

KAISER ALUMINUM CORP

Form 8-K

July 16, 2004

FORM 8-K
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

CURRENT REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

Date of Report (date of earliest event reported): July 1, 2004

KAISER ALUMINUM CORPORATION

(Exact name of Registrant as Specified in its Charter)

Delaware

(State or other jurisdiction of incorporation)

1-9447

(Commission File Number)

94-3030279

(I.R.S. Employer Identification Number)

5847 San Felipe, Suite 2500
Houston, Texas

(Address of Principal
Executive Offices)

77057-3268
(Zip Code)

(713) 267-3777

(Registrant's telephone number, including area code)

Item 2. Acquisition or Disposition of Assets

On July 1, 2004, Kaiser Aluminum & Chemical Corporation (KACC), a wholly owned subsidiary of Kaiser Aluminum Corporation (the Company), completed its previously announced sale of its 65% interest in and related to Alumina Partners of Jamaica (Alpart), and certain related assets to Quality Incorporations I Limited (Quality). Quality was an affiliate of Hydro Aluminum a.s., (Hydro), which owns the remaining 35% interest of Alpart. KACC sold such interest and related assets to Quality for gross sales proceeds of approximately \$315.0 million, subject to certain post-closing adjustments. The process that led to the sale of KACC 's interests in and related to Alpart is described in the Company 's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2004.

As previously disclosed, the Company expects that proceeds from the sale will be held in escrow pending both amendment of the Company 's credit agreement and resolution of matters relating to intercompany claims, each of which will require approval by the U.S. Bankruptcy Court for the District of Delaware (the Court) approval. Accordingly, the allocation of proceeds from the sale, including any use thereof by the Company for its ongoing operations, will be subject to the Court 's approval. The Company 's Quarterly Report on Form 10-Q for the first quarter of 2004 includes a more detailed discussion of these matters.

As more fully described in the Company 's Annual Report on Form 10-K for the year ended December 31, 2003, Alpart owns an alumina refinery with annual production capacity of 1,650,000 metric tons. Alpart also has bauxite mining operations.

Item 7. Financial Statements, Pro Forma Financial Information, and Exhibits

(b) Pro forma financial information

- * Unaudited Pro Forma Consolidated Balance Sheet as of March 31, 2004
- * Unaudited Pro Forma Statement of Consolidated Income (Loss) for the three months ended March 31, 2004
- * Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2003
- * Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2002
- * Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2001
- * Notes to Unaudited Pro Forma Consolidated Financial Statements

(c) Exhibits

- * 2.1 Purchase Agreement, dated as of June 8, 2004
- * 99.1 Press Release dated July 1, 2004

* Included with this filing. Schedules are omitted from the purchase agreement filed as Exhibit 2.1; however, the Company will furnish supplementally a copy of any omitted schedule to the Securities and Exchange Commission upon request.

SIGNATURES

Edgar Filing: KAISER ALUMINUM CORP - Form 8-K

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

INDEX TO PRO FORMA FINANCIAL INFORMATION

Unaudited Pro Forma Consolidated Balance Sheet as of March 31, 2004

Unaudited Pro Forma Statement of Consolidated Income (Loss) for the three months ended March 31, 2004

Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2003

Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2002

Unaudited Pro Forma Statement of Consolidated Income (Loss) for the year ended December 31, 2001

Notes to Unaudited Pro Forma Consolidated Financial Statements

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited pro forma consolidated balance sheet as of March 31, 2004, and the related unaudited pro forma statements of consolidated income (loss) for the three months ended March 31, 2004 and the years ended December 31, 2003, 2002 and 2001 have been prepared to present the financial position and results of operations of Kaiser Aluminum Corporation (the Company) as if the sale of Kaiser Aluminum & Chemical Corporation's (KACC), a wholly owned subsidiary of the Company, interests in and related to Alumina Partners of Jamaica (Alpart) had occurred at the end of the indicated period in the case of the unaudited pro forma condensed consolidated balance sheet, and at the beginning of the periods in the case of the unaudited pro forma statements of consolidated income (loss).

The unaudited pro forma consolidated balance sheet and pro forma statements of consolidated income (loss) are based on the assumptions and estimates described in Note 3 to the unaudited pro forma consolidated financial statements. The pro forma statements of consolidated income (loss) exclude any gains on the sale of KACC's interests in and related to Alpart, and any other non-recurring charges or benefits (such as interest income) attributable to the transaction. These statements do not purport to be indicative of the financial position or results of operations of the Company as of such date or for such period, nor are they indicative of future results. Furthermore, these pro forma statements do not reflect changes which may occur as a result of the Company's interest and related to activities after the sale of KACC's interests in and related to Alpart and other matters.

KAISER ALUMINUM CORPORATION AND SUBSIDIARY COMPANIES
(DEBTOR-IN-POSSESSION)
NOTES TO UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(In millions of dollars)

The following notes set forth the explanations and assumptions used in preparing the unaudited pro forma consolidated balance sheet as of March 31, 2004, and the related unaudited pro forma statements of consolidated income (loss) for the three months ended March 31, 2004 and the years ended December 31, 2003, 2002 and 2001.

The unaudited pro forma consolidated financial statements are based on the assumptions and estimates described in Note 3. These statements do not purport to be indicative of the financial position and results of operations of the Company as of such date or for such periods, nor are they indicative of future results. Furthermore, these pro forma financial statements do not reflect anticipated changes which may occur as a result of activities after the sale of Alpart and other matters.

These unaudited pro forma financial statements have been prepared using the accounting policies and procedures that the Company uses for its consolidated reporting. Such policies and procedures are outlined in Note 2 of the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

1. Background

KACC owned a 65% interest in Alpart, and Hydro Aluminium a.s (Hydro) owned the remaining 35% interest. KACC held its interests in Alpart through two wholly owned subsidiaries, Kaiser Jamaica Corporation (KJC) and Alpart Jamaica Inc. (AJI), which were two of KACC's subsidiaries that filed petitions for reorganization under Chapter 11 of the United States Bankruptcy Code (the Code) in January 2003. Alpart did not file a petition for reorganization. KACC had the authority from the U.S. Bankruptcy Court for the District of Delaware (the Court) to fund AJI's and KJC's share of Alpart's cash requirements in the ordinary course of business. Alpart holds bauxite reserves and owns an alumina plant located in Jamaica. KACC had management responsibility for the facility on a fee basis. KACC and Hydro were responsible for their proportionate shares of Alpart's costs and expenses. As part of the Company's initiatives launched in 2001, Alpart's annual production capacity was increased from 1,450,000 to 1,650,000 tons* during late 2003.

2. Presentation

The accompanying unaudited pro forma statements of consolidated income(loss) and unaudited pro forma consolidated balance sheets present the financial position and results of operations of the Company as if the transactions described in Note 3 had occurred at the end of the indicative period in the case of the unaudited pro forma balance sheet and at the beginning of the periods in the case of the unaudited pro forma statements of consolidated income (loss).

Prior to the sale, Alpart was a majority owned entity and, as such, its balances and results were fully consolidated with the Company's balances and results of operations in the Company's consolidated financial statements. Hydro's ownership interests in Alpart were reflected in the Company's consolidated financial statements as Minority interest. As Hydro took its share of production from Alpart in kind, revenues related to Hydro's interests were reflected at Hydro's share of production costs (i.e. zero gross margin). Such Minority interest revenues totaled \$22.3, \$91.3, \$86.1 and \$89.1 for the quarter ended March 31, 2004 and the years ended December 31, 2003, 2002 and 2001, respectively.

3. Management Assumptions

Edgar Filing: KAISER ALUMINUM CORP - Form 8-K

The unaudited pro forma consolidated statements of consolidated income (loss) and unaudited pro forma consolidated balance sheet reflect the following pro forma adjustments related to:

* All references to tons in this report to metric tons of 2,204.6 pounds.

9

Statements of Consolidated Income (Loss)

The Company manages production from its different interests in alumina refineries as a single portfolio. Alumina sales contracts with alumina customers were either in the name of KACC or its affiliate, Kaiser Aluminium International Inc. (KAI). Certain of the production from KACC's interests in alumina refineries was also used by KACC to supply aluminum smelters in which KACC owns an interest. For purposes of the financial statements, the following assumptions have been made in respect of alumina shipments and sales related to the Company's interests in and related to Alpart:

For purposes of determining Alpart-related revenues that should be removed in the pro forma adjustments, alumina shipments to third parties have been allocated to Alpart (versus other KACC-owned interests in alumina refineries) based on the origin of the shipment. For purposes of determining Alpart-related revenues that should be removed in the pro forma adjustments, the actual KACC or KAI contract price has been used for such shipments.

During the quarter ended March 31, 2004 and the years ended December 31, 2003, 2002 and 2001, the Company used approximately 24,719 tons, 125,738 tons, 229,198 tons and 124,001 tons, respectively, of alumina production from the Alpart refinery to supply its share of alumina for primary aluminum smelters in which KACC owns an interest. The Company's historical practice for reporting such shipments in its segment reporting has been to reflect these shipments (as revenues for the Bauxite and Alumina segment and as cost for the Primary Aluminum segment) based on the internal transfer price used for intercompany (inter-business unit) transactions. Such transfer price, which is linked to average primary aluminum market prices and is intended to be a surrogate for market prices, was \$202.75/ton for the quarter ended March 31, 2004, \$172.78/ton for the year ended December 31, 2003, \$170.46/ton for the year ended December 31, 2002 and \$177.39/ton for the year ended December 31, 2001. For purposes of these pro forma statements, it has been assumed that these prices are indicative of the market prices that could have been obtained by KACC if it had entered into multi year contracts to supply alumina to Anglesey and Valco. As such, no adjustment has been made to Net sales or Cost of products sold.

As discussed above, for segment reporting purposes the Company has historically reported inter-segment sales activity at surrogate market prices. Inter-segment profits and losses on such sales are eliminated in consolidation in the Company's consolidated financial statements. A pro forma adjustment has been reflected in the income statements to remove this elimination (reflected as an adjustment to Cost of products sold).

Given the Company's interests in other alumina refineries and primary aluminum smelters, for purposes of these pro forma statements, it has been assumed that the Alpart transaction would not result in any significant reduction in segment or corporate Selling, administrative, research and development and general costs.

Balance Sheet

As more fully described in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2004, the proceeds from the sale will be held in escrow pending both amendment of the Company's credit agreement and resolution of matters relating to intercompany claims, each of which will require the Court's approval. Accordingly, the allocation proceeds from the sale, including any distributions to the Company for its use by thereof by the Company for its ongoing operations will be subject to approval by the Court. As such, the Company has reflected the full amount of the proceeds in the accompanying pro forma consolidated balance sheet as a long term asset.

The Company has assumed that there are no postclosing adjustments to the \$315.0 of gross proceeds received at closing.
