## Table of Contents

## EZCORP, Inc. and Subsidiaries <br> Notes to Interim Condensed Consolidated Financial Statements (Unaudited) March 31, 2008

## Note A: Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Management has included all adjustments it considers necessary for a fair presentation. These adjustments are of a normal, recurring nature except for those related to an acquired business (described in Note C) and the adoption of a new accounting principle for uncertain tax positions (described in Note K). The accompanying financial statements should be read with the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended September 30, 2007. The balance sheet at September 30, 2007 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Certain prior period balances have been reclassified to conform to the current presentation.
Our business is subject to seasonal variations, and operating results for the three and six-month periods ended March 31, 2008 (the current quarter and current year-to-date period ) are not necessarily indicative of the results of operations for the full fiscal year.

## Note B: Significant Accounting Policies

CONSOLIDATION: The consolidated financial statements include the accounts of EZCORP, Inc. and its wholly owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation. We account for our interest in Albemarle \& Bond Holdings, plc using the equity method.
PAWN LOAN AND SALES REVENUE RECOGNITION: We record pawn service charges using the interest method for all pawn loans we believe to be collectible. We base our estimate of collectible loans on several factors, including recent redemption rates, historical trends in redemption rates and the amount of loans due in the following two to three months. Unexpected variations in any of these factors could change our estimate of collectible loans, affecting our earnings and financial condition. If a pawn loan is not repaid, we value the forfeited collateral (inventory) at the lower of cost (pawn loan principal) or market (net realizable value) of the property. We record sales revenue and the related cost when this inventory is sold.
CREDIT SERVICE REVENUE RECOGNITION: We earn credit service fees when we assist customers in obtaining a loan from unaffiliated lenders. We initially defer recognition of the fees we expect to collect, net of direct expenses, and recognize that deferred net amount over the life of the related loans. We reserve the percentage of credit service fees we expect not to collect. Accrued fees related to defaulted loans reduce credit service fee revenue upon loan default, and increase credit service fee revenue upon collection. Credit service revenue is included in Signature loan fees on our statements of operations.
CREDIT SERVICE BAD DEBT: We issue letters of credit to enhance the creditworthiness of our credit service customers seeking loans from unaffiliated lenders. The letters of credit assure the lenders that if borrowers default on the loans, we will pay the lenders, upon demand, the principal and accrued interest owed it by the borrowers plus any insufficient funds fee. Although amounts paid under letters of credit may be collected later, we charge those amounts to signature loan bad debt upon default. We record recoveries under the letters of credit as a reduction of bad debt at the time of collection. After attempting collection of bad debts internally, we occasionally sell them to an unaffiliated company as another method of recovery. We account for the sale of defaulted accounts in the same manner as internal collections of defaulted accounts.
The majority of our credit service customers obtain short-term loans with a single maturity date. These short-term loans, with maturity dates averaging about 18 days, are considered defaulted if they have not been repaid or renewed by the maturity date. Other credit service customers obtain installment loans with a series of payments due over as

## Table of Contents

much as a five-month period. If one payment of an installment loan is delinquent, that one payment is considered defaulted. If more than one installment payment is delinquent at any time, the entire loan is considered defaulted. CREDIT SERVICE ALLOWANCE FOR LOSSES: We also provide an allowance for losses we expect to incur under letters of credit for loans that have not yet matured. The allowance is based on recent loan default experience adjusted for seasonal variations. It includes all amounts we expect to pay to the unaffiliated lenders upon loan default, including loan principal, accrued interest, and insufficient funds fees, net of the amounts we expect to collect from borrowers ( Expected LOC Losses ). Changes in the allowance are charged to signature loan bad debt expense. We include the balance of Expected LOC Losses in Accounts payable and other accrued expenses on our balance sheet. At March 31, 2008, the allowance for Expected LOC Losses was $\$ 1.2$ million. At that date, our maximum exposure for losses on letters of credit, if all brokered loans defaulted and none was collected, was $\$ 21.4$ million. This amount includes principal, interest, and insufficient funds fees. Based on the expected loss and collection percentages, we also provide an allowance for the credit service fees we expect not to collect, and charge changes in this allowance to signature loan fee revenue.
PAYDAY LOAN REVENUE RECOGNITION: We accrue fees on the percentage of payday loans we believe to be collectible. Accrued fees related to defaulted loans reduce fee revenue upon loan default, and increase fee revenue upon collection. Payday loan fee revenue is included in Signature loan fees on our statements of operations. Loan terms are generally less than 30 days, averaging about 18 days.
PAYDAY LOAN BAD DEBT: We consider a loan defaulted if it has not been repaid or renewed by the maturity date. Although defaulted loans may be collected later, we charge the loan principal to signature loan bad debt upon default, leaving only active loans in the reported balance. We record collections of principal as a reduction of signature loan bad debt when collected. After attempting collection of bad debts internally, we occasionally sell them to an unaffiliated company as another method of recovery. We account for the sale of defaulted accounts in the same manner as internal collections of defaulted accounts.
PAYDAY LOAN ALLOWANCE FOR LOSSES: We also provide an allowance for losses on payday loans that have not yet matured and related fees receivable, based on recent loan default experience adjusted for seasonal variations. We charge any changes in the principal valuation allowance to signature loan bad debt. We record changes in the fee receivable valuation allowance to signature loan fee revenue.
INVENTORY: If a pawn loan is not redeemed, we record the forfeited collateral at cost. We do not record loan loss allowances or charge-offs on the principal portion of pawn loans, as they are fully collateralized. In order to state inventory at the lower of cost (specific identification) or market (net realizable value), we record an allowance for shrinkage and excess, obsolete, or slow-moving inventory. The allowance is based on the type and age of merchandise and recent sales trends and margins. At March 31, 2008, the inventory valuation allowance was $\$ 4.7$ million, or $11.6 \%$ of gross inventory. We record changes in the inventory valuation allowance as cost of goods sold.
INTANGIBLE ASSETS: Goodwill and other intangible assets having indefinite lives are not subject to amortization. They are tested for impairment each July $1^{\text {st }}$, or more frequently if events or changes in circumstances indicate that they might be impaired. We recognized no impairment of our intangible assets in the current or prior year-to-date periods. We amortize intangible assets with definite lives over their estimated useful lives, using the straight-line method.
PROPERTY AND EQUIPMENT: Property and equipment is shown net of accumulated depreciation of $\$ 89.8$ million at March 31, 2008.
VALUATION OF TANGIBLE LONG-LIVED ASSETS: We assess the impairment of tangible long-lived assets whenever events or changes in circumstances indicate that the net recorded amount may not be recoverable. The following factors could trigger an impairment review: significant underperformance relative to historical or projected future cash flows; significant changes in the manner of use of the assets or the strategy for the overall business; or significant negative industry trends. When we determine that the net recorded amount of tangible long-lived assets may not be recoverable, we measure impairment based on the excess of the assets net recorded amount over the estimated fair value. No impairment of tangible long-lived assets was recognized in the current or prior year-to-date periods.

## Table of Contents

INCOME TAXES: We calculate the provision for federal income taxes based on our estimate of the effective tax rate for the full fiscal year. As part of the process of preparing the financial statements, we estimate income taxes in each jurisdiction in which we operate. This involves estimating the actual current tax liability and assessing temporary differences in recognition of income for tax and accounting purposes. These differences result in deferred tax assets and liabilities that we include in our balance sheet. We must then assess the likelihood that the deferred tax assets will be recovered from future taxable income. If we determined we would not be able to realize all or part of our net deferred tax assets in the future, an increase to the valuation allowance would be charged to the income tax provision in that period. Likewise, if we determined we would be able to realize our deferred tax assets in the future in excess of the net recorded amount, a decrease to the valuation allowance would decrease the tax provision in that period. We assess the need for a deferred tax asset valuation allowance quarterly. Our valuation allowance was unchanged from the prior year-to-date period at $\$ 0.4$ million at March 31, 2008.
Effective October 1, 2007, we adopted Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ). See Note K for further discussion and related disclosures.
SHARE-BASED COMPENSATION: We account for share-based compensation in accordance with the fair value recognition provisions of SFAS No. 123(R), Share-based Payment. We estimate the grant-date fair value of options using the Black-Scholes-Merton option-pricing model and amortize that fair value to compensation expense on a straight-line basis over the options vesting periods.
SEGMENTS: We account for our operations in accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information. We manage our business operations and internal reporting as three reportable segments. Prior to October 1, 2007, we had two reportable segments. Effective October 1, 2007, we reorganized as three reportable segments. See Note L for further discussion and separate data for each segment.
RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS: In September 2006, the Financial Accounting
Standards Board ( FASB ) issued SFAS No. 157, Fair Value Measurements. Among other requirements, SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosure about the use of fair value to measure assets and liabilities. We must adopt SFAS No. 157 in our fiscal year ending September 30, 2009. We are currently evaluating the impact, if any, of SFAS No. 157 on our financial position and results of operations. It will not impact our cash flows.

## Note C: Acquisitions

On October 22, 2007, we completed the acquisition of twenty Mexico pawnshops from MMFS Intl., S.A. de C.V, a subsidiary of Mister Money Holdings, Inc. for $\$ 15.4$ million cash and direct transaction costs. The estimated fair values of the assets acquired and liabilities assumed are preliminary, and may be refined within a year of the acquisition. The initial valuation of $\$ 15.3$ million increased to $\$ 15.4$ million in the current quarter due to additional professional fees related to the acquisition. The increase was recorded as an increase to goodwill. In the current quarter, we also refined our estimated fair value of the non-compete agreement, which increased the non-compete agreement by $\$ 0.4$ million, and decreased goodwill by an offsetting amount.

## Table of Contents

The purchase price is preliminarily allocated as follows, including the adjustments discussed above (in thousands):
Current assets:
Pawn loans 3 3,230
Pawn service charges receivable, net 224
Inventory, net 940
Deferred tax asset 41
Prepaid expenses and other assets 40
Total current assets 4,475
Property and equipment 800
Non-compete agreement 2,000
Goodwill 8,128
Other assets, net 131
Total assets \$ 15,534

Liabilities:
Accrued liabilities $\quad$ \$ (30)
Customer deposits

Total liabilities

Net assets acquired

The results of the acquired stores have been consolidated with our results since their acquisition. Pro forma results of operations have not been presented because the acquisition was not material in relation to our consolidated financial position or results of operations.
On March 17, 2008, we announced our agreement to acquire up to $100 \%$, but not less than $70 \%$, of the equity ownership of Value Financial Services, Inc., a pawn store chain based in Florida, for approximately $\$ 100$ million, subject to our due diligence review. On April 28, 2008, we amended the agreement to extend the due diligence period to May 13, 2008 and the expected closing date to June 26, 2008, among other related changes.

## Note D: Earnings Per Share

We compute basic earnings per share on the basis of the weighted average number of shares of common stock outstanding during the period. We compute diluted earnings per share on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding stock options, warrants and restricted stock awards.
Components of basic and diluted earnings per share are as follows (in thousands, except per share amounts):

|  | Three Months Ended |  | Six Months Ended <br> March 31, |  |
| :--- | :---: | :---: | :---: | :---: |
| Net income (A) | March 31, |  | 2007 | 2008 |

Dilutive effect of stock options, warrants, and restricted stock

Weighted average common stock and common stock equivalents (C)

43,228
43,445
43,241
43,347

Basic earnings per share (A/B)

Diluted earnings per share (A/C)
\$ 0.46
Anti-dilutive options, warrants and restricted stock grants have been excluded from the computation of diluted earnings per share because the assumed proceeds upon exercise, as defined by SFAS No. 123(R), were greater than the cost to re-acquire the same number of shares at the average market price, and therefore the effect would be anti-dilutive.

## Table of Contents

## Note E: Investment in Unconsolidated Affiliate

At March 31, 2008, we owned 16,298,875 common shares of Albemarle \& Bond Holdings, plc ( A\&B ), or approximately $29.95 \%$ of A\&B s total outstanding shares. The investment is accounted for using the equity method. Since A\&B s fiscal year ends three months prior to ours, we report the income from this investment on a three-month lag. A\&B files interim and annual financial reports for its fiscal periods ending December 31 and June 30. The income reported for our current year-to-date period ended March 31, 2008 represents our percentage interest in the results of A\&B s operations from July 1, 2007 to December 31, 2007, including the results of 26 stores A\&B acquired from a competitor on July 12, 2007.
On July 1, 2007, A\&B discontinued use of U.K. GAAP and adopted International Financial Reporting Standards, or IFRS. The prior year figures shown below are restated on IFRS for comparability to the current year presentation. Below is summarized financial information for $\mathrm{A} \& \mathrm{~B} \mathrm{~s}$ most recently reported results (using average exchange rates for the periods indicated):
Turnover (gross revenues)
Gross profit

Profit after tax (net income)

| Six Months Ended December |  |
| :---: | ---: |
| 31, |  |
| 2007 | 2006 |
| (in thousands) |  |
| $\$ 50,660$ | $\$ 32,669$ |
| 36,574 | 23,447 |
| 7,230 | 5,239 |

## Note F: Contingencies

Currently and from time to time, we are defendants in legal and regulatory actions. While we cannot determine the ultimate outcome of these actions, after consultation with counsel, we believe their resolution will not have a material adverse effect on our financial condition, results of operations or liquidity. However, we cannot give any assurance as to their ultimate outcome.
In May 2007, the State of Texas filed suit against EZCORP, Inc. and our Texas affiliates in state district court in Bexar County alleging violations of the Texas Identity Theft statute, Deceptive Trade Practices Act, and a provision of the Business and Commerce Code by allegedly failing to safeguard and properly dispose of customers sensitive personal information. In late May 2007, we voluntarily entered into an Agreed Temporary Injunction regarding the safeguarding and disposal of the information. We have reviewed and enhanced our information security polices to address the State s concerns. We are currently in discussions with the State to reach an amicable resolution of this matter, but can give no assurance that an amicable resolution will be reached prior to the October 20, 2008 scheduled jury trial date.
The Florida Office of Financial Regulation has filed an administrative action against us alleging that our Florida credit service organization business model used in eleven stores adjoining EZPAWN locations violates state usury law. On March 25, 2008, an administrative law judge issued a Recommended Order finding against us and recommending that the Florida Office of Financial Regulation issue a cease and desist order against our ongoing credit services operations in Florida. We expect the Florida Office of Financial Regulation to issue a final order in this matter by May 31, 2008.
We intend to appeal any decision and have filed a Motion for Stay Pending Appeal with the Florida Office of Financial Regulation. No ruling on the Motion for Stay has been issued. We cannot give any assurance as to the ultimate outcome of this matter.

## Note G: Comprehensive Income

Comprehensive income includes net income and other revenues, expenses, gains and losses that are excluded from net income but are included as a component of total stockholders equity. Comprehensive income for the current quarter and current year-to-date periods ended March 31, 2008 was $\$ 12.9$ million and $\$ 25.9$ million. For the comparable 2007 periods, comprehensive income was $\$ 10.8$ million and $\$ 21.0$ million, respectively. The difference between comprehensive income and net income results primarily from the effect of foreign currency translation adjustments determined in accordance with SFAS No. 52, Foreign Currency Translation. At March 31, 2008, the accumulated balance of foreign currency activity excluded from net income was $\$ 4.4$ million, net of tax of $\$ 1.5$ million. The net
$\$ 2.9$ million is presented as Accumulated other comprehensive income in the current quarter balance sheet. 8

## Table of Contents

## Note H: Long-term Debt

While we had no debt at March 31, 2008 and 2007, we have a $\$ 40.0$ million revolving credit facility secured by our assets, which matures October 1, 2009. For any borrowed funds, we may choose a Eurodollar rate plus 100 to 200 basis points (depending on the leverage ratio) or the agent bank s base rate. On the unused amount of the revolving facility, we pay a commitment fee of 25 to 30 basis points depending on the leverage ratio calculated at the end of each quarter. Terms of the agreement require, among other things, that we meet certain financial covenants. We were in compliance with all covenants at March 31, 2008. Payment of dividends and additional debt are allowed but restricted.

## Note I: Goodwill and Other Intangible Assets

The following table presents the balance of each major class of indefinite-lived intangible asset at the specified dates:

|  | $\begin{gathered} \text { March } \\ 31, \\ 2008 \end{gathered}$ | March 31, <br> 2007 <br> (In thousands) |  |  | $\begin{gathered} \text { September 30, } \\ 2007 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Pawn licenses | \$ 1,549 | \$ | 1,549 | \$ | 1,549 |
| Goodwill | 24,422 |  | 768 |  | 16,211 |
| Total | \$ 25,971 | \$ | 2,317 | \$ | 17,760 |

The following table presents the gross carrying amount and accumulated amortization for each major class of definite-lived intangible asset at the specified dates:

|  | March 31, 2008 |  |  | March 31, 2007 |  |  |  | September 30, 2007 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Carrying | Accumulated |  | Carrying |  | Accumulated |  | Carrying |  | Accumulated |  |
|  |  |  |  |  |  |  |  |  |  |  |  |
|  | Amount |  | rtization |  | mount (In | $\begin{aligned} & \text { Am } \\ & \text { usan } \end{aligned}$ | ization |  | nount |  | zation |
| License application fees | \$ 345 | \$ | (304) | \$ | 345 | \$ | (273) | \$ |  | \$ | (288) |
| Real estate finders fees | 556 |  | (336) |  | 556 |  | (319) |  | 556 |  | (327) |
| Non-compete agreements | 2,917 |  | (569) |  | 398 |  | (288) |  | 898 |  | (324) |
| Total | \$ 3,818 | \$ | $(1,209)$ |  | 1,299 | \$ | (880) |  | ,799 | \$ | (939) |

Total amortization expense from definite-lived intangible assets for the current quarter and year-to-date periods ended March 31, 2008 was approximately $\$ 152,000$ and $\$ 268,000$. For the comparable 2007 periods, amortization expense was approximately $\$ 17,000$ and $\$ 35,000$. The following table presents our estimate of amortization expense for definite-lived intangible assets for each of the five succeeding fiscal years as of October 1, 2007 (in thousands):

| Fiscal Year | Amortization Expense |
| :---: | :---: |
| 2008 | $\$ 555$ |
| 2009 | $\$ 563$ |
| 2010 | $\$ 548$ |
| 2011 | $\$ 541$ |
| 2012 | $\$ 509$ |
| Thereafter | $\$ 162$ |

As acquisitions and dispositions occur in the future, amortization expense may vary from these estimates.

## Table of Contents

Note J: Common Stock, Warrants, Options, and Share-based Compensation
Our income includes the following share-based compensation expense, determined in accordance with the fair value provisions of SFAS No. 123(R):

Stock option and warrant exercises resulted in the issuance of 55,166 shares of Class A Non-voting Common Stock in the current quarter for total proceeds of $\$ 64,000$. For the current year-to-date period, 91,699 shares of Common Stock were issued for total proceeds of $\$ 147,000$.
Note K: Adoption of a New Accounting Principle for Income Taxes
Effective October 1, 2007, we adopted Financial Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ). To be recognized in the financial statements, FIN 48 requires that a tax position is more-likely-than-not to be sustained upon examination, based on the technical merits of the position. In making the determination of sustainability, we must presume the appropriate taxing authority with full knowledge of all relevant information will examine tax positions. FIN 48 also prescribes how the benefit should be measured, including the consideration of any penalties and interest. It requires that the new standard be applied to the balances of tax assets and liabilities as of the beginning of the period of adoption and that a corresponding adjustment be made to the opening balance of equity. As a result of the adoption of FIN 48, we recognized a $\$ 106,000$ liability, including $\$ 8,600$ of penalties and interest, for unrecognized state income tax benefits net of federal taxes, and recorded this as a cumulative adjustment to our beginning equity at October 1, 2007. This balance has not been adjusted since adoption. We will record future changes in FIN 48 tax liabilities and related interest and penalties as federal income tax expense on our statement of operations and in federal income taxes payable on our balance sheet.
Below is a reconciliation of the beginning and ending unrecognized tax benefits for the current year-to-date period (in thousands):

Unrecognized tax benefits at September 30, 2007
Addition upon initial adoption of FIN 48 October 1, 2007
Additions based on current year tax positions
Reductions based on settlements with taxing authorities
Reductions due to lapse in statute of limitations
Unrecognized tax benefits at March 31, 2008 \$ 106

We are subject to U.S. and Mexican income taxes as well as various other state and local jurisdictions. With few exceptions, we are no longer subject to examinations by tax authorities for years before the tax year ended September 30, 2003. The statutes of limitations related to our recorded liability expire between June 15, 2009 and June 15, 2011.

## Table of Contents

## Note L: Operating Segment Information

We manage our business and internal reporting as three reportable segments with operating results reported separately for each segment. Prior to October 1, 2007, we had two reportable segments. Effective October 1, 2007, we broke our previously immaterial EZPAWN Mexico operations into a reportable segment separate from other pawn operations, and have restated prior year amounts on a comparable basis. The three reportable segments are:

EZPAWN U.S. Operations: This segment offers pawn loans and related sales in our 294 U.S. EZPAWN stores and offers signature loans in six U.S. EZMONEY stores and 73 of our U.S. EZPAWN stores.

EZPAWN Mexico Operations: This segment offers pawn loans and related sales in 26 pawn stores in Mexico.
EZMONEY Operations: This segment operates only in the United States and offers signature loans in 456 of our EZMONEY stores.
There are no inter-segment revenues, and the amounts below were determined in accordance with the same accounting principles used in our consolidated financial statements. The following tables present operating segment information:

| EZPAWN | EZPAWN |  |  |
| :---: | :---: | :---: | :---: |

Brokered loans outstanding from unaffiliated lenders
\$ 477 \$
\$ 22,834 \$
23,311
Brokered loans are not recorded as an asset on our balance sheet, as we do not own a participation in the loans made by independent lenders. We monitor the principal balance of these loans, as our credit service fees and bad debt are directly related to their volume due to the letters of credit we issue on these loans. The balance shown above is the gross principal balance of the loans outstanding.

## Table of Contents

## Overview

We lend or provide credit services to individuals who do not have cash resources or access to credit to meet their short-term cash needs. As of March 31, 2008, we offer pawn loans in our 294 domestic pawn stores and 26 Mexico pawn stores. Pawn loans are non-recourse loans collateralized by tangible personal property. At these stores, we also sell merchandise, primarily collateral forfeited from our pawn lending operations, to customers looking for good value. In 462 EZMONEY stores and 73 of our domestic EZPAWN stores open March 31, 2008, we offer short-term non-collateralized loans, often called payday loans, or fee-based credit services to customers seeking loans (collectively, signature loans ).
We manage our business as three segments. The EZPAWN U.S. Operations segment offers pawn related activities in all 294 domestic EZPAWN stores, and offers signature loans in 73 of our domestic EZPAWN stores and six EZMONEY stores. The EZPAWN Mexico Operations segment offers pawn related activities in 26 Mexico pawn stores. The EZMONEY Operations segment offers signature loans in 456 EZMONEY stores, and accounts for approximately $98 \%$ of our signature loan revenues. The following tables present store data by operating segment:

We earn pawn service charge revenue on our pawn lending. While allowable service charges vary by state and loan size, a majority of our U.S. pawn loans earn $20 \%$ per month, or $240 \%$ annually. Our average U.S. pawn loan amount typically ranges between $\$ 80$ and $\$ 100$ but varies depending on the valuation of each item pawned. The total U.S. loan term, consisting of the primary term and grace period, ranges between 60 and 120 days. In Mexico, a majority of our pawn loans earn pawn service charges of $13 \%$ to $14 \%$ net of applicable taxes, and the total loan term is 45 days. In our pawnshops, we acquire inventory for retail sales through pawn loan forfeitures and, to a lesser extent, through purchases of customers merchandise. The gross profit on sales of inventory depends primarily on our assessment of
the resale value at the time the property is either accepted as loan collateral or purchased. Improper assessment of the resale value in the lending or purchasing process can result in lower margins or reduced marketability of the merchandise.
At March 31, 2008, 278 of our 456 EZMONEY stores and 49 of our 294 domestic pawn stores offered credit services to customers seeking loans from unaffiliated lenders. We do not participate in any of the loans made by the lenders, but earn a fee for helping customers obtain credit and for enhancing customers creditworthiness by providing letters of credit. We also offer a free service to all credit service customers to improve or establish their credit histories by reporting their payments to an external credit-reporting agency.
In connection with our credit services, the unaffiliated lenders offer customers two types of loans. In all 278
EZMONEY stores and 49 EZPAWN stores offering credit services, customers can obtain short-term loans, with principal amounts up to $\$ 1,500$ but averaging $\$ 550$. Terms of these short-term loans are generally less than 30 days, averaging about 18 days, with due dates corresponding with the customers next payday. We typically earn a fee of $20 \%$ of the loan amount for our short-term loan credit services. In 72 EZMONEY stores offering credit services, customers can obtain longer-term installment loans from the unaffiliated lenders. The installment loans typically

## Table of Contents

carry terms of about five months with ten equal installment payments due on customers paydays. Installment loan principal amounts range from $\$ 1,525$ to $\$ 3,000$, but average about $\$ 2,100$. With each installment payment, we earn a fee of $10 \%$ of the initial loan amount. At March 31, 2008, short-term loans comprised $98 \%$ of the balance of loans brokered through our credit services, and installment loans comprised the remaining $2 \%$.
We earn payday loan fee revenue on our payday loans. In 24 pawn stores and 184 EZMONEY stores, we make payday loans subject to state law. The average payday loan amount is approximately $\$ 435$ and the term is generally less than 30 days, averaging about 18 days. We typically charge a fee of $15 \%$ to $22 \%$ of the loan amount for a 7 to 23-day period.
On June 18, 2007, we completed the acquisition of fifteen pawnshops and one payday loan store from Jumping Jack Cash, a competitor in Colorado for $\$ 23.2$ million of cash and direct transaction costs. Results of the acquired stores are included in our consolidated results from the date of acquisition.
On October 22, 2007, we completed the acquisition of twenty Mexico pawnshops from MMFS Intl., S.A. de C.V., a subsidiary of Mister Money Holdings, Inc. for $\$ 15.4$ million cash and direct transaction costs. Results of the acquired stores are included in our consolidated results from the date of acquisition.
On March 17, 2008, we announced our agreement to acquire up to $100 \%$, but not less than $70 \%$, of the equity ownership of Value Financial Services, Inc. for approximately $\$ 100$ million, subject to our due diligence review. Value Financial Services currently owns and operates 65 pawn stores in Florida, Tennessee, and Georgia, including one opened since our announcement of the planned acquisition. On April 28, 2008, we amended the agreement to extend the due diligence period to May 13, 2008 and the expected closing date to June 26, 2008, among other related changes. The remainder of this discussion and analysis excludes the potential impact of this pending acquisition, as its completion is not yet assured.
In the current quarter, the EZPAWN U.S. Operations segment contributed $\$ 6.3$ million greater store operating income compared to the prior year quarter, primarily from an increase in same store pawn service charges, the same store gross profit from gold scrapping, and the contribution from 15 Colorado pawn stores acquired in June 2007. The EZPAWN Mexico Operations segment improved its store operating income by $\$ 0.9$ million, primarily due to the acquisition of twenty stores in October 2007. Our EZMONEY Operations segment contributed $\$ 0.3$ million greater store operating income, comprised of higher fees net of bad debt, offset by higher operating costs. After an increase in administrative expenses and depreciation and less material changes in other items, our consolidated net income improved to $\$ 13.0$ million in the current quarter from $\$ 10.2$ million in the prior year quarter.

|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

average pawn
loan balance
during the period.
(b) Signature loan balances include payday loans (net of valuation allowance) recorded on our balance sheet and the principal portion of active brokered loans outstanding from unaffiliated lenders, the balance of which is not included on our balance sheet.
Our current quarter U.S. pawn service charge revenue increased $25 \%$, or $\$ 4.2$ million from the prior year quarter to $\$ 20.7$ million. This increase was due to a $17 \%$, or $\$ 2.9$ million increase in same store pawn service charges and a $\$ 1.3$ million increase in pawn service charges at acquired stores. The same store improvement was due primarily to a higher average pawn loan balance, with the yield relatively unchanged. We have periodically raised our loan values on gold jewelry in response to increases in gold market values and similar changes by our competitors, including three increases over the last year. This contributed about $\$ 2.0$ million to the increase in U.S. pawn service charges in the current quarter.

## Table of Contents

The table below presents our sales volume, gross profit, and gross margins in the EZPAWN U.S. Operations segment:

|  | Three Months Ended March 31, |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2008 |  | 2007 |  |
|  | (Dollars in millions) |  |  |  |
| Merchandise sales | \$ | 43.3 | \$ | 39.5 |
| Jewelry scrapping sales |  | 16.4 |  | 10.5 |
| Total sales | \$ | 59.7 | \$ | 50.0 |
| Gross profit on merchandise sales | \$ | 17.0 | \$ | 15.9 |
| Gross profit on jewelry scrapping sales | \$ | 7.0 | \$ | 3.7 |
| Gross margin on merchandise sales |  | 39.2\% |  | 40.3\% |
| Gross margin on jewelry scrapping sales |  | 42.6\% |  | 35.4\% |
| Overall gross margin |  | 40.1\% |  | 39.3\% |

The current quarter s merchandise gross profit increased $\$ 1.1$ million from the prior year quarter to $\$ 17.0$ million. This was due to additional sales from the fifteen pawn stores acquired in June 2007 and a four percent same store sales increase, partially offset by a 1.1 percentage point decrease in gross margins to $39.2 \%$. The decrease in gross margins was the result of higher levels of discounting merchandise.
The current quarter s gross profit on jewelry scrapping sales increased $\$ 3.3$ million from the prior year quarter to $\$ 7.0$ million. This was due to a $\$ 5.9$ million increase in jewelry scrapping sales on $19 \%$ more volume and a 7.2 percentage point improvement in margins. The proceeds refiners pay us for jewelry has increased in the last year in response to higher gold values. We also increased the amount we loan on jewelry and pay to purchase jewelry from customers, increasing the cost of these items. The net effect of these factors comprises most of the improvement in gross profit from jewelry scrapping sales in the current quarter.
Merchandise and jewelry scrapping sales volume is heavily dependent on inventory available for sale, or beginning inventory on hand plus pawn loan forfeitures and inventory purchases. Inventory available for sale in the current quarter was $17 \%$ higher than in the prior year quarter, largely due to same store pawn loan growth and the related increase in loan forfeitures and the June 2007 acquisition of fifteen pawn stores. Total merchandise sales for the quarter were $10 \%$ above the prior year quarter.
The segment s signature loan contribution, or fee revenue less bad debt, decreased $\$ 0.1$ million in the current quarter compared to the prior year quarter due to lower fee revenues on a lower average loan balance, combined with an increase in signature loan bad debt from $18.7 \%$ of fees in the prior year quarter to $24.9 \%$ in the current quarter. Operations expense improved to $51 \%$ of net revenues ( $\$ 23.5$ million) in the current quarter from $58 \%$ of net revenues ( $\$ 21.5$ million) in the prior year quarter as operating expenses grew at a slower pace than the segment s net revenues. In the current quarter, the $\$ 8.4$ million greater net revenue from U.S. pawn activities, partially offset by the $\$ 2.0$ million higher operations expense and $\$ 0.1$ million lower contribution from signature loans resulted in a $\$ 6.3$ million overall increase in store operating income from the EZPAWN U.S. Operations segment compared to the prior year quarter. For the current quarter, the EZPAWN U.S. Operations segment made up $67 \%$ of consolidated store operating income compared to $62 \%$ in the prior year quarter.

## EZPAWN Mexico Operations Segment

The following table presents selected financial data for the EZPAWN Mexico Operations segment:

|  | Three Months Ended March 31, |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2008(Dollars in thousands) |  |  |  |
|  |  |  |  |  |
| Sales | \$ | 1,583 | \$ | 13 |
| Pawn service charges |  | 1,065 |  | 8 |
| Signature loan fees |  |  |  |  |
| Other |  | 3 |  |  |
| Total revenues |  | 2,651 |  | 21 |
| Cost of goods sold |  | 947 |  | 7 |
| Net revenues |  | 1,704 |  | 14 |
| Operating expenses: |  |  |  |  |
| Operations expense |  | 889 |  | 58 |
| Signature loan bad debt |  |  |  |  |
| Total store operating expenses |  | 889 |  | 58 |
| Store operating income | \$ | 815 | \$ | (44) |
| Other data: |  |  |  |  |
| Gross margin on sales |  | 40\% |  | 46\% |
| Annualized inventory turnover |  | 2.7x |  | 0.7x |
| Average pawn loan balance per pawn store at quarter end | \$ | 133 | \$ | 18 |
| Average inventory per pawn store at quarter end | \$ | 58 | \$ | 42 |
| Average yield on pawn loan portfolio (a) |  | 136\% |  | 188\% |

(a) Average yield on pawn loan portfolio is calculated as annualized pawn service charge revenue for the period divided by the average pawn loan balance during the period.
In the prior year quarter, our EZPAWN Mexico Operations segment included the results from our first two stores opened in the first and second quarters of fiscal 2007. The current quarter results include results from those stores, the twenty stores acquired October 22, 2007, and the four additional stores opened since the end of the prior year quarter. The table below presents our sales volume, gross profit, and gross margins in the EZPAWN Mexico Operations segment:

|  | Three Months Ended March 31, |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | (Dollars in thousands) |  |  |  |
| Merchandise sales | \$ | 1,374 | \$ | 13 |
| Jewelry scrapping sales |  | 209 |  |  |
| Total sales | \$ | 1,583 | \$ | 13 |
| Gross profit on merchandise sales | \$ | 551 | \$ | 6 |
| Gross profit on jewelry scrapping sales | \$ | 85 | \$ |  |
| Gross margin on merchandise sales |  | 40.1\% |  | 46.2\% |
| Gross margin on jewelry scrapping sales |  | 40.7\% |  | N/A |
| Overall gross margin |  | 40.2\% |  | 46.2\% |

The current quarter s merchandise gross profit increased to $\$ 0.6$ million on $\$ 1.4$ million of sales due to new and acquired stores. Gross margins on merchandise sales were $40.1 \%$.
The current quarter s gross profit on jewelry scrapping sales was $\$ 0.1$ million on $\$ 0.2$ million of proceeds. Gross margins on jewelry scrapping sales were $40.7 \%$.

## Table of Contents

Operations expense was $52 \%$ of segment net revenues ( $\$ 0.9$ million) in the current quarter. Operating expenses exceeded net revenues in the prior year quarter during the start-up period of our Mexico operations.
In the current quarter, the $\$ 1.7$ million greater net revenue from Mexico pawn activities, partially offset by the $\$ 0.8$ million higher operations expense resulted in a $\$ 0.9$ million overall increase in store operating income from the EZPAWN Mexico Operations segment compared to the prior year quarter. For the current quarter, the EZPAWN Mexico Operations segment made up three percent of consolidated store operating income, compared to a small loss in the start-up period in the prior year quarter.

EZMONEY Operations Segment
The following table presents selected financial data for the EZMONEY Operations segment:

The segment s signature loan contribution, or fees less bad debt, increased $\$ 3.9$ million, or $20 \%$ compared to the prior year quarter. The primary drivers of the increased contribution were the higher average loan balances at existing stores and the addition of new stores, resulting in a $35 \%$ increase in the current quarter signature loan fee revenue. Signature loan bad debt increased $\$ 3.7$ million to $21.9 \%$ of related fees in the current quarter compared to $12.6 \%$ in the prior year quarter. We believe the current macro-economic pressures on our customers, their employment, and general access to cash to repay their debts was the primary cause of our increased difficulty in collecting bad debt in the quarter. For the past several years, we also have sold our bad debt, on a weekly basis, to third parties after 60 days of internal collection efforts, but saw market rates for debt sales decline in the current quarter. We are now continuing to work our bad debt past 60 days and employ a combination of in-house collections, third party debt sales, and testing several new ancillary collection techniques.
Operations expense increased $\$ 3.6$ million in the current quarter to $\$ 13.1$ million, but remained unchanged from the prior year quarter at $44 \%$ of segment net revenues. The dollar increase was from additional labor, rent, and other costs at new and existing stores. In the current quarter, operations expense was $\$ 29,300$ per average store, compared to $\$ 27,700$ in the prior year quarter.
In the current quarter, the $\$ 3.9$ million increase in signature loan fees net of bad debt and $\$ 3.6$ million greater operations expense resulted in a $\$ 0.3$ million net increase in store operating income from the EZMONEY Operations segment. For the current quarter, the EZMONEY Operations made up $30 \%$ of consolidated store operating income compared to $38 \%$ in the prior year quarter.

## Table of Contents

## Other Items

The items discussed below affect our consolidated financial results, but are not allocated between segments. Administrative expenses in the current quarter were $\$ 9.8$ million compared to $\$ 8.0$ million in the prior year quarter, or $12.8 \%$ of net revenues compared to $13.4 \%$ in the prior year quarter. The increase was due primarily to a $\$ 0.8$ million increase in administrative labor and benefits as we build the infrastructure to support our continued growth and a $\$ 0.7$ million increase in professional fees.
Depreciation and amortization expense was $\$ 3.1$ million in the current quarter, compared to $\$ 2.4$ million in the prior year quarter. Depreciation on assets placed in service, primarily related to new EZMONEY stores and acquired pawn stores, exceeded the reduction from assets that became fully depreciated or were retired in the period. We experienced increased amortization of intangible assets acquired with the two acquisitions since the end of the prior year quarter. We earned $\$ 0.1$ million of interest income on our invested cash in the current quarter, for an annualized rate of return of $3.1 \%$. In the comparable prior year quarter, we earned $\$ 0.6$ million of interest income on our invested cash, yielding 5.1\%.
Our $\$ 0.1$ million interest expense in the current and prior year quarter was comprised mostly of the amortization of deferred financing costs and the commitment fee on our line of credit, as we had no debt in either period.
Our equity interest in the earnings of Albemarle \& Bond increased $\$ 0.3$ million in the current quarter to $\$ 1.1$ million. The increase was a result of A\&B s continued same store improvement in earnings, the additional income A\&B earned from the 26 stores it acquired in July 2007, and our incremental investment in A\&B in July 2007.
The current quarter income tax expense was $\$ 7.9$ million ( $37.7 \%$ of pretax income) compared to $\$ 6.0$ million ( $37.0 \%$ of pretax income) for the prior year quarter. The increase in effective tax rate between these periods is due to anticipated higher state taxes.
Consolidated operating income for the current quarter improved $\$ 4.9$ million over the prior year quarter to $\$ 19.8$ million. Contributing to this were the $\$ 6.3$ million, $\$ 0.9$ million and $\$ 0.3$ million increases in store operating income in our EZPAWN U.S., EZPAWN Mexico and EZMONEY Operations segments, partially offset by the $\$ 1.9$ million increase in administrative expenses. After a $\$ 0.7$ million increase in depreciation and amortization and a $\$ 1.9$ million increase in income taxes and other smaller items, net income improved to $\$ 13.0$ million in the current quarter from $\$ 10.2$ million in the prior year quarter.

## Table of Contents

Six Months Ended March 31, 2008 vs. Six Months Ended March 31, 2007
The following discussion compares our results of operations for the six months ended March 31, 2008 to the six months ended March 31, 2007. The discussion should be read with the accompanying financial statements and related notes.

## EZPAWN U.S. Operations Segment

The following table presents selected financial data for the EZPAWN U.S. Operations segment:

|  | Six Months Ended March 31, 20082007 <br> (Dollars in thousands) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Sales |  | 113,948 | \$ | 98,998 |

balance sheet.
Our current year-to-date U.S. pawn service charge revenue increased $24 \%$, or $\$ 8.2$ million from the prior year to $\$ 42.7$ million. This increase was due to a $16 \%$, or $\$ 5.5$ million increase in same store pawn service charges and $\$ 2.7$ million of pawn service charges at acquired stores. The same store improvement was due primarily to a higher average pawn loan balance, partially offset by a one percentage point lower yield. We have periodically raised our loan values on gold jewelry in response to increases in gold market values and similar changes by our competitors, including three increases over the last year. This contributed about $\$ 3.8$ million to the increase in U.S. pawn service charges in the current year-to-date period.

## Table of Contents

The table below presents our sales volume, gross profit, and gross margins in the EZPAWN U.S. Operations segment:

|  | Six Months Ended March 31, |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2008 |  | 2007 |  |
|  | (Dollars in millions) |  |  |  |
| Merchandise sales | \$ | 82.7 | \$ | 77.4 |
| Jewelry scrapping sales |  | 31.2 |  | 21.6 |
| Total sales | \$ | 113.9 | \$ | 99.0 |
| Gross profit on merchandise sales | \$ | 32.8 | \$ | 31.2 |
| Gross profit on jewelry scrapping sales | \$ | 12.6 | \$ | 7.6 |
| Gross margin on merchandise sales |  | 39.6\% |  | 40.4\% |
| Gross margin on jewelry scrapping sales |  | 40.4\% |  | 35.1\% |
| Overall gross margin |  | 39.8\% |  | 39.2\% |

The current year-to-date period s merchandise gross profit increased $\$ 1.6$ million from the prior year-to-date period to $\$ 32.8$ million. This was due to $\$ 4.5$ million of additional sales from the fifteen pawn stores acquired in June 2007 and a one percentage point increase in same store sales, partially offset by a decrease of 0.8 of a percentage point in gross margins to $39.6 \%$.
The current year-to-date period s gross profit on jewelry scrapping sales increased $\$ 5.0$ million from the prior year-to-date period to $\$ 12.6$ million. This was due to a $\$ 9.6$ million increase in jewelry scrapping sales on $12 \%$ more volume and a 5.3 percentage point improvement in margins. The jewelry scrapping sales include the current year-to-date period sale of approximately $\$ 0.3$ million of loose diamonds removed from scrapped jewelry, compared to approximately $\$ 0.5$ million in the prior year-to-date period. The proceeds refiners pay us for jewelry has increased in the last year in response to higher gold values. We also increased the amount we loan on jewelry and pay to purchase jewelry from customers, increasing the cost of these items. The net effect of these factors comprises most of the improvement in gross profit from jewelry scrapping sales in the current year-to-date period.
The segment s signature loan contribution, or fee revenue less bad debt, decreased $\$ 0.3$ million in the current year-to-date period due to lower fee revenues on a lower average loan balance, combined with an increase in signature loan bad debt from $28.4 \%$ of fees in the prior year-to-date period to $36.4 \%$ in the current year-to-date period. Operations expense improved to $52 \%$ of net revenues ( $\$ 47.0$ million) in the current year-to-date period from $57 \%$ of net revenues ( $\$ 43.2$ million) in the prior year-to-date period as operating expenses grew at a slower pace than the segment s net revenues.
In the current year-to-date period, the $\$ 14.8$ million greater net revenue from U.S. pawn activities, partially offset by the $\$ 3.8$ million higher operations expense and $\$ 0.3$ million lower contribution from signature loans resulted in a $\$ 10.7$ million overall increase in store operating income from the EZPAWN U.S. Operations segment compared to the prior year-to-date period. For the current year-to-date period, the EZPAWN U.S. Operations segment made up $66 \%$ of consolidated store operating income compared to $65 \%$ in the prior year-to-date period.

| Gross profit on jewelry scrapping sales | \$ | 165 | \$ |  |
| Gross margin on merchandise sales |  | 40.3\% |  | 35.7\% |
| Gross margin on jewelry scrapping sales |  | 41.3\% |  | N/A |
| Overall gross margin |  | 40.5\% |  | 35.7\% |
| The current year-to-date period s merchandise gross profit increased to $\$ 1.0$ million on $\$ 2.5$ million of sales due to new and acquired stores. Gross margins on merchandise sales were $40.3 \%$. |  |  |  |  |
| The current year-to-date period s gross profit on jewelry scrapping sales was $\$ 0.2$ million on $\$ 0.4$ million of proceeds. |  |  |  |  |
| Gross margins on jewelry scrapping sales were $41.3 \%$. |  |  |  |  |

## Table of Contents

Operations expense was $55 \%$ of segment net revenues ( $\$ 1.7$ million) in the current year-to-date period. Operating expenses exceeded net revenues in the prior year-to-date period during the start-up period of our Mexico operations. In the current year-to-date period, the $\$ 3.1$ million greater net revenue from Mexico pawn activities, partially offset by the $\$ 1.6$ million higher operations expense resulted in a $\$ 1.5$ million overall increase in store operating income from the EZPAWN Mexico Operations segment compared to the prior year-to-date period. For the current year-to-date period, the EZPAWN Mexico Operations segment made up two percent of consolidated store operating income, compared to a small loss in the start-up period in the prior year-to-date period.

EZMONEY Operations Segment
The following table presents selected financial data for the EZMONEY Operations segment:

|  | Six Months Ended March 31,$2008 \quad 2007$(Dollars in thousands) |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
| Signature loan fees | \$ | 62,213 | \$ | 45,404 |
| Signature loan bad debt |  | 15,763 |  | 8,460 |
| Fee revenue less bad debt |  | 46,450 |  | 36,944 |
| Operations expense |  | 25,842 |  | 19,206 |
| Store operating income | \$ | 20,608 | \$ | 17,738 |
| Other data: |  |  |  |  |
| Signature loan bad debt as a percent of signature loan fees |  | 25.3\% |  | 18.6\% |
| Average signature loan balance per store offering signature loans at quarter end (a) | \$ | 54 | \$ | 53 |

(a) Signature loan balances include payday loans (net of valuation allowance) recorded on our balance sheet and the principal portion of active brokered loans outstanding from unaffiliated lenders, the balance of which is not included on our balance sheet.
The segment s signature loan contribution, or fees less bad debt, increased $\$ 9.5$ million, or $26 \%$ compared to the prior year-to-date period. The primary drivers of the increased contribution were the higher average loan balances at
existing stores and the addition of new stores, resulting in a $37 \%$ increase in the current year-to-date period signature loan fee revenue. Signature loan bad debt increased $\$ 7.3$ million to $25.3 \%$ of related fees in the current year-to-date period compared to $18.6 \%$ in the prior year-to-date period. We believe the current macro-economic pressures on our customers, their employment, and general access to cash to repay their debts was the primary cause of our increased difficulty in collecting bad debt in the current year-to-date period. For the past several years, we also have sold our bad debt, on a weekly basis, to third parties after 60 days of internal collection efforts, but saw market rates for debt sales decline in the current period. We are now continuing to work our bad debt past 60 days and employ a combination of in-house collections, third party debt sales, and testing several new ancillary collection techniques. Operations expense increased $\$ 6.6$ million in the current year-to-date period to $\$ 25.8$ million, but remained unchanged from the prior year-to-date period at $42 \%$ of segment net revenues. The dollar increase was mostly from additional labor, rent, and other costs at new and existing stores. In the current year-to-date period, operations expense was $\$ 58,700$ per average store, compared to $\$ 56,700$ in the prior year-to-date period.
In the current year-to-date period, the $\$ 9.5$ million increase in signature loan fees net of bad debt and $\$ 6.6$ million greater operations expense resulted in a $\$ 2.9$ million net increase in store operating income from the EZMONEY Operations segment. For the current year-to-date period, the EZMONEY Operations made up $32 \%$ of consolidated store operating income compared to $36 \%$ in the prior year-to-date period.

## Table of Contents

## Other Items

The items discussed below affect our consolidated financial results, but are not allocated between segments. Administrative expenses in the current year-to-date period were $\$ 19.7$ million compared to $\$ 15.5$ million in the prior year-to-date period, or $12.7 \%$ of net revenues compared to $12.8 \%$ in the prior year-to-date period. The increase was due primarily to a $\$ 2.0$ million increase in administrative labor and benefits as we build the infrastructure to support our continued growth and a $\$ 1.5$ million increase in professional fees.
Depreciation and amortization expense was $\$ 5.9$ million in the current year, compared to $\$ 4.7$ million in the prior year. Depreciation on assets placed in service, primarily related to new EZMONEY stores and acquired pawn stores, exceeded the reduction from assets that became fully depreciated or were retired. We experienced increased amortization of intangible assets acquired with the two acquisitions since the end of the prior year-to-date period. We earned $\$ 0.2$ million of interest income on our invested cash in the current year-to-date period, for an annualized rate of return of $3.2 \%$. In the comparable prior year period, we earned $\$ 0.9$ million of interest income on our invested cash, yielding $5.0 \%$.
Our $\$ 0.2$ million interest expense in the current year-to-date period and $\$ 0.1$ million interest expense in the prior year-to-date period was comprised mostly of the amortization of deferred financing costs and the commitment fee on our line of credit, as we had no debt in either period.
Our equity interest in the earnings of Albemarle \& Bond increased $\$ 0.7$ million in the current year-to-date period to $\$ 2.2$ million. The increase was a result of A\&B s continued same store improvement in earnings, the additional income A\&B earned from the 26 stores it acquired in July 2007, and our incremental investment in A\&B in July 2007. The current year-to-date income tax expense was $\$ 15.5$ million ( $37.7 \%$ of pretax income) compared to $\$ 11.7$ million ( $37.0 \%$ of pretax income) in the prior year period. The increase in effective tax rate between these periods is due to anticipated higher state taxes.
Consolidated operating income for the current year-to-date period improved $\$ 9.6$ million over the prior year-to-date period to $\$ 39.1$ million. Contributing to this were the $\$ 10.7$ million, $\$ 1.5$ million and $\$ 2.9$ million increases in store operating income in our EZPAWN U.S., EZPAWN Mexico and EZMONEY Operations segments, partially offset by the $\$ 4.2$ million increase in administrative expenses. After a $\$ 1.2$ million increase in depreciation and amortization and a $\$ 3.8$ million increase in income taxes and other smaller items, net income improved to $\$ 25.6$ million in the current year-to-date period from $\$ 20.0$ million in the prior year-to-date period.

## Liquidity and Capital Resources

In the current year-to-date period, our $\$ 31.1$ million cash flow from operations consisted of (a) net income plus several non-cash items, aggregating to $\$ 34.6$ million, net of (b) $\$ 3.5$ million of normal, recurring changes in operating assets and liabilities. In the prior year-to-date period, our $\$ 24.4$ million cash flow from operations consisted of (a) net income plus several non-cash items, aggregating to $\$ 25.7$ million, net of (b) $\$ 1.3$ million of normal, recurring changes in operating assets and liabilities. The primary differences in cash flow from operations between the two periods were an increase in the gross profit on sales of inventory and an increase in collected pawn service charges and signature loan fees, net of higher operating expenses and taxes paid.
The $\$ 18.5$ million of cash used in investing activities during the current year-to-date period were funded by cash flow from operations. Our most significant investments were the $\$ 15.4$ million acquisition of 20 Mexico pawn stores and $\$ 9.6$ million of additions to property and equipment primarily for new store construction. Another significant investment was the funding of $\$ 4.1$ million of payday loans net of repayments. Offsetting this was $\$ 9.6$ million of pawn loan repayments and principal recovery through the sale of forfeited collateral over pawn loans made and the $\$ 1.1$ million of dividends received from an unconsolidated affiliate. We also received $\$ 0.4$ million of cash and tax benefits from the exercise of stock options and warrants. The net effect of these and other smaller cash flows was a $\$ 13.0$ million increase in cash on hand, providing a $\$ 35.6$ million ending cash balance.

## Table of Contents

Below is a summary of our cash needs to meet future aggregate contractual obligations (in millions):

|  | Payments due by Period |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Less than |  |  | $\begin{gathered} 1-3 \\ \text { years } \end{gathered}$ |  | 3-5 |  | More than |  |
|  | Total |  | 1 year |  |  | years |  | 5 years |  |
| Long-term debt obligations | \$ | \$ |  | \$ |  | \$ |  | \$ |  |
| Interest on long-term debt obligations | 0.2 |  | 0.1 | 0.1 |  |  |  | 55.5 |  |
| Capital lease obligations |  |  |  |  |  | 34.3 |  |  |  |
| Operating lease obligations | 154.2 |  | 23.2 |  | 41.2 |  |  |  |  |
| Purchase obligations |  |  |  |  |  |  |  |  |  |
| Other long-term liabilities |  |  |  |  |  |  |  |  |  |
| Total | \$ 154.4 | \$ | \$ 23.3 |  | 41.3 |  | 34.3 | \$ |  |

In addition to the contractual obligations in the table above, we are obligated under letters of credit issued to unaffiliated lenders as part of our credit service operations. At March 31, 2008, our maximum exposure for losses on letters of credit, if all brokered loans defaulted and none was collected, was $\$ 21.4$ million. This amount includes principal, interest, and insufficient funds fees.
In addition to the operating lease obligations in the table above, we are responsible for the maintenance, property taxes, and insurance at most of our locations. In the most recent fiscal year ended September 30, 2007, these collectively amounted to $\$ 8.2$ million.
In the remaining six months of fiscal 2008, we plan to open approximately 35 to 45 new signature loan stores in the U.S. and eight to ten new pawn stores in Mexico for an expected capital expenditure of approximately $\$ 3.4$ million, plus the funding of working capital and start-up losses at these stores. We believe these new stores will create a drag on earnings and cash flow in their first six to nine months of operations before turning profitable.
While we had no debt outstanding at March 31, 2008, we have a $\$ 40$ million revolving credit facility secured by our assets, which matures October 1, 2009. Under the terms of the agreement, we could borrow the full $\$ 40$ million at March 31, 2008. Terms of the agreement require, among other things, that we meet certain financial covenants. Payment of dividends and additional debt are allowed but restricted. The interest amount shown in the table above reflects the commitment fee we anticipate paying through the maturity of the credit agreement, assuming we remain debt-free.
On March 17, 2008, we announced our agreement to acquire up to $100 \%$, but not less than $70 \%$, of the equity ownership of Value Financial Services, Inc. for approximately $\$ 100$ million, subject to our due diligence review. On April 28, 2008, we amended the agreement to extend the due diligence period to May 13, 2008 and the expected closing date to June 26, 2008, among other related changes. If the acquisition is completed, our cash on hand and availability under our current credit facility will be inadequate to fund the acquisition and other operating cash needs. We are currently negotiating, and expect to complete an increase to our credit facility to provide adequate cash to fund this acquisition and operating cash needs.
If the acquisition is not completed, we anticipate that cash flow from operations, cash on hand, and availability under our existing revolving credit facility will be adequate to fund our contractual obligations, planned store growth, capital expenditures and working capital requirements during the coming year.

## Table of Contents

## Off-Balance Sheet Arrangements

We issue letters of credit to enhance the creditworthiness of our credit service customers seeking loans from unaffiliated lenders. The letters of credit assure the lenders that if borrowers default on the loans, we will pay the lenders, upon demand, the principal and accrued interest owed them by the borrowers plus any insufficient funds fee. We do not record on our balance sheet the loans related to our credit services as the loans are made by unaffiliated lenders. We do not consolidate the unaffiliated lenders results with our results as we do not have any ownership interest in the lenders, do not exercise control over them and do not otherwise meet the criteria for consolidation as prescribed by FASB Financial Interpretation No. 46 regarding variable interest entities.
We include an allowance for Expected LOC Losses in Accounts payable and other accrued expenses on our balance sheet. At March 31, 2008, the allowance for Expected LOC Losses was $\$ 1.2$ million. At that date, our maximum exposure for losses on letters of credit, if all brokered loans defaulted and none was collected, was $\$ 21.4$ million. This amount includes principal, interest and insufficient funds fees.
We have no other off-balance sheet arrangements.

## Seasonality

Historically, pawn service charges are highest in our fourth fiscal quarter (July through September) due to a higher average loan balance during the summer lending season. Merchandise sales are highest in the first and second fiscal quarters (October through March) due to the holiday season, jewelry sales surrounding Valentine s Day, and the impact of tax refunds in the United States. Jewelry scrapping sales are heavily influenced by the timing of decisions to scrap excess jewelry inventory. Jewelry scrapping sales generally are greatest during our fourth fiscal quarter (July through September) due to relatively low jewelry merchandise sales in that quarter.
Signature loan fees are highest in our fourth fiscal quarter (July through September) due to a higher average loan balance during the summer lending season. Signature loan bad debt, both in dollar terms and as a percentage of related fees, is highest in the third and fourth quarters, and lowest in the second quarter due primarily to the impact of tax refunds.
The net effect of these factors is that net revenues and net income typically are strongest in the fourth fiscal quarter and weakest in the third fiscal quarter. Our cash flow typically is greatest in the second fiscal quarter due to a high level of loan redemptions and sales in the income tax refund season.

## Use of Estimates and Assumptions

Management s Discussion and Analysis of Financial Condition and Results of Operations is based on our condensed consolidated financial statements. We prepared those statements according to accounting principles generally accepted in the United States for interim financial information. We must make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, inventory, allowance for losses on signature loans, long-lived and intangible assets, income taxes, contingencies and litigation. We base our estimates on historical experience, observable trends and other assumptions that we believe are reasonable under the circumstances. We use this information to make judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from the estimates under different assumptions or conditions.

## Table of Contents

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

The following discussion about our market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. We are exposed to market risk related to changes in foreign currency exchange rates and gold values. We also are exposed to regulatory risk in relation to our credit services, payday loans, and pawn operations. We do not use derivative financial instruments.
Our earnings and financial position may be affected by changes in gold values and the resulting impact on pawn lending and jewelry sales. The proceeds of scrap sales and our ability to sell excess jewelry inventory at an acceptable margin depend on gold values. The impact on our financial position and results of operations of a hypothetical change in gold values cannot be reasonably estimated. For further discussion, you should read Risk Factors in Part I, Item 1A of our Annual Report on Form 10-K for the year ended September 30, 2007.
Our earnings and financial position are affected by foreign exchange rate fluctuations related to our equity investment in A\&B. A\&B sfunctional currency is the U.K. pound. The impact on our results of operations and financial position of a hypothetical change in the exchange rate between the U.S. dollar and the U.K. pound cannot be reasonably estimated due to the interrelationship of operating results and exchange rates. The translation adjustment representing the weakening in the U.K. pound during the quarter ended December 31, 2007 (included in our March 31, 2008 results on a three-month lag as described above) was a $\$ 390,000$ decrease, net of tax effect, to stockholders equity. On March 31, 2008, the U.K. pound weakened to $£ 1.00$ to $\$ 1.9951$ U.S. from $\$ 1.9973$ U.S. at December 31, 2007. Similar to the discussion above regarding the U.K. pound, fluctuations in the exchange rate for the Mexican peso also affect our earnings and financial position due to our pawn operations in Mexico. The translation adjustment representing the strengthening of the Mexican peso during the current quarter was a $\$ 281,000$ increase to stockholders equity.
We cannot assure the future valuation of the U.K. pound or Mexican peso or how further movements in them could affect our future earnings or financial position.

## Forward-Looking Information

This Quarterly Report on Form 10-Q, including Management s Discussion and Analysis of Financial Condition and Results of Operations, includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend that all forward-looking statements be subject to the safe harbors created by these laws. All statements other than statements of historical information are forward-looking and may contain information about financial results, economic conditions, trends, planned store openings, acquisitions and known uncertainties. These statements are often, but not always, made with words or phrases like may, should, could, predict, potential, believe, expect, anticipat estimate, intend, plan, projection, outlook, expect, will, and similar expressions. All forward-looking state based on current expectations regarding important risk factors. Many of these risks and uncertainties are beyond our control, and in many cases, we cannot predict all of the risks and uncertainties that could cause our actual results to differ materially from those expressed in the forward-looking statements. Actual results could differ materially from those expressed in the forward-looking statements, and you should not regard them as a representation that the expected results will be achieved. Important risk factors that could cause results or events to differ from current expectations are described in Part II, Item 1A, Risk Factors, of this Quarterly Report and in the section entitled Risk Factors in our Annual Report on Form 10-K for the year ended September 30, 2007. These factors are not intended to be an all-encompassing list of risks and uncertainties that may affect our operations, performance, development and results. You are cautioned not to overly rely on these forward-looking statements, which are current only as of the date of this report. We undertake no obligation to release publicly the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this report, including without limitation, changes in our business strategy or planned capital expenditures, acquisitions, store growth plans or to reflect unanticipated events.

## Table of Contents

## Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of March 31, 2008. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2008, our disclosure controls and procedures are effective to ensure that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Disclosure controls and procedures include those controls and procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.
(b) Changes in Internal Controls

There were no changes in our internal controls that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
We anticipate making certain internal control changes in our pawn operations in Mexico as a result of acquiring 20 pawn stores in Mexico on October 22, 2007. These control changes will be made to subject our Mexican operations to the same or similar controls as currently utilized in the remainder of our operations and accounting, including transitioning the acquired stores to utilizing our existing general ledger ERP system and ensuring their compliance with U.S. GAAP. This transition will be made within one year of the October 22, 2007 acquisition date. Our Mexican operations comprised approximately two percent of our total revenues in the quarter ended March 31, 2008, and approximately seven percent of our total assets at March 31, 2008.

## PART II

Item 1. Legal Proceedings
See Note F, Contingencies, in the Notes to the Interim Condensed Consolidated Financial Statements included in this filing.

## Item 1A. Risk Factors

Important risk factors that could cause results or events to differ from current expectations are described in Part I, Item 1A, Risk Factors of our Annual Report on Form 10-K for the year ended September 30, 2007. These factors are supplemented by those discussed under Quantitative and Qualitative Disclosures about Market Risk in Part I, Item 3 of this report and in Part II, Item 7A of our Annual Report on Form 10-K for the year ended September 30, 2007, and in the following item:

If we are unable to negotiate an increase to our credit facility or find alternate funding sources, we may be unable to complete our planned acquisition of Value Financial Services, Inc. Pending completion of our due diligence, we plan to acquire up to $100 \%$, but not less than $70 \%$, of the equity ownership of Value Financial Services, Inc. for approximately $\$ 100$ million. On April 28, 2008, we amended the agreement to extend the due diligence period to May 13, 2008 and the expected closing date to June 26, 2008, among other related changes. If the acquisition is completed, our cash on hand and availability under our current credit facility will be inadequate to fund the acquisition and other operating cash needs. We currently are negotiating an increase to our credit facility to provide adequate cash to fund this acquisition and operating cash needs. If we are unsuccessful in negotiating an increase to our credit facility, we will need to secure other sources of funding to complete the acquisition, or may be unable to complete the acquisition.
