Charleston, SC- The Board of Directors of Bank of South Carolina Corporation, at its meeting October 21, 2004 in its 256 Meeting Street banking house, announced earnings for the 3rd quarter of 2004 of \$424,301 or \$.15 per share, down 23% from 3rd quarter 2003 earnings of \$552,403 or \$.20 per share. Earnings for the first nine months of 2004 were \$1,320,694 or \$.47 per share, a decline of 11% from 2003's nine months earnings of \$1,479,522 or \$.53 per share. The bank's net interest margin increased 38 basis points from June of 2004 to September 2004. Return on average assets and average equity for the 3rd quarter of 2004 were .93% and 8.88%, respectively, and compare to 3rd quarter 2003 returns on average assets and average equity of 1.25% and 11.22%, respectively.

Hugh C. Lane, Jr., President of The Bank of South Carolina, stated: The bank remains very asset sensitive and very liquid, which will remain positive for our margins as rates rise. We would like to improve our loan to deposit ratio; however, loan demand is far from robust and deposit growth has been strong with deposits increasing \$23 million from September 30, 2003 to September 30, 2004. Deposits remain the raw material for a community bank and we are pleased with our growth. We have come through a difficult earnings cycle and, looking back, our earnings held up well under the circumstances. However, as we move through the current cycle, we plan to take steps to protect our margins for the next decline in interest rates. With the year closing, we are planning for 2005, which will have another set of challenges and opportunities.

The Bank of South Carolina, a De Novo Charter, which opened in 1987 at 256 Meeting Street, has offices in Summerville, Mt. Pleasant, and the West Ashley community.
