OUR COMPANY

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We have concentrated on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2003, we had estimated proved reserves of approximately 134.4 billion cubic feet of natural gas and 27.4 million barrels of oil, or an aggregate of approximately 49.8 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flow of \$701.2 million, and a standardized measure of discounted future net cash flows of \$529.4 million.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston Oil Company in early 2002.

Our strategy is to grow our reserves and production through a balanced investment program with a current focus on low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year is expected to be allocated to higher risk, higher potential exploration prospects in this region. In pursuing this risk balanced strategy, we also look for opportunities to diversify our reserve and production base beyond the Gulf of Mexico Shelf.

Our principal executive offices are located at 201 St. Charles Avenue, Suite 3400, New Orleans, Louisiana 70170. Our telephone number is (504) 569-1875. We also maintain a web site at www.eplweb.com which contains information about us, including links to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and related amendments. Our web site and the information contained in it and connected to it shall not be deemed incorporated by reference into this prospectus supplement or the accompanying prospectus.

RISK FACTORS

You should consider carefully the following factors, as well as those discussed elsewhere in this prospectus supplement and the accompanying prospectus. In addition to the factors below, please refer to Items 1 & 2. Business and Properties Regulatory Matters and Additional Factors Affecting Business in our latest annual report on Form 10-K for additional factors to be considered before making an investment in our common stock. Please also read Where You Can Find More Information.

The market price of our common stock could be adversely affected by sales of substantial amounts of our common stock in the public markets.

Our largest stockholders include Energy Income Fund, L.P. (EIF), which owned 3,487,856 shares of our common stock, and Richard A. Bachmann, our chairman, president and chief executive officer, who beneficially owned 2,208,072 shares of our common stock as of November 1, 2004. We will enter into an agreement to purchase 3,467,144 shares of our common stock from EIF immediately following the closing of this offering with the net proceeds from this offering, before expenses. Following the closing of this offering, Mr. Bachmann could sell a substantial number of shares of our common stock in the public market, either pursuant to exemptions afforded to affiliates under Rule 144 under the Securities Act of 1933, as amended (the Securities Act) or pursuant to an effective registration statement. Affiliates may sell under Rule 144 of the Securities Act the greater of 1% of the number of shares of common stock then outstanding and the average weekly trading volume of our common stock on the New York Stock Exchange during the four calendar weeks preceding the filing of a required notice of such sale. Such sales by our largest stockholders, sales by other securityholders or the perception that such sales might occur, could have a material adverse effect on the price of our common stock or could impair our ability to obtain capital through an offering of equity securities.

Additionally, in connection with the acquisition of Hall-Houston Oil Company (Hall-Houston), we issued warrants and Series D exchangeable convertible preferred stock that as of November 1, 2004 can be exchanged or exercised for a total of up to approximately 7,638,303 shares of our common stock. All of the common stock underlying the warrants and Series D preferred stock are freely tradable upon resale pursuant to a prospectus filed with the Securities and Exchange Commission. The Series D preferred stock, which is currently convertible at a conversion price of \$8.54 per share of common stock, becomes redeemable on January 15, 2005 and we currently intend to redeem the Series D preferred stock at that time. Also in connection with our acquisition of Hall-Houston, we entered into an earnout agreement which, depending on the performance of the oil and natural gas properties subject to the agreement, could obligate us to issue up to \$37,585,088 market value of our common stock to the participants in the agreement, and such common stock is required to be freely tradable under the agreement.

Provisions in our organizational documents and under Delaware law could delay or prevent a change in control of our company, which could adversely affect the price of our common stock.

The existence of some provisions in our organizational documents and under Delaware law could delay or prevent a change in control of our company, which could adversely affect the price of our common stock. The provisions in our certificate of incorporation and bylaws that could delay or prevent an unsolicited change in control of our company include:

the board of directors ability to issue shares of preferred stock and determine the terms of the preferred stock without approval of common stockholders; and

a prohibition on the right of securityholders to call meetings and a limitation on the right of securityholders to act by written consent and to present proposals or make nominations at securityholder meetings.

In addition, Delaware law imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock.

Table of Contents

USE OF PROCEEDS

We expect the net proceeds from this offering to be approximately \$59.3 million, after deducting underwriting discounts and commissions and the estimated expenses of the offering payable by us. We will use the net proceeds from this offering, before expenses, to purchase 3,467,144 shares of our common stock from EIF.

Common Stock Ownership of EIF

Based on an amended Schedule 13G filed by EIF with the SEC on February 17, 2004, and information provided by EIF to us, EIF beneficially owns 3,487,856 shares, or approximately 10.6%, of our outstanding common stock as of November 1, 2004. After we purchase 3,467,144 shares of our common stock from EIF immediately following the closing of this offering, EIF will beneficially own only 20,712 shares of our common stock based on the amended Schedule 13G. One of our directors, Mr. Gershen, is a managing director of the general partner of EIF. Based on his sole power to vote and to dispose of all shares held by EIF, Mr. Gershen is deemed to beneficially own those shares. In addition, as of November 1, 2004, Mr. Gershen had beneficial ownership directly of 32,371 shares of our common stock. EIF disclaims beneficial ownership of those shares of common stock owned by Mr. Gershen and those shares will not be purchased by us under the stock purchase agreement. At the conclusion of this offering, Mr. Gershen may no longer be considered independent under New York Stock Exchange rules. We have requested guidance from the New York Stock Exchange on this matter. If it is unclear that Mr. Gershen will continue to be considered independent following the conclusion of this offering, he will resign from any committees of our board of directors on which he serves.

Stock Purchase Agreement

We will enter into a stock purchase agreement with EIF concurrent with the pricing of this offering, pursuant to which we will agree to purchase 3,467,144 shares of common stock from EIF at a price per share equal to the net proceeds per share that we receive from this offering, before expenses. We anticipate that we will purchase these shares from EIF immediately following the closing of this offering. Immediately upon our acquisition of the shares of common stock from EIF, we will hold these shares as treasury stock. EIF has requested that we undertake this offering as a means to satisfy EIF's right to request that we file a registration statement with the SEC to cover resales of shares of common stock held by EIF.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated November , 2004, we have agreed to sell to the underwriters named below, for whom Credit Suisse First Boston LLC and Raymond James & Associates, Inc. are acting as representatives, the following respective numbers of shares of common stock:

Underwriter	Number of Shares
Credit Suisse First Boston LLC	
Raymond James & Associates, Inc.	
Howard Weil, a division of Legg Mason Wood Walker, Inc.	
Pritchard Capital Partners, LLC	
Total	3,467,144

The underwriting agreement provides that the underwriters are obligated to purchase all the shares of common stock in the offering if any are purchased. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated.

The underwriters propose to offer the shares of common stock initially at the public offering price on the cover page of this prospectus supplement and to selling group members at that price less a selling concession of \$ per share. The underwriters and selling group members may allow a discount of \$ per share on sales to other broker/ dealers. After the initial public offering, the representatives may change the public offering price and concession and discount to broker/ dealers.

We estimate that our out of pocket expenses for this offering will be approximately \$105,000.

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of Credit Suisse First Boston LLC for a period of 30 days after the date of this prospectus supplement, except for grants of stock awards, restricted stock units, performance shares, phantom units and employee stock options to purchase shares of common stock under plans existing on the date of this prospectus supplement and for issuances of shares of common stock pursuant to the exercise or conversion of employee stock options, preferred stock or warrants outstanding on the date of this prospectus supplement.

EIF and Mr. Gershen, who is an affiliate of EIF, have agreed in the stock purchase agreement that they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock, whether any of these transactions are to be settled by delivery of our common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, our prior written consent for a period of 30 days after the date of this prospectus supplement. We have agreed, under the underwriting agreement, not to waive this provision without the prior written consent of Credit Suisse First Boston LLC.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

We intend to apply for the listing of the shares of common stock to be sold by us on The New York Stock Exchange under the symbol EPL.

Table of Contents

From time to time Credit Suisse First Boston LLC, Howard Weil and Pritchard Capital Partners, LLC have provided investment banking and other advisory services to us for which they have received customary compensation and we expect them to continue to provide similar services in the future. Credit Suisse First Boston LLC was among the underwriters of our April 2003, August 2003 and November 2003 common stock offerings and among the initial purchasers of our August 2003 senior unsecured notes offering and received customary commissions for its services. Howard Weil was among the underwriters of our April 2003 common stock offering and received customary commissions for its services.

The son of our Chairman, President and Chief Executive Officer serves as an energy industry research analyst for Howard Weil.

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions. These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The New York Stock Exchange or otherwise, and if commenced, may be discontinued at any time.

The aggregate maximum compensation that members of the NASD or independent broker-dealers will receive in connection with the sale of any securities pursuant to this prospectus supplement and the registration statement of which it forms a part will not be greater than 8% of the gross proceeds of such sale.

A prospectus supplement and the accompanying prospectus in electronic format may be made available on the web sites maintained by one or more of the underwriters or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

OUR COMPANY

We are an independent oil and natural gas exploration and production company focused on the shallow to moderate depth waters of the Gulf of Mexico Shelf. We have concentrated on the Gulf of Mexico Shelf region because that area provides us with favorable geologic and economic conditions, including multiple reservoir formations, regional economies of scale, extensive infrastructure and comprehensive geologic databases. We believe that this region offers a balanced and expansive array of existing and prospective exploration, exploitation and development opportunities in both established productive horizons and deeper geologic formations. As of December 31, 2003, we had estimated proved reserves of approximately 134.4 billion cubic feet of natural gas and 27.4 million barrels of oil, or an aggregate of approximately 49.8 million barrels of oil equivalent, with a present value of estimated pre-tax future net cash flow of \$701.2 million, and a standardized measure of discounted future net cash flows of \$529.4 million.

Since our incorporation in January 1998 by Richard A. Bachmann, our founder, chairman, president and chief executive officer, we have assembled a team of geoscientists and management professionals with considerable region-specific geological, geophysical, technical and operational experience. We have grown through a combination of exploration, exploitation and development drilling and multi-year, multi-well drill-to-earn programs, as well as strategic acquisitions of mature oil and natural gas fields in the Gulf of Mexico Shelf area, and in particular the acquisition of Hall-Houston Oil Company in early 2002.

Our strategy is to grow our reserves and production through a balanced investment program with a current focus on low risk exploitation and development activities in and around our existing fields and moderate risk exploration activities in the shallow to moderate depth waters of the central region of the Gulf of Mexico Shelf. A limited amount of our exploration budget each year is expected to be allocated to higher risk, higher potential exploration prospects in this region. In pursuing this risk balanced strategy, we also look for opportunities to diversify our reserve and production base beyond the Gulf of Mexico Shelf.

Our principal executive offices are located at 201 St. Charles Avenue, Suite 3400, New Orleans, Louisiana 70170. Our telephone number is (504) 569-1875. We also maintain a web site at www.eplweb.com which contains information about us, including links to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and related amendments. Our web site and the information contained in it and connected to it shall not be deemed incorporated by reference into this prospectus or any prospectus supplement.

RISK FACTORS

Investing in our securities involves risk. The prospectus supplement applicable to each type or series of securities we offer will contain a discussion of risks applicable to an investment in us and to the particular types of securities that we are offering under that prospectus supplement. Prior to making a decision about investing in our securities, you should carefully consider the specific factors discussed under the heading **Risk Factors** in the applicable prospectus supplement together with all of the other information contained in the prospectus supplement or appearing or incorporated by reference in this prospectus. In addition, please refer to **Items 1 & 2. Business and Properties**, **Regulatory Matters** and **Additional Factors Affecting Business** in our latest annual report on Form 10-K for additional risk factors. Please also read **Where You Can Find More Information**.

USE OF PROCEEDS

Unless we set forth other uses of proceeds in the prospectus supplement, we will use the net proceeds of the sale of the securities described in this prospectus and any prospectus supplement for general corporate purposes. These may include the reduction of outstanding indebtedness, working capital increases, capital expenditures or acquisitions.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our consolidated ratios of earnings to fixed charges for the indicated periods.

	Six Months Ended June 30,		Years Ended December 31,				
	2004	2003	2003	2002	2001	2000	1999
Ratio of earnings to fixed charges(1)	5.1x	7.4x	4.0x		9.3x		

- (1) For purposes of computing the ratio of earnings to fixed charges, earnings consist of the sum of income from operations before income taxes and the cumulative effect of change in accounting method, interest expense and the portion of the rent expense deemed to represent interest. Fixed charges consist of interest incurred, whether expensed or capitalized, including amortization of debt issuance costs, if applicable, and the portion of rent expense deemed to represent interest. For the years ended December 31, 2002, 2000 and 1999, the ratio of earnings to fixed charges was less than a one-to-one coverage due to a deficiency of \$17.5 million, \$15.7 million and \$3.8 million, respectively. For the indicated periods there were no preferred stock dividends declared or paid by our subsidiaries.

DESCRIPTION OF DEBT SECURITIES

The following description of the debt securities sets forth certain general terms and provisions of the debt securities to which this prospectus and any prospectus supplement may relate. The particular terms of any series of debt securities and the extent to which the general provisions may apply to a particular series of debt securities will be described in a prospectus supplement relating to that series. For a more detailed description of the terms of the debt securities, please refer to the indenture, as supplemented by the applicable supplemental indenture or authorizing resolution, as the case may be, relating to the issuance of the particular debt securities.

Any senior debt securities will be issued under a senior indenture to be entered into between us and the trustee named in the senior indenture. Any subordinated debt securities will be issued under a subordinated indenture to be entered into between us and the trustee named in the subordinated indenture. As of August 31, 2004, we had \$0.3 million of secured debt outstanding that would effectively rank senior to any debt securities issued under either indenture and \$150.0 million of debt outstanding that would rank senior to any subordinated debt securities issued under the subordinated indenture. As used in this registration statement, the term *indentures* refers to both the senior indenture and the subordinated indenture. The indentures will be qualified under the Trust Indenture Act of 1939, as amended. As used in this registration statement, the term *trustee* refers to either the senior trustee or the subordinated trustee, as applicable.

The following, as supplemented by an applicable prospectus supplement, summarizes all material provisions of the senior debt securities, the subordinated debt securities and the indentures, and is qualified in its entirety by reference to all of the provisions of the indenture and any applicable supplemental indenture or authorizing resolution, as the case may be, relating to a particular series of debt securities, including the definitions therein of some terms. Except as otherwise indicated, the terms of any senior indenture and subordinated indenture will be identical.

Because we have included only a summary of the terms of the indentures, we urge you to read the indentures in full to understand every detail of the terms of the debt securities. If you would like to read the indentures in their entirety, see *Where You Can Find More Information*.

For purposes of this section, the *issuer* means Energy Partners, Ltd. and not its subsidiaries.

General

The debt securities will be unsecured obligations of the issuer. The indentures do not limit the amount of debt securities the issuer may issue.

You should read the prospectus supplement relating to the particular series of debt securities for the following terms of the offered debt securities:

the title of the debt securities;

any limit upon the aggregate principal amount of the debt securities;

the dates on which the principal of the debt securities is payable;

the interest rate of the debt securities, or the method for calculating the interest rate, and the date or dates from which interest will accrue;

the interest payment dates and the record dates for the interest payment dates;

places where payments of the principal and interest, if any, may be made on the debt securities;

the terms and conditions upon which the debt securities may be redeemed at the issuer's option or otherwise;

any mandatory or optional sinking fund or analogous provisions;

the denominations in which the debt securities are issuable;

Table of Contents

whether any portion of the principal amount of such debt securities is payable upon declaration of the acceleration of the maturity thereof;

if other than U.S. dollars, the currency or currency units in which the debt securities are denominated and/or in which payment of the principal of (and premium, if any) and/or interest on the debt securities will or may be payable;

any deletions, modifications or additions to the events of default or covenants pertaining to the debt securities;

whether the debt securities are senior debt securities or subordinated debt securities and, if subordinated, the terms of subordination;

whether the debt securities will be guaranteed by any of the issuer's subsidiaries and the terms of any guarantees;

whether the debt securities will be convertible into or exchangeable for other securities or other property, including common stock; and

any other terms (which terms may be inconsistent with the applicable indenture but shall not violate the Trust Indenture Act) of the debt securities.

Unless otherwise indicated in the prospectus supplement, the issuer will issue the debt securities only in fully registered form without coupons in denominations of \$1,000 or any integral multiple thereof. There will not be any service charge for any registration of transfer or exchange of debt securities, but the issuer may require payment of a sum sufficient to cover any tax or other governmental charge.

Covenants

The prospectus supplement relating to the debt securities of any series will describe any special covenants applicable to that series.

Merger, Amalgamation, Consolidation and Assumption

The issuer may, without the consent of any holders of outstanding debt securities, consolidate or amalgamate with or merge into, or convey, transfer or lease its assets substantially as an entirety to, any other corporation, partnership, limited liability company, unlimited liability company or trust, provided that:

the person formed by such consolidation or amalgamation or into which the issuer is merged or which acquires the issuer's assets expressly assumes the issuer's obligations on the debt securities and under the applicable indenture; and

other conditions described in the applicable indenture are met.

Upon compliance with these provisions, the issuer will be relieved of its obligations under the applicable indenture and the debt securities.

Events of Default; Rights on Default

The indentures define an event of default with respect to debt securities of any series as any of the following events:

the issuer fails to pay interest for 30 days after it is due;

the issuer fails to pay principal, and premium, if any, when due;

the issuer fails to deposit any sinking fund payment when due, if applicable to the series of debt securities;

Table of Contents

the issuer defaults for 90 days after appropriate notice in the performance of any other covenant in the debt securities or the indentures, as applicable; or

the issuer has an event of bankruptcy, insolvency or reorganization.

If an event of default occurs with respect to a particular series (but not all series) of debt securities as a result of a failure to make a principal or interest payment or because of a failure to perform another covenant applicable to such series (but not all series) of debt securities, the principal amount of all outstanding debt securities of that particular series and accrued interest may be declared due and payable immediately by either:

the trustee; or

the holders of at least 25% in principal amount of that series.

If an event of default occurs with respect to all series of debt securities as a result of a failure to perform a covenant applicable to all series of debt securities or because of bankruptcy, insolvency or reorganization, the principal amount of all outstanding debt securities and accrued interest may be declared due and payable immediately by either:

the trustee; or

the holders of at least 25% in principal amount of all outstanding debt securities (treated as one class) under the indentures.

The holders of a majority in principal amount of the outstanding debt securities of any series affected, with each series voting as a separate class, have the power to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee. However, the direction must not conflict with any rule of law or the applicable indenture. Before proceeding to exercise any right or power under the applicable indenture at the direction of the holders, the applicable trustee will be entitled to receive from the holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with their direction.

The issuer must furnish the trustee annually with a statement that, to the best knowledge of the officers signing the statement, the issuer is not in default in the performance of the terms of the indentures or, if the officers know that the issuer is in default, specifying the default. The indentures require the trustee to give to all holders of outstanding debt securities notice of any default by the issuer unless the default has been cured or waived. However, except for a default in the payment of principal of or interest on any outstanding debt securities, the trustee can withhold notice if the board of directors, the executive committee or a trust committee of directors or officers of the trustee in good faith determines that withholding notice is in the interest of the holders of the outstanding debt securities.

Defeasance

If any series of debt securities has either:

become due and payable or is by its terms due and payable within one year; or

is to be called for redemption within one year,

the indentures provide that the issuer may discharge substantially all of its obligations to holders of the series of debt securities that has not already been delivered to the trustee for cancellation by irrevocably depositing with the trustee enough funds to pay the principal of and interest on the debt securities when the series matures.

The issuer can also discharge substantially all of its obligations for any series of debt securities, including its obligations under the covenants in the indentures (other than its obligations to pay principal or interest on the debt securities), by irrevocably depositing with the trustee enough funds to pay the principal of and interest on the debt securities when the series matures. The issuer must also obtain an

Table of Contents

opinion of counsel to the effect that as a result of the defeasance, holders of that series of debt securities will not recognize income, gain or loss for federal income tax purposes, and will be subject to federal income tax on the same amount, in the same manner and at the same time as would have been the case if such defeasance had not occurred and, in the case of legal defeasance, such opinion must be based on a U.S. Internal Revenue Service ruling or a change in U.S. Federal income tax law.

Modification of the Indentures

The indentures provide that the issuer and the trustee may enter into supplemental indentures without the consent of the holders of debt securities to:

secure any of the debt securities;

evidence the assumption by a successor corporation of the issuer's obligations as described under Merger, Amalgamation, Consolidation and Assumption above;

add covenants and events of default for the protection of the holders of all or any particular series of debt securities;

change or eliminate any of the provisions of an indenture, provided that any such change or elimination shall become effective only after there are no debt securities of any series entitled to the benefit of such provision outstanding;

establish the forms or terms of debt securities of any series;

cure any ambiguity or correct any inconsistency in an indenture; or

evidence the acceptance of appointment by a successor trustee.

The indentures also contain provisions permitting the issuer and the trustee to add any provisions to, or change in any manner or eliminate any of the provisions of, an indenture or modify in any manner the rights of the holders of such debt securities with the consent of the affected holders of at least a majority in principal amount of all series of debt securities then outstanding, with each such series voting as a separate class. However, the issuer and the trustee may not, without the consent of the affected holder of each outstanding debt security:

change the stated maturity of the principal of or any installment of interest on any debt security;

reduce the principal amount;

reduce the rate of interest;

change the place of payment where, or the coin or currency in which, interest is payable;

impair the right to institute suit for the enforcement of any payment when due; or

reduce the percentage in principal amount of debt securities requiring consent of holders for any modification.

Book-Entry Debt Securities Registration, Transfer, Exchange and Payment

The issuer intends to issue each series of its debt securities in book-entry form, represented by one or more global certificates registered in the name of The Depository Trust Company, New York, New York (DTC), or its nominee. However, the issuer reserves the right to issue debt securities in certificate form registered in the names of the holders of the debt securities.

Ownership of beneficial interests in the global certificates representing the particular series of debt securities will be limited to persons who have accounts with DTC (participants), or persons that may hold interests through participants. DTC will keep on its computerized book-entry and transfer system a record of the principal amounts of debt securities held in the accounts of the participants. Participants, in turn, will keep records of the interests of their clients who have purchased debt securities through them.

Table of Contents

Beneficial interests in the global certificates may be shown only on, and may be transferred only through, records maintained by DTC and its participants. The laws of some states require that certain purchasers of securities take delivery of the securities only in certificate form. These laws may limit the ability of holders of beneficial interests in the global certificates to transfer those interests to certain persons who might otherwise wish to purchase those interests.

DTC has provided the issuer the following information: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the United States Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered under the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants deposit with DTC. DTC also records the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through computerized records for participants' accounts. This eliminates the need to exchange certificates. Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

DTC's book-entry system is also used by other organizations such as securities brokers and dealers, banks and trust companies that work through a participant. The rules that apply to DTC and its participants are on file with the SEC.

DTC is owned by a number of its participants and by the New York Stock Exchange, Inc., The American Stock Exchange LLC and the National Association of Securities Dealers, Inc.

Payments of interest and principal will be made to DTC, who in turn will credit payment to the accounts of its participants. It is DTC's current practice, upon receipt of any payment of principal or interest, to credit participants' accounts on the payment date according to their respective holdings of beneficial interests in the global certificates as shown on DTC's records. In addition, it is DTC's current practice to assign any consenting or voting rights to participants whose accounts are credited with certificates on a record date, by using an omnibus proxy. Payments by participants to holders of beneficial interests in the global certificates, and voting by participants, will be governed by the customary practices between the participants and holders of beneficial interests, as is the case with securities held for the account of customers registered in street names.

The issuer, the trustee and the paying agent will treat DTC as the sole owner of the global certificates for all purposes. Accordingly, the issuer, the trustee and any paying agent will have no responsibility or liability:

for the records relating to beneficial ownership interests in the global certificates; or

for the payments of principal and interest due for the accounts of beneficial holders of interest in the global certificates.

The global certificates representing a series of debt securities may not be transferred. However, a global certificate may be transferred by DTC to its nominees or successors.

A series of debt securities represented by global certificates will be exchangeable for debt securities in certificate form with the same terms in authorized denominations only if:

DTC notifies the issuer that it is unwilling or unable to continue as depository or if DTC ceases to be a clearing agency registered under applicable law, and the issuer does not appoint a successor depository within 90 days; or

an event of default has occurred and is continuing.

The issuer has obtained the foregoing information concerning DTC and DTC's book-entry system from DTC and other sources it believes reliable, and is relying on the accuracy of this publicly available information.

Applicable Law

The debt securities and the indentures will be governed by and construed in accordance with the law of the State of New York, but without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

Trustee

The trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only the duties specifically detailed in the indentures and, upon an event of default under an indenture, must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the trustee is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur. The trustee is not required to spend or risk its own money or otherwise become financially liable while performing its duties unless it reasonably believes that it will be repaid or receive adequate indemnity.

DESCRIPTION OF CAPITAL STOCK

Our restated certificate of incorporation authorizes the issuance of 50,000,000 shares of common stock, par value \$0.01 per share, and 1,700,000 shares of preferred stock, par value \$1.00 per share, of which 550,000 shares are designated Series D Exchangeable Convertible Preferred Stock. The common stock is our only outstanding class of securities that entitles holders to vote generally at meetings of our stockholders. Each share of common stock outstanding is entitled to one vote. As of August 31, 2004, there were 32,984,564 shares of common stock outstanding held by approximately 94 holders of record, excluding holders whose shares of record are held by brokers. As of August 31, 2004, there were 346,443 shares of the Series D preferred stock outstanding held by approximately 14 holders of record. Because the following description of our capital stock is a summary, it does not contain all the information that may be important to you. You should read the following documents for more complete information:

our restated certificate of incorporation, as amended;

our amended and restated bylaws, as amended; and

the description of our common stock contained in our registration statement on Form S-3 filed on March 14, 2003, as amended by our amended and restated bylaws filed as Exhibit 3.1 to our current report on Form 8-K filed on April 3, 2003.

Common Stock

Holders of common stock are entitled to one vote per share with respect to each matter presented to our stockholders on which the holders of common stock are entitled to vote. Except as may be provided in connection with any preferred stock in a certificate of designation filed pursuant to the Delaware General Corporation Law or as may otherwise be required by law or our certificate of incorporation, the common stock is our only capital stock entitled to vote in the election of directors and on all other matters presented to our stockholders; provided that, except as required by law or our certificate of incorporation, holders of common stock are not entitled to vote on any amendment to our certificate of incorporation that solely relates to the terms of any outstanding series of preferred stock or the number of shares of such series and does not affect the number of authorized shares of preferred stock or the terms of the common stock if the holders of preferred stock are entitled to vote thereon. The common stock does not have cumulative voting rights.

Subject to the prior rights of holders of preferred stock, if any, holders of common stock are entitled to receive dividends as may be lawfully declared from time to time by our board of directors. Upon our liquidation, dissolution or winding up, whether voluntary or involuntary, holders of common stock will be entitled to receive such assets as are available for distribution to our stockholders after there shall have

Table of Contents

been paid or set apart for payment the full amounts necessary to satisfy any preferential or participating rights to which the holders of each outstanding series of preferred stock are entitled by the express terms of the series.

Preferred Stock

General

Our board is empowered, without approval of holders of our common stock, to cause shares of preferred stock to be issued from time to time in one or more series, with the numbers of shares of each series and the terms of the shares of each series as fixed by our board. Among the specific matters that may be determined by our board are:

the designation of each series;

the number of shares of each series;

the rights in respect of dividends, if any;

whether dividends, if any, shall be cumulative or non-cumulative;

the terms of redemption, if any;

the rights in the event of any voluntary or involuntary liquidation, dissolution or winding up of our affairs;

rights and terms of conversion into or exchange for other securities or other property, including common stock, if any;

restrictions on the issuance of shares of the same series or any other series, if any; and

voting rights, if any.

You should read the certificate of designation relating to a particular series of preferred stock for specific terms.

The issuance of shares of preferred stock, or the issuance of rights to purchase preferred stock, could be used to discourage an unsolicited acquisition proposal. For example, a business combination could be impeded by the issuance of a series of preferred stock containing class voting rights that would enable the holder or holders of such series to block any such transaction. Alternatively, a business combination could be facilitated by the issuance of a series of preferred stock having sufficient voting rights to provide a required percentage vote of our stockholders. In addition, under some circumstances, the issuance of preferred stock could adversely affect the voting power and other rights of the holders of common stock. Although prior to issuing any series of preferred stock our board is required to make a determination as to whether the issuance is in the best interests of our stockholders, our board could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of our stockholders might believe to be in their best interests or in which our stockholders might receive a premium for their stock over prevailing market prices of such stock. Our board does not at present intend to seek stockholder approval prior to any issuance of currently authorized preferred stock, unless otherwise required by law or applicable stock exchange requirements.

Provisions Affecting Control of Energy Partners, Ltd.

Our bylaws provide that, in order for our stockholders to take action by written consent in lieu of a meeting, the consent be signed by the holders of shares of capital stock having not less than the greater of (1) the minimum number of votes that would be necessary to authorize the taking of the action at a meeting at which the holders of all shares entitled to be voted thereon were present and voted or (2) 85% of the total number of votes of the then outstanding shares of our capital stock entitled to vote. Our bylaws also prohibit stockholders from calling meetings. Our bylaws further establish an advance notice procedure with regard to business to be brought before an annual or special meeting of our stockholders

Table of Contents

and with regard to the nomination, other than by or at the direction of our board of directors, of candidates for election as directors. Although our bylaws do not give the board of directors any power to approve or disapprove stockholder nominations for the election of directors or proposals for action, they may have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if the proper procedures are not followed. They may also discourage or deter a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to us and our stockholders. An affirmative vote by the holders of more than two thirds of our common stock is required to modify the advance notice procedure.

The foregoing provisions of our bylaws and provisions of the Delaware General Corporation Law could have the following effects, among others:

delaying, deferring or preventing a change of control of our company;

delaying, deferring or preventing the removal of our existing management;

detering potential acquirers from making an offer to our stockholders; and

limiting any opportunity of our stockholders to realize premiums over prevailing market prices of our common stock in connection with offers by potential acquirors.

This could be the case notwithstanding that a majority of our stockholders might benefit from such a change of control or offer.

Certain of the underwriters, agents or dealers and their associates may be customers of, or engage in transactions with and perform services for us in the ordinary course of business. The prospectus supplement will disclose any relationships with the named underwriters.
