximately \$87,000, or 6%, from \$1,413,622 for the three months ended August 31, 2000 to \$1,326,302 for the three months ended August 31, 2001. The decrease in selling, general and administrative expense is primarily attributable to

- a \$125,000 decrease in salaries, wages, commissions and related expenses, primarily as a result of a reduction in the number of employees, principally sales and marketing, since September 1, 2000 (from an average of 40 employees for the quarter ended August 31, 2000 to an average of 30 employees for the quarter ended August 31, 2001), and
- a \$33,000 decrease in clinical research expenses, primarily related to the model 5100 Cerebral Oximeter.

These increases were partially offset by approximately \$76,000 in commissions paid to our independent sales representatives in the third quarter of fiscal 2001. These representatives were engaged in fiscal 2001.

13

### SOMANETICS CORPORATION

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

For the three-month period ended August 31, 2001, we realized an 18% decrease in our net loss over the same period in fiscal 2000. The decrease is primarily attributable to

- a 10% increase in net revenue,
- a 7% increase in gross margin percentage, and
- a \$78,000 decrease in realized losses on sales of securities due to a realized loss on the sale of marketable securities in the third quarter of fiscal 2000.

The decreased net loss was achieved despite a 2% increase in operating expenses.

NINE MONTHS ENDED AUGUST 31, 2001 COMPARED TO NINE MONTHS ENDED AUGUST 31, 2000

Our net revenues increased approximately \$336,000, or 10%, from \$3,474,089 in the nine-month period ended August 31, 2000 to \$3,809,727 in the nine-month period ended August 31, 2001. The increase in net revenues is primarily attributable to

- An increase in United States sales of approximately \$1,068,000, or 57%, from approximately \$1,885,000 in the first three quarters of fiscal 2000 to approximately \$2,953,000 in the first three quarters of fiscal 2001. This increase is primarily attributable to increased sales of the disposable SomaSensor, increased sales of the Cerebral Oximeter, and initial purchases of demonstration equipment by independent

Edgar Filing: SOMANETICS CORP - Form 10-Q

sales representatives.

- a 9% increase in the average selling price of SomaSensors, and a 10% increase in the average selling price of Cerebral Oximeters, primarily as a result of a change in the sales mix between sales in the United States and sales to international distributors, and a change in the United States sales mix between direct sales of the Cerebral Oximeter and no-cap placements of the Cerebral Oximeter.

The increase in net revenues was partially offset by a decrease in international sales of approximately \$732,000, from approximately \$1,589,000 in the first three quarters of fiscal 2000 to approximately \$857,000 in the first three quarters of fiscal 2001. This decrease is primarily due to the stocking orders for model 4100 and model 5100 Cerebral Oximeters and SomaSensors by Tyco Healthcare AG in the second and third quarters of fiscal 2000, delays in marketing the Cerebral Oximeter in 39 markets, including Europe, in fiscal 2001, and reduced purchases by Baxter Limited in Japan.

Approximately 22% of our net revenues in the first three quarters of fiscal 2001 were export sales, compared to approximately 46% of our net revenues in the first three quarters of fiscal 2000. Sales of SomaSensors, model 4100 Cerebral Oximeters, model 5100 Cerebral Oximeters, and model 4100 exchanges as a percentage of net revenues were as follows:

SOMANETICS CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

PRODUCT	PERCENT OF NET REVENUE	
	FIRST THREE QUARTERS OF FISCAL 2001	FISCAL 2000
-----	-----	-----
SomaSensors.....	62%	51%
Model 4100 Cerebral Oximeters.....	26%	30%
Model 5100 Cerebral Oximeters.....	12%	17%
Model 4100 Exchanges.....	0%	2%
	-----	-----
Total.....	100%	100%
	=====	=====

One international distributor accounted for approximately 11% of net revenues for the nine months ended August 31, 2001, and two international distributors accounted for approximately 20% and 14%, respectively, of net revenues for the nine months ended August 31, 2000.

Gross margin as a percentage of net revenues was approximately 63% for

## Edgar Filing: SOMANETICS CORP - Form 10-Q

the nine months ended August 31, 2001 and approximately 53% for the nine months ended August 31, 2000. The increase in gross margin as a percentage of net revenues is primarily attributable to a 9% increase in the average selling price of SomaSensors and a 10% increase in the average selling price of Cerebral Oximeters described above.

Our research, development and engineering expenses increased approximately \$297,000, or 91%, from \$326,119 for the nine months ended August 31, 2000 to \$623,114 for the nine months ended August 31, 2001. The increase is primarily attributable to a \$325,000 increase in costs associated with the development of the CorRestore patch.

Selling, general and administrative expenses decreased approximately \$89,000, or 2%, from \$4,266,488 for the nine months ended August 31, 2000 to \$4,177,980 for the nine months ended August 31, 2001. The decrease in selling, general and administrative expense is primarily attributable to

- a \$280,000 decrease in salaries, wages, commissions and related expenses, primarily as a result of a reduction in the number of employees, principally sales and marketing, since September 1, 2000 (from an average of 41 employees for the nine months ended August 31, 2000 to an average of 33 employees for the nine months ended August 31, 2001),
- a \$192,000 decrease in travel and selling-related expenses primarily related to reduced trade show and travel expenses, and reduced marketing expenses as a result of promotional materials and training for Tyco Healthcare AG in fiscal 2000, and
- an \$84,000 decrease in clinical research expenses, primarily related to the model 5100 Cerebral Oximeter.

These decreases were partially offset by

- a \$200,000 termination fee related to the Kingsbridge Capital Limited Private Equity Line,
- \$157,000 in commissions paid to our independent sales representatives engaged in fiscal 2001, and
- a \$110,000 increase in intangible amortization expense related to the amortization of license acquisition costs.

15

### SOMANETICS CORPORATION

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

For the nine-month period ended August 31, 2001, we realized a 15% decrease in our net loss over the same period in fiscal 2000. The decrease is primarily attributable to

## Edgar Filing: SOMANETICS CORP - Form 10-Q

- a 10% increase in net revenues,
- a 10% increase in gross margin percentage, and
- a \$133,000 decrease in realized losses on sales of securities due to a realized loss on the sale of marketable securities in the first three quarters of fiscal 2000.

The decreased net loss was achieved despite

- a 5% increase in operating expenses, and
- an approximately \$60,000 decrease in interest income, primarily due to the absence of marketable securities for fiscal 2001.

### LIQUIDITY AND CAPITAL RESOURCES

Net cash used in operations during the nine-month period ended August 31, 2001 was approximately \$1,885,000. Cash was used primarily to

- fund our net loss, primarily selling, general and administrative expenses and research, development and engineering expenses, totaling approximately \$2,002,000, before depreciation and amortization expense,
- increase inventories by approximately \$364,000, primarily due to a depletion of inventory resulting from fourth quarter 2000 sales and the purchase of components related to our new generation SomaSensor, and
- decrease accounts payable by approximately \$100,000, and accrued liabilities by approximately \$143,000, primarily as a result of payments made in fiscal 2001.

These uses of cash were partially offset by a decrease in accounts receivable of approximately \$698,000, primarily because of lower third quarter 2001 sales than fourth quarter 2000 sales.

We expect our working capital requirements to increase if sales increase. Capital expenditures in the first nine months of fiscal 2001 were approximately \$156,000. Approximately \$106,000 of these expenditures were for Cerebral Oximeter demonstration units and no-cap units, and approximately \$50,000 of these expenditures were for manufacturing tooling for our new generation SomaSensor. We expect our capital requirements to increase as a result of the costs of developing and testing the CorRestore patch.

SOMANETICS CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

## Edgar Filing: SOMANETICS CORP - Form 10-Q

On December 4, 2000, we completed the sale of 112,994 common shares to Kingsbridge Capital Limited, at a price of \$1.77, for gross proceeds of \$200,000. Our net proceeds, after deducting the commissions and the estimated expenses of the offering, were approximately \$187,000. Effective March 5, 2001, we de-registered the remaining shares originally registered for resale by Kingsbridge under the Private Equity Line Agreement, because we no longer intend to sell any more shares to Kingsbridge, except upon any exercise of its warrant, and Kingsbridge is no longer publicly offering for resale the shares subject to the warrant we granted to them. On April 10, 2001, we mutually agreed with Kingsbridge to terminate the Private Equity Line Agreement, the related Registration Rights Agreement, and Kingsbridge's right to the discount on any unsold shares, in exchange for our payment of \$200,000 to Kingsbridge.

On February 13, 2001, we entered into a Loan and Security Agreement with Crestmark Bank for a working capital line of credit for up to \$750,000, collateralized by all of our assets. Under the agreement, Crestmark Bank may, but is not obligated to, lend us amounts we request from time to time, up to \$750,000, if no default exists. The loans are limited by a borrowing base based on qualifying accounts receivable and lender reserves. The loan is payable on demand, and our collections of our receivables are directed to Crestmark Bank in payment of any outstanding balance of the loan.

The principal amount outstanding bears interest, payable monthly, at the prime rate (6% at September 25, 2001) plus 2% plus a 2.4% service fee, and we paid a \$45,000 commitment fee for the loan. Through August 31, 2001, we have borrowed \$920,050 under the agreement and repaid \$920,050 in principal amount through Crestmark's collection of our receivables and by using some of the proceeds from our April 9, 2001 offering. As of August 31, 2001, \$472,388 was available for borrowing, at Crestmark's discretion, under the facility. We have agreed to use the proceeds of the loans solely as working capital. The line of credit requires us to maintain minimum tangible net worth of \$500,000 and a ratio of total liabilities to tangible net worth not to exceed 3:1. The line of credit terminates upon Crestmark's demand.

On April 9, 2001, we completed the private placement of 1,325,000 newly-issued common shares at a price of \$1.75 per share, for gross proceeds of \$2,318,750. Our estimated net proceeds, after deducting the placement agent's commission and the expenses of the offering, were approximately \$2,156,000. Brean Murray & Co., Inc. was our exclusive placement agent for the offering and received for its services (1) \$104,362.50 as a placement agent fee, and (2) warrants to purchase 25,000 common shares at \$2.10 per share exercisable during the four-year period beginning April 9, 2002. A. Brean Murray, one of our directors, and his wife control Brean Murray & Co., Inc. In addition, the Brean Murray & Co., Inc. Profit Sharing Plan purchased 32,285 common shares in the offering, and Robert R. Henry, one of our directors, purchased 100,000 common shares in the offering.

As of August 31, 2001, we had working capital of \$1,577,846, cash and cash equivalents of \$424,088, total current liabilities of \$533,479 and shareholder's equity of \$2,844,333.

Assuming the FDA requires 510(k) clearance and not PMA approval for the CorRestore patch, and human clinical trials are not required, we expect the process of development, testing, application, clearance and preparing to manufacture the product to take approximately one year and to cost us approximately \$750,000. If the 510(k) process requires human clinical trials, we expect the process of development, testing, application, clearance and preparing to manufacture the product to take approximately two years and to cost us approximately \$1,500,000.

SOMANETICS CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

AUGUST 31, 2001

We believe that the cash and cash equivalents on hand at August 31, 2001, together with the estimated net borrowings available under the Crestmark Bank Loan and Security Agreement, will be adequate to satisfy our operating and capital requirements through the second quarter of fiscal 2002. By that time we will be required to raise additional cash either through additional sales of our products, through sales of securities, by incurring indebtedness or by some combination of these alternatives. If we are unable to raise additional cash by that time, we will be required to reduce or discontinue our operations.

The estimated length of time current cash and cash equivalents will sustain our operations is based on estimates and assumptions we have made. These estimates and assumptions are subject to change as a result of actual experience. Actual capital requirements necessary to market the Cerebral Oximeter and SomaSensor, to develop and test the CorRestore patch, to undertake other product development activities, and for working capital might be substantially greater than current estimates.

We do not believe that product sales will be sufficient to fund our operations in fiscal 2001. Although we expect to incur an operating loss for fiscal year 2001, we expect to achieve positive earnings before interest, taxes, depreciation and amortization in the fourth quarter of fiscal 2001.

The underwriter of the June 1997 public offering received warrants to purchase 200,000 common shares exercisable at \$4.80 per share until May 29, 2002. In addition, Kingsbridge Capital Limited has warrants to purchase 203,108 common shares exercisable at \$4.29 per share until September 3, 2005 pursuant to the Private Equity Line Agreement. Also, CorRestore, LLC and its agent, Wolfe & Company, received warrants to purchase 400,000 common shares exercisable at \$3.00 per share until June 2, 2005 pursuant to the CorRestore license agreement, and when specified events occur we agreed to issue them five-year warrants to purchase an additional 2,100,000 common shares exercisable at \$3.00 per share pursuant to the CorRestore license agreement. Also, as described above, the placement agent in the April 9, 2001 private placement received warrants to purchase 25,000 common shares exercisable at \$2.10 per share until April 9, 2006. It is unlikely that these warrants will be exercised if the exercise price exceeds the market price of the common shares.

We are a party to the Loan and Security Agreement with Crestmark Bank described above. As of September 28, 2001, we had no outstanding principal loan balance, and \$574,390 was available for borrowing, at Crestmark's discretion, under the facility. We do not have any other loan commitments.

Even if we receive additional capital, we might not be able to achieve the level of sales necessary to sustain our operations, and we will incur the costs of developing and testing the CorRestore patch before we realize any revenues from the patch. We might not be able to obtain any funds on terms acceptable to us and at times required by us through sales of our products, sales of securities or loans in sufficient quantities. Our Independent Auditors' report in our Annual Report on Form 10-K for the fiscal year ended November 30, 2000 contains an explanatory paragraph relating to an uncertainty concerning our ability to continue as a going concern.

17

18

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

18

19

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

None.

(b) Reports on Form 8-K

No reports on Form 8-K were filed by us during the quarter for which this report is filed.
