Item 2.05 Costs Associated with Exit or Disposal Activities.

On June 14, 2007, we issued a press release announcing that, after completing a review of our worldwide operations, we are planning to close our manufacturing, distribution and administrative facility located in Toulon, France.

Consistent with the June 14, 2007, announcement, management continues to estimate that the pre-tax restructuring costs related to the closing of the Toulon facilities will be in the range of approximately \$20 million to \$25 million. These charges include both cash and non-cash items such as asset impairment charges, severance and other termination benefits, external legal and professional fees, and other costs.

On November 1, 2007, management determined its estimate of restructuring charges by category type, as follows:

Severance and other termination benefits are estimated to range from \$14 million to \$15 million. Of this amount, approximately \$10.8 million has been recognized as expense during the first nine months of 2007.

Non-cash asset impairment charges are estimated to range from \$3 million to \$4 million. Of this amount, approximately \$2.8 million was recorded during the second quarter of 2007 based upon a third-party appraisal for real estate and management's estimated salvage value for machinery and equipment.

External legal and professional fees are estimated to range from approximately \$2 million to \$3 million. Of this amount, approximately \$1.0 million has been recognized as expense during the first nine months of 2007.

Other restructuring related costs are estimated to range from \$1 million to \$3 million.

While we expect that the closure of the facilities will be substantially completed by the end of this year, and while we are working to complete other restructuring-related activities in order to record the majority of the remaining charges in the fourth quarter of 2007, it is likely that a portion of the remaining restructuring charges will be recognized in 2008.
