Item 12. Results of Operations and Financial Condition.

On October 16, 2003 the Registrant issued a press release announcing its third quarter 2003 earnings, which is attached hereto as Exhibit 99. The press release contains a full-year 2003 outlook for earnings per share, as well as for certain segments' operating income, which exclude any effect that may result from the expected sale of the Registrant's Credit and Financial Products business (the "Credit Sale"). The Registrant's full year earnings per share will be impacted by the accounting for the gain on the sale, the timing of the closing and the ongoing beneficial impacts to the retail and related services segment. However, these effects cannot be determined with reasonable certainty at this time. Sears' management

believes that an outlook excluding the impact of the Credit Sale is useful to investors in that it provides insight into the Registrant's expectations for the performance of its core businesses as ongoing businesses, and as such in a manner comparable with prior periods. The company intends to update its outlook based upon the impacts of the anticipated Credit Sale as soon as practical after the close of the transaction.
