TRINITY INDUSTRIES, INC.

DALLAS, TEXAS 75207-2401

PROXY STATEMENT  
FOR  
ANNUAL MEETING OF STOCKHOLDERS  
TO BE HELD ON MAY 12, 2003

This Proxy Statement is being mailed on or about April 11, 2003 to the stockholders of Trinity Industries, Inc. ("Trinity" or the "Company") in connection with the solicitation of proxies by the Board of Directors of the Company to be voted at the Annual Meeting of Stockholders of the Company to be held at the offices of the Company, 2525 Stemmons Freeway, Dallas, Texas, on Monday, May 12, 2003, at 9:00 a.m., Central Daylight Saving Time (the "Annual Meeting"), or at any adjournment thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The Company's mailing address is P.O. Box 568887, Dallas, Texas, 75356-8887.

Shares represented by the enclosed proxy, if properly executed and returned to the Company prior to the meeting, will be voted at the Annual Meeting and at any adjournment thereof in the manner specified, or if not specified, the proxy will be voted FOR the election of the eight nominees for Directors as listed below and FOR the approval of Ernst & Young as independent auditors for the fiscal year ending December 31, 2003. The proxy may be revoked at any time before it is exercised by filing with the Company a written revocation, by executing a proxy bearing a later date or by attending the Annual Meeting and voting in person.

The outstanding voting securities of the Company consist entirely of shares of Common Stock, \$1.00 par value per share. The record date for the determination of the stockholders entitled to notice of and to vote at the

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

Annual Meeting, or any adjournment thereof, has been established by the Board of Directors as of the close of business on March 28, 2003. At that date, there were outstanding and entitled to vote 45,948,964 shares of Common Stock.

The presence, in person or by proxy, of the holders of record of a majority of the outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting, but if a quorum should not be present, the meeting may be adjourned from time to time until a quorum is obtained. A holder of Common Stock will be entitled to one vote per share on each matter properly brought before the meeting. Cumulative voting is not permitted in the election of directors.

The proxy card provides space for a stockholder to withhold voting for any or all nominees for the Board of Directors. The election of directors requires a plurality of the votes cast at the meeting. Ratification of the independent auditors requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the meeting. Shares of a stockholder who abstains from voting on any or all proposals will be included for the purpose of determining the presence of a quorum. However, an abstention with respect to the election of the Company's directors will not be counted either in favor of or against the election of the nominees. In the case of the other proposal which is being submitted for stockholder approval, an abstention will effectively count as a vote cast against such proposal. Broker non-votes on any matter, as to which the broker has indicated on the proxy that it does not have discretionary authority to vote, will be treated as shares not entitled to vote with respect to that matter. However, such shares will be considered present and entitled to vote for quorum purposes so long as they are entitled to vote on other matters.

### COMPENSATION OF DIRECTORS

Directors are compensated at the rate of \$1,250 for each board or committee meeting attended plus reimbursement for reasonable out-of-pocket expenses. In addition, each director who is not a compensated officer or employee of the Company or its subsidiaries receives a fee of \$40,000 per year for serving as a director, and the Chairman of each of the committees receives an additional \$3,500 per year. Directors may elect, pursuant to a Deferred Plan for Director Fees, to defer the receipt of all or a specified portion of the fees to be paid to him or her. Deferred amounts are credited to an account on the books of the Company and treated as if invested either at the annual LIBOR rate plus 6 points or, at the director's prior election, in units of the Company's Common Stock at the closing price on the New York Stock Exchange on the first trading day of the quarter following the date that a payment is credited to the director's account. Such stock units are credited with amounts equivalent to dividends paid on the Company's Common Stock. Upon ceasing to serve as a director, the value of the account will be paid to the director in annual installments not exceeding ten years according to the director's prior election.

Annually, each director who is not also an executive officer of the Company is granted an option to purchase 5,000 shares of the Company's Common Stock at the fair market value of the Company's Common Stock on the date of grant.

The Company has a Directors' Retirement Plan that is an unfunded arrangement whereby members of the Board of Directors who are not employees of the Company will receive monthly payments for a ten year period upon retirement, disability or death. The monthly payment will be equal to a percentage of the monthly payment of the annual retainer in effect at the time of retirement, disability or death while serving as a director. The applicable percentage is based upon the number of years of service on the Board of Directors. If the director has less than five years of service, the applicable percentage is zero. After five years of service, the applicable percentage is fifty percent with

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

increases of ten percent for each year of service thereafter up to one hundred percent after ten years. However, notwithstanding the number of years of service, a director's applicable percentage will be one hundred percent in the event of a change in control of the Company (as defined).

Commencing January 1, 1999, Mr. W. Ray Wallace was employed by the Company as a consultant pursuant to an agreement at a monthly rate of \$10,000. The agreement provides for the performance of services as may be required by the Chief Executive Officer or the Board of Directors and his continuation as a director as long as he is eligible. He is provided an office, administrative assistant, limited use of Company aircraft and reimbursement of expenses. In addition, the Company will provide medical coverage for the remainder of his life. In accordance with a retirement policy established by the Board of Directors, Mr. W. - (1) Mr. Flannery joined the Company in October of 2001.
- (2) Effective December 31, 2001, the Company changed its March 31 fiscal year end to a December 31 fiscal year end, therefore the amounts in the table for 12/31/01 are for a nine-month period.
- (3) Other annual compensation for the period ended December 31, 2002 is for directors' meeting fees for Mr. Wallace.
- (4) Amounts shown for each year are the value of each executive officer's restricted stock or restricted stock units based on the closing price of the Common Stock on the date of grant. Messrs. Wallace, Adams, Stiles, Ivy and Flannery had restricted shares or restricted stock units totaling 154,220, 64,000, 30,000, 46,000, and 10,200 shares or units, respectively, as of December 31, 2002 with a market value of \$2,924,000, \$1,213,000, \$569,000, \$872,000, and \$193,000, respectively, based on a \$18.96 per share market price of the Company's Common Stock on that date. Dividends are paid on the restricted shares and dividend equivalents are paid on the restricted stock units at the same rate as paid on the Company's Common Stock. The restrictions on transferability of the restricted stock will be lifted at times that vary between awards ranging from three years to the year following the recipient's retirement or earlier with the consent of the Human Resources Committee, or upon death, disability, or a change in control of the Company. If the employment of the recipient is terminated without the consent of the Human Resources

Committee for any reason before the restrictions have lapsed, then the restricted shares will be forfeited. The restricted stock units will vest sixty percent three years from the date of grant and an additional twenty percent on each of the two succeeding anniversaries thereof. The restricted stock units will be paid out at vesting, unless payment is deferred, on the basis of one share of common stock for each unit. Vesting of the restricted stock units may be accelerated in the event of death, disability, change of control or with the consent of the Company. If employment with the Company is terminated without the consent of the Company before the restricted stock units are vested, the units will be forfeited.

- (5) All other compensation for the year ended December 31, 2002 is composed of (i) the Company's matching amounts under the Company's Supplemental Profit Sharing Plan and Section 401(k) Plan (described below under "Retirement Plans") for Messrs. RETIREMENT PLANS

The Trinity Industries, Inc. Standard Pension Plan is a noncontributory defined benefit retirement and death benefit plan which is available to all eligible employees who have completed specified periods of employment. Funds are contributed periodically to a trust that invests the Company's contributions and earnings thereon in order to pay the benefits to the employees. The plan provides for the payment of monthly retirement benefits determined under a calculation based on credited years of service and a participant's highest compensation over five consecutive years in the last ten years of employment. Retirement benefits are paid to participants upon normal retirement at the age of 65 or later, or upon early retirement. The plan also provides for the payment of certain disability and death benefits. Covered compensation includes salary and bonus as shown in the Summary Compensation Table. Other elements of compensation in the Summary Compensation Table are not included in covered compensation.

The Company has also adopted a Supplemental Retirement Plan that permits the payment of supplemental benefits to certain employees who have been determined by the Plan Committee to be participants and whose annual benefits under the foregoing retirement plan would exceed those permitted by the Internal Revenue Code of 1986, as amended (the "Code"). The compensation that may be covered by a qualified plan is limited under the Code to \$200,000 adjusted for cost of living increases in accordance with the Code. The Supplemental Retirement Plan provides that if at any time the amount of the annual retirement benefit which would otherwise be payable under the Company's pension plan is or becomes limited by reason of compliance with the Code, such person shall be entitled to receive a supplemental pension benefit equal to the difference between the benefit that such person receives under the Company's pension plan and the benefit that such person would have received if such limitation had not been in effect. The benefits are payable from the general assets of the Company. Timothy R. Wallace is the only named executive officer who is a participant in the Supplemental Retirement Plan.

The following table reflects the estimated aggregate annual benefits, computed on the basis of a monthly benefit payable for ten years certain and life thereafter, payable under such plans to a fully vested participant of the Company upon retirement at age 65 after 10, 20, 30 and 40 credited years of service at the annual remuneration levels set forth in the table and without regard to any limitations on the amount of benefits by the Code.

The annual benefits shown are not subject to any deduction for Social Security benefits or other offset amounts. At December 31, 2002, Mr. Timothy R. Wallace has 27 credited years of service under the plans under which he is covered; Messrs. Adams, Stiles, Ivy and Flannery have 4 years, 11 years, 5 years and 1 year, respectively.

The Company maintains a Section 401(k) plan that permits employees to elect to set aside up to fourteen percent of their compensation (subject to the maximum limit on the amount of compensation permitted by the Code to be deferred for this purpose) in a trust to pay future retirement benefits. Depending upon years of service, the Company may match from twenty-five to fifty percent of up to six percent of the employee's compensation set aside for this purpose. The Company also maintains a Supplemental Profit Sharing Plan ("Supplemental Plan") for certain of its "highly compensated employees", as defined in the Code. The highly compensated employees are not limited as to the percentage of their compensation which may be contributed to the Supplemental Plan. The first six percent of a Participant's base salary and bonus contributed to the Supplemental Plan, less any compensation matched under the 401(k) plan, may be matched from twenty-five percent to fifty percent by the Company based on years of service. The Company's match vests 20% for each year of service up to 100% after five years. An additional seventeen and one-half percent match may be made on up to twenty-five percent of a Participant's base salary and bonus if the deferrals are directed into stock units. The additional match for stock units vests two plan years after the end of the plan year for which the match is made. The additional match does not apply to stock units acquired by transfer from existing account balances. All matches in the Supplemental Plan are made in stock units. Stock units may not be transferred into other investment accounts and may only be paid out in Common Stock.

CHANGE IN CONTROL AGREEMENTS

Each named executive officer has executed a change in control agreement with the Company that provides certain benefits in the event his or her

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

employment is terminated subsequent to a change in control of the Company (as defined in the agreements). The agreements are for continuous two-year terms until terminated by the Company upon specified notice and continue for two years following a change in control. The agreements provide that if there is a change in control of the Company and if the Company terminates the executive's employment other than as a result of the executive's death, disability or retirement, or for cause (as defined in the agreements), or if the executive terminates his or her employment for good reason (as defined in the agreements), then the Company will pay to such executive a lump sum equal to three times the amount of the executive's base salary and the higher of the average bonus earned over the previous three years or the target bonus for the fiscal year in which the change in control occurs.

-10-

The severance benefits provided by the agreements also include certain fringe benefits to which each executive would have been entitled if the executive had continued in the employment of the Company for thirty-six months after the executive's termination, a supplemental benefit based on the Company's retirement plan, and the right to surrender unexercised stock options and receive cash for the net realizable value of the options based on the highest price of the Common Stock within 180 days prior to the date of termination.

The agreements further provide that if any payment to which the executive is entitled would be subject to the excise tax imposed by Section 4999 of the Code, then the Company will pay to the executive an additional amount so that the net amount retained by the executive is equal to the amount that otherwise would be payable to the executive if no such excise tax had been imposed.

### REPORT OF THE HUMAN RESOURCES COMMITTEE ON EXECUTIVE COMPENSATION

The Company's executive compensation program is overseen by the Human Resources Committee (the "Committee") of the Board of Directors. The Committee,

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

which is composed entirely of outside directors, is responsible for setting the administration of policies that govern the compensation of the Company's executives, including base salary, incentive compensation, deferred compensation, stock options, and other stock based awards for each executive officer and certain key operating officers of the Company, except the salary of the Chief Executive Officer is decided by the Board, after recommendation by the Committee. The Committee retains an independent consultant to advise on matters related to executive compensation. Two members of the Committee, Ronald J. Gafford and Diana S. Natalicio, serve on a subcommittee designated as the Plan Committee, which has been authorized by the Board of Directors to make the awards under the Company's stock option and incentive plan based on recommendations of the Committee.

-11-

It is the Committee's policy to provide a competitive and comprehensive compensation program to attract, motivate, reward and retain the key executives needed to enhance the profitability of the Company and to create value for its stockholders. The Committee believes that the Company's executive compensation should consist of competitive base salaries and incentive compensation plans that reward both short and long-term performance. The key components of the Company's short-term executive compensation program in the last fiscal year were base salary and incentive compensation. The long-term program consisted of stock options, restricted stock unit awards, and in some cases deferred compensation. The Committee periodically reviews each component of the Company's executive compensation program to ensure that pay levels and incentive opportunities are competitive, directly linked to performance and aligned with the interest of stockholders. The Committee determines each executive's compensation based upon past and expected future performance, the executive's responsibilities within the Company, and the executive's value to the Company as determined by the Committee and performance towards specific financial, strategic and operating objectives.

### Base Salary

The Committee each year reviews each executive's performance and establishes each executive's base salary based upon past and expected future performance, and the executive's responsibilities within the Company. In fixing base salaries, the Committee also considers salaries of senior executives of other comparable companies as reflected in a survey provided by an independent outside consultant.

### Incentive Compensation

Annual incentive bonuses for the Company's named executive officers are tied to certain operational objectives and/or financial goals set each year by the Committee at the beginning of the year. Specific targets are tied to short-term goals applicable to the executive's job assignment. For fiscal 2002, Mr. Adams received one half of his annual incentive by an award of 12,500 shares of long-term restricted stock.

### Stock Options, LTP Units, Restricted Stock Grants and Deferred Compensation

Long-term incentive awards provided by the stockholder-approved stock option and incentive plans are designed to develop and retain strong management through stock ownership, stock options and other stock based incentive awards.

Stock options historically have been a significant portion of long-term incentive grants to executive officers. During 2002, executive officers,

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

business group presidents and key employees were granted options to purchase a total of 853,750 shares. The Committee believes that a significant portion of senior executives' compensation should be dependent on value created for stockholders. Options are an excellent vehicle to accomplish this by tying the executives' interests directly to the stockholders' interests. Options are granted at the fair market value of the Company's Common Stock on the date of grant and vest in annual increments over three years after such date if the optionee is still employed or vest fully at the date of death, disability or normal retirement.

The number of options executive officers are granted is based on individual performance and level of responsibility. The number of options currently held by an executive is not a factor in determining individual grants.

During 2002, certain key executives were awarded restricted stock units that vest over a five-year period as a retention incentive, including awards to Messrs. Wallace, Adams, Stiles, Ivy and Flannery of 44,120, 15,500, 10,000, 10,000 and 5,400 restricted stock units, respectively. The restricted stock units convert to shares of common stock on their vesting dates.

To encourage the retention of certain key and strategically important executives focused on continuous improvement and growth of the Company, the Company has established a deferred compensation plan for Messrs. Wallace, Adams, Stiles, Ivy and Flannery. Under the deferred compensation plan, an amount equal to ten percent of each participant's annual base salary and annual incentive compensation is accrued to his deferred account on the books of the Company. All such deferrals bear interest at the annual LIBOR rate plus 6 points.

-12-

### Chief Executive Officer Compensation

Compensation of the Chief Executive Officer is determined by the Board of Directors after recommendation by the Committee. The Chief Executive Officer's base salary, incentive compensation, stock option grants and stock-based awards are set within the philosophy and policies enunciated above for all other executives of the Company. In determining the compensation of the Chief Executive Officer, the Committee reviews the performance of the Company, considers the positioning of the Company for future years, assesses his past and ongoing personal performance in the position of Chief Executive Officer, and considers the report of a nationally recognized consulting firm employed to survey the compensation of chief executive officers of other companies, with particular emphasis on companies comparable to the Company. As reported in the Committee's report in the 2002 proxy statement, the Committee recommended to the Board, and the Board approved, a change in the Chief Executive Officer's compensation to \$900,000 beginning January 1, 2002. The Chief Executive Officer's base salary has not been changed for 2003. In determining the Chief Executive Officer's annual incentive, the Committee measured Mr. Wallace's performance against previously established operational objectives and financial goals. The Committee determined Mr. Wallace met the operational objectives and he was awarded 38,000 shares of long-term restricted stock designed to vest upon retirement. No cash compensation was awarded as an annual incentive for 2002. The Chief Executive Officer did not receive an annual incentive payment for the two previous fiscal years.

### Limitation on Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code denies a publicly held corporation a federal income tax deduction for the compensation of certain

## Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

executive officers exceeding \$1 million per year. "Performance based" compensation is not subject to the limitation on deductibility and the Committee strives to structure compensation so as to qualify for deductibility. The Committee will continue to monitor future deductibility options. However, the Committee will authorize compensation that may not be deductible when it deems it to be in the best interest of the Company and its stockholders.

### Conclusion

The Committee believes that the Company's compensation policies and practices are appropriately designed to attract, retain and motivate key executives to guide the Company in the future and to produce results which will enhance the Company's long-term prospects, thereby enriching shareholder values.

### COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Craig J. Duchossois, Ronald J. Gafford, Jess T. Hay and Diana S. Natalicio served on the Human Resources Committee during the last completed fiscal year. None of the members of the Human Resources Committee has ever served as an executive officer or employee of the Company or any of its subsidiaries. Mr. Hay's son-in-law is employed by the Company, where his compensation exceeds \$60,000 annually. Mr. Duchossois is a director, executive officer and has a pecuniary interest in TCMC by virtue of his direct or indirect equity ownership of TCMC. In 2002, TCMC was paid \$1,600,000 as part of a working capital adjustment related to the Merger Agreement. The 2002 payment was included in the working capital adjustment reported in Trinity's 2002 proxy statement. On February 27, 2003, Trinity submitted a claim to TCMC pursuant to the Merger Agreement regarding warranty and workers compensation matters. Payment is not expected until TCMC has had a reasonable time to review the matter.

It is anticipated that representatives of Ernst & Young LLP will be present at the Annual Meeting, will have the opportunity to make a statement if they so desire and will be available to respond to appropriate questions raised at the Annual Meeting or submitted to them in writing before the Annual Meeting.

### AUDIT FEES

The aggregate fees billed for professional services rendered for the audit of the Company's annual financial statements for the fiscal year ended December 31, 2002, for the reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for that period, and statutory audits were \$1,063,500.

### FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES

Ernst & Young did not render professional services relating to financial information systems design and implementation for the fiscal year ended December 31, 2002.

### ALL OTHER FEES

The aggregate fees billed by Ernst & Young for services rendered to the Company, other than the services described above under "Audit Fees" for the fiscal year ended December 31, 2002, were \$540,500, including audit related services of \$73,500 and non-audit services of \$467,000. Non-audit services were fees for tax services.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF ITS SELECTION OF ERNST & YOUNG LLP AS INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2003.

### REPORT OF THE AUDIT COMMITTEE

The Audit Committee (the "Committee") of the Board of Directors is a standing committee comprised of three independent directors as "independence" is currently defined by the applicable listing standard of the New York Stock Exchange. The Committee operates under a written charter adopted by the Board of Directors. A copy of the Charter was attached as Exhibit A to the Company's proxy statement for the Annual Meeting of Stockholders held July 31, 2001. The Committee is evaluating the Charter in light of the Sarbanes-Oxley Act of 2002, recent rules and regulations adopted by the Securities and Exchange Commission and proposed changes to New York Stock Exchange listing requirements. The Committee annually recommends to the Board of Directors the selection of the Company's independent auditors. That recommendation is subject to ratification by the Company's stockholders.

Management is responsible for the Company's internal controls and the financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and issuing a report thereon. As provided in its Charter, the Committee's responsibilities include the monitoring and oversight of these processes.

Consistent with its Charter responsibilities, the Committee has met and held discussions with management and the independent auditors. In this context, management represented to the Committee that the Company's

consolidated financial statements for the fiscal year ended December 31, 2002 were prepared in accordance with accounting principles generally accepted in the United States of America. The financial statements were audited by the independent auditors who provided an unqualified opinion thereon. The Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors and discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

The Company's independent auditors have also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent auditors that firm's independence. The Audit Committee has also considered whether the provision of non-audit services is compatible with maintaining the independent auditors' independence and concluded that such services have not impaired the auditor's independence.

Based upon Committee's discussion with management and the independent auditors and the Committee's review of the representation of management and the report of the independent auditors to the Committee, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 filed with the Securities and Exchange Commission.

The Company will supply brokers, nominees, fiduciaries and other custodians with proxy materials to forward to beneficial owners of shares in connection with this solicitation, and the Company will reimburse such brokers, nominees, fiduciaries and other custodians for their expenses in making such distribution. Management has no knowledge or information that any other person will specially engage any persons to solicit proxies.
