On May 19, 2015, Integrys Energy Group, Inc. mailed the following notices to certain participants in its employee benefit plans:

Save. Plan. Enjoy. Wells Fargo Important fund change is coming soon to the Integrys Energy Group 401(k) Plan for Administrative Employees! May 22, 2015 To participants with balances in the Integrys Energy Group Company Stock Fund In this communication Important account blackout information Fund change Important dates Account access information Complete investment line up The merger of Wisconsin Energy Corporation (“WEC”) and Integrys Energy Group, Inc. (“Integrys”) will soon be complete (“WEC transaction”). This communication explains what you can expect and actions you may want to take. Please read this communication carefully to fully understand key dates and how they may impact your account. Access to your account will be temporarily limited as detailed below. Important notice concerning your rights under the Integrys Energy Group 401(k) Plan for Administrative Employees (the “Admin 401(k)”) This notice is to inform you that in preparation for the closing of the merger of Wisconsin Energy Corporation and Integrys Energy Group, Inc. (the “WEC transaction”), Integrys has decided to make the fund change detailed below. As a result of the WEC transaction, you temporarily will be unable to direct or diversify investments in your individual account or obtain a loan or distribution from the plan. This period, during which you will be unable to exercise these rights otherwise available under the plan, is called a “blackout period.” Whether or not you are planning retirement in the near future, we encourage you to carefully consider how this blackout period may affect your retirement planning, as well as your overall financial plan. The blackout period for the plan is expected to begin June 22, 2015, and end sometime during the week of July 6, 2015. During this time you can determine whether the blackout period has started or ended by contacting Wells Fargo online at wellsfargo.com or by calling the Retirement Service Center at 1-800-SAVE-123 (1-800-728-3123). You will also receive a communication when the blackout period has ended. During the blackout period you will be unable to direct or diversify the assets held in your plan account. For this reason, it is very important that you review and consider the appropriateness of your current investments in light of your inability to direct or diversify those investments during the blackout period. For your long-term retirement security, you should give careful consideration to the importance of a well-balanced and diversified investment portfolio, taking into account all your assets, income and investments. You should also be aware that there is a risk to holding substantial portions of your account balance in the securities of any one company, as individual securities tend to have wider price swings, up and down, in short periods of time, than investments in diversified funds. Stocks that have wide price swings might have a large loss during the transition, and you would not be able to direct the sale of such stocks from your account during the blackout period. If you have questions after reading this communication, please contact Donna Cole, Integrys Energy Group, Inc., at 920-433-1240 or dlcole@integrysgroup.com.
