The Board of Directors of Ormat Technologies Inc. is furnishing you this proxy statement in connection with the solicitation of proxies on its behalf for the 2005 Annual Meeting of Stockholders. The meeting will take place at the offices of Chadbourne & Parke LLP, 30 Rockefeller Plaza, New York, N.Y. 10112 on Monday, May 9, 2005, at 1:30 P.M. local time. At the meeting, stockholders will vote on the election of two Directors, the ratification of the appointment of PricewaterhouseCoopers LLP as Ormat's independent registered public accounting firm for fiscal year 2005, and will transact any other business that may properly come before the meeting although we know of no other business to be presented.

The record date for the meeting was March 28, 2005. Only stockholders of record at the close of business on that date are entitled to vote at the meeting.

By submitting your proxy (by signing and returning the enclosed proxy card), you authorize Yehudit Bronicki, Chief Executive Officer and President of Ormat, and Etty Rosner, Vice President and Corporate Secretary of Ormat, to represent you and vote your shares at the meeting in accordance with your instructions. They also may vote your shares to adjourn the meeting and will be authorized to vote your shares at any postponements or adjournments of the meeting.

Questions and Answers about the 2005 Annual Meeting of Stockholders

What is the purpose of the 2005 Annual Meeting of Stockholders?

At the 2005 Annual Meeting of Stockholders, the stockholders will be asked to:

1. Elect two Directors, each for a term of three years; and
2. Ratify the appointment of PricewaterhouseCoopers LLP as Ormat's independent registered public accounting firm for fiscal year 2005.

Stockholders also will transact any other business that may properly come before the meeting. Members of Ormat's management team and a representative of PricewaterhouseCoopers LLP, Ormat's independent registered public accounting firm, will be present at the meeting to respond to appropriate questions from stockholders.

Who is entitled to vote?

The record date for the meeting is March 28, 2005. Only stockholders of record at the close of business on that date are entitled to vote at the meeting. The only class of stock entitled to be voted at the meeting is Ormat's common stock. Each outstanding share of common stock is entitled to one vote for all matters before the meeting. At the close of business on the record date there were 31,562,495 shares of Ormat common stock outstanding.

What is the difference between being a "record holder" and holding shares in "street name"?

A record holder holds shares in his or her name. Shares held in "street name" means shares that are held in the name of a bank or broker on a person's behalf.

Am I entitled to vote if my shares are held in "street name"?

If your shares are held by a bank or a brokerage firm, you are considered the "beneficial owner" of shares held in "street name". If your shares are held in street name, these proxy materials are being forwarded to you by your bank or brokerage firm (the "record holder"), along with a voting instruction card. As the beneficial owner, you have the right to direct your record holder how to vote your shares, and the record holder is required to vote your shares in accordance with your instructions.

Under the rules of the New York Stock Exchange (the "NYSE"), if you do not give instructions to your bank or brokerage firm within ten days of the meeting, it may vote on matters that the NYSE determines to be "routine", but will not be permitted to vote your shares with respect to "non-routine" items. Under the NYSE rules, the Election of Directors (Proposal 1) and the Ratification of Appointment of the Independent Registered Public Accounting Firm (Proposal 2) are routine matters. When a broker or bank has not received instructions from the beneficial owners or persons entitled to vote and the broker or bank cannot vote on a particular matter because it is not routine, then there is a "broker non-vote" on that matter. Broker non-votes do not count as votes for or against any proposal.

As the beneficial owner of shares, you are invited to attend the 2005 Annual Meeting of Stockholders. If you are a beneficial owner, however, you may not vote your shares in person at the meeting unless you obtain a proxy form from the record holder of your shares.

How many shares must be present to hold the meeting?

A quorum must be present at the meeting for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum.

Who can attend the 2005 Annual Meeting of Stockholders?

All Ormat stockholders may attend the 2005 Annual Meeting of Stockholders.

3

What if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, a majority of the outstanding shares entitled to vote represented may adjourn the meeting.

What does it mean if I receive more than one proxy card?

It means that your shares are held in more than one account at the transfer agent and/or with banks or brokers. Please vote all of your shares. To ensure that all of your shares are voted, sign and return each proxy card.

How do I vote?

If you properly complete and sign the accompanying proxy card and return it in the enclosed envelope, it will be voted in accordance with your instructions. The enclosed envelope requires no additional postage if mailed in either the United States or Canada.

If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. Additionally, we will pass out written ballots to registered stockholders who wish to vote in person at the meeting. Beneficial owners of shares held in street name who wish to vote at the meeting will need to obtain a proxy form from their record holder.

Can I change my vote after I submit my proxy?

Yes, you may revoke your proxy and change your vote:

- By signing another proxy with a later date; or
- If you are a registered stockholder, by giving written notice of such revocation to the Secretary of Ormat prior to or at the meeting or by voting in person at the meeting.

Your attendance at the meeting itself will not revoke your proxy unless you give written notice of revocation to the secretary before your proxy is voted or you vote in person at the meeting.

Who will count the votes?

Ormat's transfer agent, American Stock Transfer & Trust Company, will tabulate and certify the votes. A representative of the transfer agent may serve as an inspector of election.

How does the Board of Directors recommend I vote on the proposals?

Your Board recommends that you vote FOR:

- the election of the two nominees to the Board of Directors; and
- the ratification of PricewaterhouseCoopers LLP as Ormat's independent registered public accounting firm.

What if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, the persons named as proxies will vote in accordance with the recommendations of the Board of Directors. The Board of Directors' recommendation is set forth together with the description of each proposal in this proxy statement. In summary, the Board of Directors recommends a vote FOR:

- the election of the two nominees to the Board of Directors; and
- the ratification of PricewaterhouseCoopers LLP as Ormat's independent registered public accounting firm.

Will any other business be conducted at the meeting?

We know of no other business that will be presented at the meeting. If any other matter properly comes before the stockholders for a vote at the meeting, however, the proxy holders will vote your shares in accordance with their best judgment.

4

How many votes are required to elect the Director nominees?

The affirmative vote of a plurality of the votes cast at the meeting is required to elect the two nominees as Directors. This means that the two nominees will be elected if they receive more affirmative votes than any other person.

How many votes are required to ratify the appointment of Ormat's independent registered public accounting firm?

The ratification of the appointment of PricewaterhouseCoopers LLP as Ormat's independent registered public accounting firm requires the affirmative vote of a majority of the shares present at the meeting in person or by proxy and entitled to vote.

What is an abstention and how will be abstentions be treated?

An "abstention" represents a stockholder's affirmative choice to decline to vote on a proposal other than the election of directors (for directors, the choice is limited to "For" or "Withhold"). Under Delaware law, abstained shares are treated as shares present for quorum and entitled to vote, so they will have the same practical effect as votes against a proposal except for the proposals for the election of directors.

How will broker non-votes be treated?

Broker non-votes will be treated as shares present for quorum purposes, but not considered entitled to vote on that matter. Therefore, broker non-votes do not count as votes for or against any proposal.

Where can I find the voting results of the 2005 Annual Meeting of Stockholders?

We plan to announce preliminary voting results at the 2005 Annual Meeting of Stockholders and to publish final results in Ormat's Quarterly Report on Securities and Exchange Commission (the "SEC") Form 10-Q for the quarter ended March 31, 2005.

PROPOSAL 1 – ELECTION OF DIRECTORS

Board Composition

Our Board of Directors is now composed of six members, including three independent directors, Dan Falk, Edward

Muller and Jacob Worenklein, and is classified into three classes of directors serving staggered, three-year terms as indicated:

Class I Directors (term expiring upon the annual shareholders meeting in 2005)

Yoram Bronicki
Edward R. Muller

Class II Directors (term expiring upon the annual shareholders meeting in 2006)

Yehudit Bronicki
Jacob J. Worenklein

Class III Directors (term expiring upon the annual shareholders meeting in 2007)

Lucien Bronicki
Dan Falk

Current Nominees

As mentioned above, directors in each of the three classes stated above are elected to serve for three-year terms that expire in successive years. The terms of Class I Directors will expire at the 2005 Annual Meeting of Stockholders. The Board of Directors has nominated Yoram Bronicki and Edward Muller as Class I Directors for three-year terms expiring at the annual meeting of stockholders to be held in 2008 and until their successors are elected and qualified. Each nominee currently serves as a Class I Director.

Each nominee has consented to being named in this proxy statement and has agreed to serve if elected. If a nominee is unable to stand for election, the Board of Directors may either reduce the number of directors to be elected or select a substitute nominee. If a substitute nominee is selected, the proxy holders will vote your shares for the substitute nominee, unless you have withheld authority.

The affirmative vote of a plurality of the votes cast at the meeting is required to elect the two nominees as directors. This means that the two nominees will be elected if they receive more affirmative votes than any other person.

INFORMATION REGARDING BOARD OF DIRECTORS AND COMMITTEES

As required by the rules of the New York Stock Exchange (the "NYSE"), the Board of Directors evaluates the independence of Board members at least annually and when a change in circumstances could potentially impact the independence of one or more directors.

The Company's Board of Directors is composed of six directors, three of whom have been determined by the Company's Board to be independent directors, in accordance with the above requirements of the NYSE. The Company's three independent directors are Dan Falk, Jacob Worenklein and Edward Muller. During fiscal year 2004, subsequent to the Company's initial public offering in November of that year, the Board held one meeting at which all the directors were present.

The Company relies on the "controlled company" exception to the Board of Directors and committee composition requirements under the rules of the NYSE. The "controlled company" exception does not modify the independence requirements for the Audit Committee, and we comply with the requirements of the Sarbanes-Oxley Act of 2002 and the NYSE rules which require that our Audit Committee be composed of at least three independent directors.

Board Committees

Our Board of Directors has the authority to appoint committees to perform certain management and administration functions. Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee.

Audit Committee. The Audit Committee selects, on behalf of our Board of Directors, an independent public accounting firm to be engaged to audit our financial statements, discusses with the independent registered public accounting firm its independence, reviews and discusses the audited financial statements with the independent registered public accounting firm and management and reviews our compliance with legal and regulatory requirements with respect to accounting policies, internal controls and financial reporting.

The Audit Committee consists of three members, all of whom are independent directors. We have appointed Dan Falk, Jacob Worenklein and Edward Muller to the Audit Committee, and have appointed Dan Falk as the chair of the Audit Committee. The Board of Directors has determined that each member of the Audit Committee is financially literate and that Messrs. Falk, Worenklein, and Muller satisfy the independence requirements of the NYSE and the SEC. Dan Falk qualifies as the Audit Committee

8

financial expert under the rules of the SEC. Mr. Falk also serves on the audit committee of five other companies. Our Board has determined that his simultaneous service on these audit committees does not impair his ability to serve effectively on our Audit Committee.

The Audit Committee, which was established by resolution of the Board of Directors, dated October 21, 2004, with effect on November 10, 2004 (the effective date of the Registration Statement for the initial public offering (the "IPO")), held three meetings subsequent to the Company's initial public offering in November of that year, and did not act by unanimous written consent. Further information concerning the Audit Committee is set forth below under the heading "Audit Committee Report." The charter of the Audit Committee is available on the Company's website at www.ormat.com. The content of our website, however, is not part of this proxy statement.

Compensation Committee. The Compensation Committee reviews and either approves, on behalf of our Board of Directors, or recommends to the Board of Directors for approval (1) the annual salaries and other compensation of our Chief Executive Officer and certain other executive officers and (2) individual stock and stock option grants. The Compensation Committee also provides recommendations with respect to our compensation policies and practices and incentive compensation plans and equity plans. The Compensation Committee consists of three members, two of which are independent directors. We have appointed Yehudit Bronicki, Jacob Worenklein and Dan Falk to the Compensation Committee and have appointed Yehudit Bronicki as the chair of the Compensation Committee.

The Compensation Committee, which was established by resolution of the Board of Directors on October 21, 2004, with effect on November 10, 2004, held one meeting subsequent to the Company's initial public offering in November of that year and did not act by unanimous written consent. Further information concerning the Compensation Committee is set forth below under the heading "Compensation Committee Report." The charter of the Compensation Committee is available on the Company's website at www.ormat.com. The content of our website, however, is not part of this proxy statement.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee assists our Board of Directors in fulfilling its responsibilities by identifying and approving individuals qualified to serve as members of our Board of Directors, selecting director nominees for our annual meetings of stockholders, and developing and recommending to our Board of Directors corporate governance guidelines and oversight with respect to corporate governance and ethical conduct. The Nominating and Corporate Governance Committee consists of three directors, of which two are independent directors. The Board of Directors has determined the two directors satisfy the independence requirements of the NYSE. We have appointed Lucien Bronicki, Dan Falk and Edward Muller to the Nominating and Corporate Governance Committee, and have appointed Lucien Bronicki as the Chair of the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board of Directors and whether any vacancies on the Board of Directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Corporate Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through current Board members, professional search firms, stockholders or other persons. The Nominating and Corporate Governance Committee is responsible for conducting appropriate inquiries into the backgrounds and qualifications of possible candidates.

The Nominating and Corporate Governance Committee has not yet set a specific policy regarding consideration of any director candidates recommended by stockholders. The Board of Directors believes that it is appropriate to not have such a policy at this time because over 75% of outstanding shares are held and voted by our parent company, Ormat Industries Ltd. The Company's by-laws provide that nominations of candidates to be considered by the stockholders may be made at an annual meeting of stockholders by any stockholder who was a stockholder of record at the time of giving notice of the proposed nomination, is entitled to vote at the meeting and follows the notice procedures. To be timely, a stockholder's notice for the 2005 Annual Meeting of Stockholders must be delivered to the Secretary at 980 Greg Street, Sparks, Nevada 89431, not earlier than the close of business on the 120th day prior to such meeting and no later than the close of business on the later of the 90th day prior to the 2005 Annual

9

Meeting of Stockholders, or the 10th day following the day on which public announcement of the date of such meeting is first made by the Company.

The Nominating and Corporate Governance Committee, which was effective November 10, 2004, held one meeting and did not act by unanimous written consent in 2004. The functions of the Nominating and Corporate Governance Committee are described in its charter, which is available on the Company's website at www.ormat.com. The content of our website, however, is not part of this proxy statement.

Audit Committee Report

The Audit Committee is composed of independent directors, as required by and in compliance with the listing standards of the NYSE. The Audit Committee is comprised entirely of outside directors, and operates pursuant to a written charter adopted by the Board of Directors of the Company.

The Audit Committee is responsible for assisting the Board of Directors in its oversight responsibilities related to accounting policies, internal controls, financial reporting and legal and regulatory compliance. Management of the Company has the primary responsibility for the Company's financial reporting process, principles and internal controls as well as the preparation of its financial statements. The Company's independent registered public accounting firm is responsible for performing an audit of the Company's financial statements and expressing an opinion as to the conformity of such financial statements with accounting principles generally accepted in the United States.

During fiscal year 2004, the Audit Committee held its first meeting after the IPO, and established among other things procedures to facilitate and encourage communication among the Audit Committee, the Company, and the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP.

13

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their respective audits, and has met with them, with and without management present, to discuss the results of their examinations and their evaluations of the Company's internal controls.

The Audit Committee has reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2004 with management and the independent registered public accounting firm. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed under auditing standards generally accepted in the United States, including those matters set forth in Statement on Auditing Standards No. 61 (Communication with Audit Committees), as currently in effect.

The independent registered public accounting firm has provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committee), as currently in effect, and the Audit Committee has discussed with the auditors their independence from the Company. The Audit Committee has also considered whether the independent registered public accounting firm's provision of tax services to the Company is compatible with maintaining the registered public accounting firm's independence. The Audit Committee has concluded that the independent registered public accounting firm is independent from the Company and its management.

The Audit Committee has also established a procedure for receiving and addressing anonymous complaints regarding financial or accounting irregularities, among other things. The Audit Committee has set up an ethics and compliance hotline managed by an independent third party. The information received by the hotline is treated as confidential and anonymous and will be both received and retained by an agent of the Audit Committee before all relevant non-compliance information is periodically reported to the Audit Committee.

Based on the reports and discussions described above, the Audit Committee has recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2004, for filing with the SEC. The Audit Committee has also selected PricewaterhouseCoopers LLP, subject to ratification by the stockholders at the 2005 Annual Meeting of Stockholders, as the Company's independent registered public accounting firm for the fiscal year ended December 31, 2005.

Submitted on March 16, 2005 by the Audit Committee of Ormat Technologies, Inc.'s Board of Directors.

The stockholders are asked to ratify this appointment at the 2005 Annual Meeting of Stockholders. A representative of PricewaterhouseCoopers LLP will be present at the meeting to respond to appropriate questions and to make a statement if they so desire.

Audit and Non-Audit Fees

The following table sets forth the aggregate fees billed to us for the fiscal years ended December 31, 2004 and 2003 by PricewaterhouseCoopers LLP:

	2003	\$ 70,500
All Other Fees	2004	—

1. Audit Fees represent the aggregate fees billed for each of the last two fiscal years for the audit of the annual financial statements and review of financial statements, including the audit of the financial statements in the Company's prospectus filed in connection with the IPO, or services that are normally provided in connection with statutory and regulatory filings or engagements for those fiscal years.

The Audit Committee has set a pre-approval procedure, and thus all auditors' engagements are handled in accordance with such procedures, as follows:

Audit Committee Pre-Approval Procedures for Independent Registered Public Accounting Firm

A limited authority was delegated to the Chair of the Audit Committee to approve audit, tax and audit-related services in an amount of up to \$10,000, provided such approval is reported to the Audit Committee at its next meeting.

No pre-approval procedure was established for non-audit services and such services may only be approved by the full Audit Committee.

Vote Required for Ratification

The Audit Committee was responsible for selecting Ormat Technologies, Inc.'s independent registered public accounting firm for fiscal year 2005. Accordingly, stockholder approval is not required to appoint PricewaterhouseCoopers LLP as the independent registered public accounting firm for fiscal

15

year 2005. The Board of Directors believes, however, that submitting the appointment of PricewaterhouseCoopers LLP to the stockholders for ratification is a matter of good corporate governance. The Audit Committee is solely responsible for selecting Ormat Technologies, Inc.'s independent registered public accounting firm. If the stockholders do not ratify the appointment, the Audit Committee will review its future selection of independent registered public accounting firm.

The ratification of the appointment of PricewaterhouseCoopers LLP as Ormat Technologies, Inc.'s independent registered public accounting firm requires the affirmative vote of a majority of the shares present at the meeting in person or by proxy and entitled to vote.

Incentive Compensation Plan

Our Board of Directors adopted the Ormat Technologies, Inc. 2004 Incentive Compensation Plan (which we refer to as the plan) in October 2004, which plan was subsequently adopted by our stockholders. The plan provides for the grant of the following types of awards (each an award): incentive stock options, within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (which we refer to as the Code), non-qualified stock options, restricted stock, stock appreciation rights, stock units, performance awards, phantom stock, incentive bonuses and other possible related dividend equivalents to our employees, directors and independent contractors (whom we refer to as the eligible individuals). Incentive stock options may be granted to our employees only. A total of 1,250,000 shares of our common stock were reserved for issuance pursuant to the plan, all of which could be issued as options or as other forms of awards. We have granted options to purchase 200,000 shares of our common stock to our employees and options to purchase 22,500 shares of our common stock to our non-employee directors. If there is a merger, consolidation, stock or other non-cash dividend, extraordinary cash dividend, split-up, spin-off, combination or exchange of shares, reorganization or recapitalization or change in capitalization, or any other similar corporate event, the administrator may make certain adjustments in the aggregate number and kind of shares of common stock subject to the plan and dividend equivalents.

If any shares of common stock that have been made subject to an award cease to be subject to the award, such shares of common stock will again be available for an award and will not be considered as having been previously made subject to an award. Any shares of common stock delivered upon exercise of an option in payment of all or part of the option, or delivered or withheld in satisfaction of withholding taxes with respect to an award, will be additional shares of common stock available for an award under the plan. After an award of phantom stock has been paid out, the shares of common stock underlying the award will again be available for an award and will not be considered as having been previously made subject to an award. Certain awards may also be payable in cash.

Administration of the Plan. Our Board of Directors, or the compensation committee appointed by our Board, administer the plan. Awards intended to qualify as performance based compensation" within the meaning of Section 162(m) of the Code to any of the Company's five most highly compensated executives will be granted by a grant committee, a sub-committee of the compensation committee that will consist of two or more outside directors" within the meaning of Section 162(m) of the Code. The administrator has the power to determine the terms of the awards, including the exercise price, the number of shares subject to each award, the exercisability of the awards and the form of consideration payable upon exercise. Under the plan, the administrator may delegate to our Chief Executive Officer, or his or her delegate, the right to designate other eligible individuals (other than our Chief Executive Officer or his or her delegate) to receive awards and to determine the amount of any awards granted to such eligible individuals and the terms of such awards, except that performance awards to any of the Company's five most highly compensated officers will only be granted by the grant committee, in accordance with the requirements of Section 162(m) of the Code.

Options. A stock option is the right to purchase shares of our common stock at a fixed exercise price for a fixed period of time. The administrator will determine the exercise price of options granted under our plan, which will be at least equal to the fair market value of our common stock on the date of grant. The aggregate fair market value, determined as of the date the option is granted, of the shares of our common stock for which any employee may be granted incentive stock options which are exercisable for the first time in any calendar year may not exceed \$100,000. Stock options generally may not be exercised after ten years from the date of the grant thereof. At the relevant time of exercise, the option price must be paid in full in cash or if permitted in the award agreement in shares of our common stock with a fair market value on the date of exercise equal to the option price or in a combination of cash and shares of common stock whose fair market value on the date of exercise thereof together with such cash will equal the option price. After termination of any of our employees, directors or independent contractors, unless the administrator determines otherwise, an unvested option typically will be subject to forfeiture, and a vested option will be exercisable for the period of time stated in the option agreement. If termination is due to death or retirement, the option generally will remain exercisable for one year following such

18

termination. In all other cases, the option generally will remain exercisable for three months. However, an option may never be exercised later than the expiration of its term.

Stock Appreciation Rights. A stock appreciation right is the right to receive the appreciation in the fair market value of our common stock between the exercise date and the date of grant, for that number of shares of our common stock with respect to which the stock appreciation right is exercised. A stock appreciation right may be granted in conjunction with an option or alone. We may pay the appreciation in either cash, in shares of our common stock with equivalent value, or in some combination, as determined by the administrator. The administrator determines the exercise price of stock appreciation rights, the vesting schedule and other terms and conditions of stock appreciation rights; however, stock appreciation rights expire under the same rules that apply to stock options.

Restricted Stock. Restricted stock awards are awards of shares of our common stock that vest in accordance with terms and conditions established by the administrator. The administrator may impose whatever conditions to vesting it determines to be appropriate. The administrator will determine the number of shares of restricted stock granted to any employee. Unless the administrator determines otherwise, shares that do not vest typically will be subject to forfeiture to the extent the vesting schedule and/or specified performance or other criteria have not be satisfied, or upon the termination of employee, director or independent contractor for any reason including death or retirement.

Stock Units. Stock units are rights to receive shares of our common stock at a future date. The administrator determines the terms and conditions of stock units.

Phantom Stock. Phantom stock are rights to receive an amount of cash equal to the fair market value of a share of our common stock at a specified date. The administrator determines the terms and conditions of phantom stock.

Incentive Bonuses. Incentive bonuses are rights to receive cash or shares of our common stock. The administrator determines the terms and conditions of such incentive bonuses. The Board has determined that up to 20% of the annual profits available for distribution by the Company may, at any time from time to time, be distributed to the employees of the Company by way of cash incentive bonuses to employees, pursuant and subject to the provisions of the plan and at the discretion of the Board. In determining whether there are annual profits available for distribution as cash incentive bonuses, our Board of Directors will take into account our business plan and current and expected obligations, and no such distribution will be made that in the judgment of our Board of Directors would prevent the

Company from meeting such business plan or obligations.

Any such distribution will only be made when, as and if approved by our Board of Directors out of funds legally available therefor. The actual amount and timing of any such distribution will depend upon our financial condition, results of operations, business prospects and such other matters as the Board may deem relevant from time to time. Even if profits are available for such distribution, the Board could determine that such profits should be retained for an extended period of time, used for working capital purposes, expansion or acquisition of businesses or any other appropriate purpose.

Performance Awards. Performance awards are awards of options, stock appreciation rights, restricted stock, stock units, phantom stock, and incentive bonus awards that will result in a payment to a key employee only if performance goals established by the administrator are achieved, or if the awards otherwise vest. The administrator or its delegates or the grant committee will establish performance goals in its discretion, which, depending on the extent to which they are met, will determine the number and/or the value of performance units and performance shares to be paid out to key employees. The performance goals may be based upon the achievement of company-wide, divisional or individual goals (including continued service), applicable securities laws or other basis determined by the administrator. Under the plan, no person will receive, in any one fiscal year, grants of performance awards for more than 400,000 shares of our common stock for performance awards of options, stock appreciation rights, restricted stock, stock units and phantom stock. The maximum dollar amount of any performance award of incentive bonuses that may be paid to any key employee in any fiscal year may not exceed \$10 million. Performance goals or awards to any of the Company's five most highly compensated executives will only be set or granted by the grant committee.

19

Dividend Equivalents. Any award (other than options, stock appreciation rights and bonuses) under the plan may, in the discretion of the administrator, earn dividend equivalents.

Transferability of Awards. Unless the administrator determines otherwise, no award or portion of an award will be transferable other than by will or by the laws of descent and distribution, except that an option and tandem stock appreciation right may be transferred pursuant to a domestic relations order or by gift to a family member of the holder to the extent permitted in the applicable award. A tandem stock appreciation right may never be transferred except to the transferee of the related option. Only the participant may exercise an award during his or her lifetime.

Amendment and Termination of the Plan. The plan will automatically terminate in 2014, unless we terminate it earlier. In addition, our Board of Directors has the authority to amend, suspend or terminate our plan, provided that such amendment does not adversely affect any award previously granted under our plan, unless the Board of Directors determines that an amendment is desired or appropriate to comply with the requirements of Section 409A of the Code enacted in October 2004.

New Legislation. Section 409 of the Code enacted in October 2004 affects the timing for recognition of income attributable to certain types of non-qualified deferred compensation. Our Board of Directors intends to amend the plan, to the extent such amendment is desirable or appropriate, to comply with the requirements of Section 409A of the Code.

Individual Grants (1)

Joseph Shiloah	9,250	4.6%	\$ 15	11/10/2014	\$ 8,603

(1)Unless otherwise noted herein, the following applies to each option set forth in the table. On November 10, 2004, the Company granted options to purchase 200,000 shares of common stock to employees and options to purchase 22,500 shares of common stock to non-employee directors at an exercise price of \$15 per share, which represents the fair value of the Company's common stock on such date. Such options will expire ten years from the date of grant, with options granted to employees vesting at 25%, 25% and 50%, in year two, three, and four, respectively, after the date of grant, and options granted to non-employee directors vesting immediately upon the filing of a registration statement by the Company on Form S-8 with the SEC with respect to the shares of common stock underlying such option grants.

(2)The estimated values listed in this column are based on the Black-Scholes option pricing model and a number of variables. The following assumptions were used in determining the estimated value of the grants [risk free interest rate of 3.56%, stock price volatility of 39.55%, and dividend yield of 4.42% and option holding period of 5 years.] The estimated values are not intended as a forecast of future appreciation in the price of the Common Stock. If the Common Stock does not increase in value above the exercise price of the stock option, then the grants described in the table will have no value. There is no assurance that the value realized by an executive will be at or near the values estimated.

The following table contains information regarding our Named Executive Officers' unexercised options to acquire shares of the Company's common stock for the fiscal year ended December 31, 2004:

Compensation Committee Report on Executive Compensation

The following Compensation Committee Report on Executive Compensation and compensation-related disclosures set forth in the proxy statement shall not be deemed incorporated by reference by any general statement incorporating this proxy statement into any filing under the Securities Act or under the Exchange Act except to the extent the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

The Compensation Committee consists of three directors, who are appointed by the Board. The Compensation Committee operates pursuant to a written charter adopted by the Board of Directors, which includes evaluation of the performance of the Chief Executive Officer, review and approval of the compensation of the Chief Executive Officer and all other executive officers of the Company, and recommendations to the Board of Directors regarding non-CEO compensation, incentive-compensation plans and equity-based plans.

Compensation Philosophy

The general philosophy of the Compensation Committee is to provide executive compensation designed to motivate and retain executive officers in the Company for the continued success of the Company and the enhancement of shareholder value, including annual compensation, consisting of salary and bonus awards, and long-term compensation, consisting of stock options and possibly other equity-based compensation.

In making decisions affecting executive compensation, the Compensation Committee reviews the nature and scope of the executive officer's responsibilities, as well as his or her effectiveness in supporting the Company's long-term goals. The Committee also considers the compensation practices of other major corporations in areas where the Company

operates that compete with the Company.

Compensation component

There are three primary types of compensation provided to the Company's executive officers:

- Annual compensation, which includes base salary intended to provide a stable annual salary at a level consistent with individual contributions.
- Annual performance target bonuses intended to link officers' compensation to the Company's performance.
- Long-term compensation, which includes stock options and may include or other equity-based compensation and long-term incentive awards. Under their current employment agreements, the Chief Executive Officer, the Chairman of the Board and the Chief Operating Officer of the Company do not participate in this third component of the compensation.

Annual Compensation

Base salary

Consistent with its stated philosophy, the Compensation Committee aims to position base salaries for the Company's executive officers annually at levels that are consistent with the Compensation Committee's interpretation of competitive compensation averages for individuals with similar responsibilities at companies with similar financial, operating and industry characteristics, in similar locations with consideration of the performance of the Company, individual performance of each executive and the executive's scope of responsibility in relation to other officers and key executives within the Company. In selected cases, other factors may also be considered.

Annual Incentive Bonuses

The Company's annual incentive bonus plan provides for the payment of cash bonuses based on the Company's performance measured against specific criteria, such as revenue growth, profitability and attainment of strategic business goals, in relation to individual executive performance. Based on the Company's performance during 2004 against these criteria, bonuses were paid under the annual incentive bonus plan in the amount of \$657,004 to the four highest paid executive officers after the CEO.

24

Long-Term Compensation

The Compensation Committee is committed to long-term incentive programs for executives that promote the long-term growth of the Company, and to align the interests of employees with those of our stockholders.

Equity-Based Compensation

As stock options were granted to executive officers of the Company (other than the Bronickis) upon the IPO, the Compensation Committee has not granted additional stock options in respect of 2004 performance. The Committee will consider granting additional stock options to executive officers upon the evaluation of the Company's 2005 performance.

Compensation of Chief Executive Officer

The Chief Executive Officer and the Chairman of the Company each have a four-year employment agreement with the Company with a monthly base salary of \$12,500 and \$10,333, respectively fixed for the term of the agreement, and a bonus measured as a percentage of revenues. For 2004, the bonuses approved for the Chief Executive Officer and the Chairman of the Company were \$118,433 each.

Internal Revenue Code Section 162(m)

The Compensation Committee also considers the potential impact of Section 162(m) of the Internal Revenue Code of 1986, as amended ("Section 162(m)"). Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the Chief Executive Officer and the five most highly paid senior executive officers, other than compensation that is performance-based under a plan that is approved by the stockholders of the corporation and that meets certain other technical requirements. Based on these requirements, the Compensation Committee has determined that Section 162(m) will not prevent the Company from receiving a tax deduction for any of the compensation paid to executive officers.

Each of these individuals is also covered by Ormat Systems' management insurance plan, to which Ormat Systems contributes a percentage of such individual's salary, and which covers any compensation that such individual may be entitled to receive upon termination. SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Ormat believes, based upon a review of the forms filed and written confirmation provided by its officers and directors, that during 2004 all of its officers and directors filed on a timely basis the reports required by Section 16(a) of the Securities Exchange Act of 1934.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Loan Agreement between Us and Ormat Industries

In 2003, we entered into a loan agreement with Ormat Industries, which was further amended on September 20, 2004. Pursuant to this loan agreement, Ormat Industries agreed to make a loan to us in one or more advances not exceeding a total aggregate amount of \$150,000,000. The proceeds of the loan are to be used to fund our general corporate activities and investments. We are required to repay the loan and accrued interest in full and in accordance with an agreed-upon repayment schedule and in any event on or prior to June 5, 2010.

Interest on the loan is calculated on the balance from the date of the receipt of each advance until the date of payment thereof at a rate per annum equal to Ormat Industries' average effective cost of funds plus 0.3% percent in U.S. dollars, which represented a rate of 7.5% for the advances made during year 2003. All computations of interest shall be made by Ormat Industries on the basis of a year consisting of 360 days. As of December 31, 2004, the outstanding balance of the loan was approximately \$148.4 million.

The loan agreement contains customary representations and warranties to Ormat Industries and also contains customary events of default and notice provisions.

The loan agreement is governed by, and interpreted and construed under, the laws of Israel.

We believe that the terms of the loan agreement are as beneficial to us as could be obtained from unaffiliated third parties.

Capital Note Issued to Ormat Industries

Pursuant to the terms of a capital note, as further amended on September 20, 2004, Ormat Industries converted outstanding balances owed by us to Ormat Industries into a subordinated non-interest bearing loan in an amount equal to NIS 240.0 million. We can repay the loan in full or, upon demand by Ormat Industries, we will be required to repay the loan in full at any time after November 30, 2007. The final maturity of the loan is December 30, 2009. In accordance with the terms of such note, we will not be required to repay any amount in excess of \$50 million (using the exchange rate existing on the date of such note).

We believe that the terms of the capital note are as beneficial to us as could be obtained from unaffiliated third parties.

Guarantee Fee Agreement between Us and Ormat Industries

In 1999, we entered into a guarantee fee agreement with Ormat Industries, pursuant to which Ormat Industries agreed to issue certain standby letters of credit and guarantees on our behalf to certain of our customers, as well as guarantees with respect to our bank credit lines.

Such agreement establishes a fee, calculated quarterly, equal to 1% per annum of all amounts guaranteed or subject to an outstanding letter of credit during the relevant quarter. Such payment is due quarterly in arrears and is payable against the receipt of an invoice from Ormat Industries.

We believe that the terms of the guarantee fee agreement are as beneficial to us as could be obtained from unaffiliated third parties.

29

Reimbursement Agreement between Us and Ormat Industries

On July 15, 2004, we entered into a reimbursement agreement pursuant to which we agreed to reimburse Ormat Industries for any draws made on any standby letter of credit subject to the guarantee fee agreement, dated as of January 1, 1999, between us and Ormat Industries, and for any payments made under any guarantee provided by Ormat Industries subject to such guarantee fee agreement. Interest on any amounts owing pursuant to the reimbursement agreement is paid at a rate per annum equal to Ormat Industries' average effective cost of funds plus 0.3% in U.S. dollars. There are no amounts currently owing to Ormat Industries pursuant to the reimbursement agreement.

Asset Purchase Agreement between Us and Ormat Industries

Pursuant to an asset purchase agreement, effective as of July 1, 2004, Ormat Industries sold and assigned to our subsidiary, Ormat Systems, certain assets and liabilities related to Ormat Industries' geothermal power plants and power units business, which is described in our Annual Report on Form 10-K for the year ended December 31, 2004 as our products business. The parties agreed to use their best efforts to assign the contracts and liabilities related to this business to Ormat Systems within 12 months from July 15, 2004, and until then, their unassigned assets are to be held in trust by Ormat Industries for Ormat Systems. As part of this transaction, Ormat Industries agreed, for so long as it holds more than 50% of the voting interest in us, not to compete or engage in any business which is in the same field of the business acquired by Ormat Systems.

As total consideration for the purchase, Ormat Systems agreed to pay Ormat Industries the amount of \$11.0 million, which consists of a cash payment and the assumption of an outstanding loan to Bank Continental and certain employment liabilities.

As part of this transaction, Ormat Systems also agreed to pay to Ormat Industries certain commissions ranging between 2.5% and 5.0% on revenues from sale orders entered into prior to July 1, 2004. The aggregate amount of such commissions is subject to receipt of payment from customers and is approximately \$2.2 million.

The asset purchase agreement and the following sublease agreement, license agreement, service agreement and reimbursement agreement are agreements that set forth the terms and conditions of the sale and assignment by Ormat Industries' products business to Ormat Systems. We believe that, taken as a whole, the terms of these agreements, collectively, are reasonable and appropriately benefit the company.

Sublease between Us and Ormat Industries

Our subsidiary, Ormat Systems, has entered into a sublease with Ormat Industries for real estate leased by Ormat Industries from the Israeli Land Administration on which our production and manufacturing facilities are located. Such sublease is effective as of July 1, 2004 and the term of such sublease is four years and eleven months, which term has been extended by a consent of the Israeli Land Administration for a period the shorter of (1) 25 years (including the initial term) or (2) the remaining period of the underlying lease agreements with the Israel Land Administration (which terminate between 2018 and 2047).

Pursuant to the sublease, Ormat Systems agreed to pay rent, in advance, on a monthly basis, equal to \$52,250.00 (plus VAT) per month. Payment will be adjusted every year to reflect increases in the Israeli Consumer Price Index, but will in no event be lower than the rent paid during the previous year. Pursuant to the sublease, Ormat Systems has also agreed to pay taxes and other compulsory charges, to make other required payments, and to indemnify Ormat Industries for taxes (other than income taxes) imposed in connection with the subleased real estate.

Pursuant to the sublease, Ormat Systems agreed to certain other customary undertakings, including indemnification and insurance undertakings.

The sublease was executed in connection with the asset purchase agreement between Ormat Systems and Ormat Industries.

License Agreement between Us and Ormat Industries

On July 15, 2004, our subsidiary, Ormat Systems, entered into a patents and trademarks license agreement, effective as of July 1, 2004, pursuant to which Ormat Industries granted a world-wide royalty-free license to Ormat Systems (which is exclusive with respect to the patents and certain of the trademarks) to internally copy, use, and create derivatives of certain patents and trademarks. The license survives sales and/or transfers of the patents and trademarks and Ormat Systems owns the derivatives created from the licensed patents. The term of the license agreement continues until the patents or trademarks expire or are assigned to Ormat Systems (which are intended to be assigned, subject to tax and other considerations) and the agreement may be terminated if either party becomes insolvent.

The license agreement was executed in connection with the asset purchase agreement between Ormat Systems and Ormat Industries.

Service Agreement between Us and Ormat Industries

On July 15, 2004, our subsidiary, Ormat Systems, entered into a service agreement, effective as of July 1, 2004, pursuant to which Ormat Systems agreed to provide, as an independent contractor, certain corporate, financial, secretarial and administrative services to Ormat Industries. At the request of Ormat Industries, Ormat Systems may also provide certain engineering services.

Ormat Industries is required to pay \$10,000 per month for all services (other than engineering services) rendered pursuant to such service agreement plus all out-of-pocket expenses of Ormat Systems. For engineering services, Ormat Industries is required to pay a fee equal to the cost of such services plus 10.0% and all out-of-pocket expenses of Ormat Systems. On each anniversary of such services agreement, such monthly fees are adjusted in accordance with the Israeli Consumer Price Index during the previous twelve-month period.

The service agreement was executed in connection with the asset purchase agreement between Ormat Systems and Ormat Industries.

Registration Rights Agreement between Us and Ormat Industries

The Company has entered into a registration rights agreement with Ormat Industries. Under this agreement, Ormat Industries may require us on one occasion to register our common stock for sale on Form S-1 under the Securities Act if we are not eligible to use Form S-3 under that Act. After we become eligible to use Form S-3, Ormat Industries may require us on unlimited occasions to register our common stock for sale on this form. In addition, we will be required to file a registration statement on Form S-3 to register for sale shares of our common stock that are or have been acquired by directors, officers and employees of Ormat Industries upon the exercise of options granted to them by Ormat Industries. Ormat Industries will also have an unlimited number of piggyback registration rights. This means that any time we register our common stock for sale, Ormat Industries may require us to include shares of our common stock held by it or its directors, officers and employees in that offering and sale, subject to certain allocation procedures set forth in the registration rights agreement.

We have agreed to pay all expenses that result from the registration of our common stock under the registration rights agreement, other than underwriting commissions for such shares and taxes. OTHER MATTERS

We know of no other business that will be presented at the meeting. If any other matter properly comes before the stockholders for a vote at the meeting, however, the proxy holders will vote your shares in accordance with their best judgment. This discretionary authority is granted by the execution of the enclosed form of proxy.

ADDITIONAL INFORMATION

Householding of Proxies

Under rules adopted by the SEC, we are permitted to deliver a single set of any proxy statement and annual report to any household at which two or more stockholders reside if we believe the stockholders are members of the same family. This process, called householding, allows us to reduce the number of

32

copies of these materials we must print and mail. Even if householding is used, each shareholder will continue to receive a separate proxy card or voting instruction card.

The Company is not householding this year for those shareholders who own their shares directly in their own name. If you share the same last name and address with another Company shareholder who also holds his or her shares directly, and you would each like to start householding for the Company's annual reports and proxy statements, please contact us at Ormat Technologies, Inc., 980 Greg Street, Sparks, Nevada 89431, attention: Corporate Secretary, telephone (775) 356-9029.

This year, some brokers and nominees who hold Company shares on behalf of shareholders may be participating in the practice of householding proxy statements and annual reports for those shareholders. If your household received a single proxy statement and annual report for this year, but you would like to receive your own copy this year, please contact us as stated above, and we will promptly send you a copy. If a broker or nominee holds Company shares on your behalf and you share the same last name and address with another shareholder for whom a broker or nominee holds Company shares, and together both of you would like to receive only a single set of the Company's disclosure documents, please contact your broker or nominee as described in the voter instruction card or other information you received from your broker or nominee.

If you consent to householding, your election will remain in effect until you revoke it. Should you later revoke your consent, you will be sent separate copies of those documents that are mailed at least 30 days or more after receipt of your revocation.

Additional Filings

The Company's Forms 10-K, 10-Q, 8-K and all amendments to those reports are available without charge through the Company's website on the Internet, www.ormat.com, as soon as reasonably practicable after they are electronically

filed with, or furnished to, the SEC. The content of our website, however, is not part of this proxy statement.

Proxy Solicitation

Ormat will bear the entire costs of this proxy solicitation. In addition to soliciting proxies by this mailing, we expect that our directors, officers and regularly engaged employees may solicit proxies personally or by mail, facsimile, telephone, or other electronic means, for which solicitation they will not receive any additional compensation. Ormat will reimburse brokerage firms, custodians, fiduciaries and other nominees for their out-of-pocket expenses in forwarding solicitation materials to beneficial owners upon our request.
