Item 1.01. Entry Into a Material Definitive Agreement

On September 29, 2006, Texas Capital Bancshares, Inc. (the "Company") completed the private placement of \$41,238,000 aggregate liquidation amount of Floating Rate Capital Securities (the "Capital Securities") issued by its newly formed Delaware statutory trust, Texas Capital Statutory Trust V (the "Trust"). The proceeds from the sale of the Capital Securities, together with the proceeds from the sale by the Trust of its Common Securities to the Company, were invested in Floating Rate Junior Subordinated Notes of the Company due 2036 (the "Debentures"), which were issued pursuant to an Junior Subordinated Indenture dated September 29, 2006, between the Company and Wilmington Trust Company, a Delaware banking corporation ("Wilmington Trust"), as Trustee. Both the Capital Securities and the Debentures have the following characteristics: a term of 30 years, maturing on December 31, 2036; a floating rate of interest that resets quarterly to 1.71% above the 3-month LIBOR rate; interest payments will be made quarterly on December 31, March 31, June 30 and September 30. The interest paid by the Company on the Debentures will be the source of funds for the Trust to make the interest payments on the Capital Securities. Payments of distributions and other amounts due on the Capital Securities are guaranteed by the Company, to the extent that the Trust has funds available for the payments of such distributions but fails to make such payments, pursuant to a Guarantee Agreement, dated September 29, 2006, between the Company and Wilmington Trust, as Guarantee Trustee. The Debentures and Capital Securities may be redeemed at the option of the Company on fixed quarterly dates beginning on December 31, 2011.
