Lincoln National Corporation Plan Administrator
Lincoln National Corporation

We have audited the accompanying statements of net assets available for plan benefits of The Lincoln National Life Insurance Company Agents' Savings and Profit-Sharing Plan as of December 31, 2007 and 2006, and the related statements of changes in net assets available for plan benefits for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan at December 31, 2007 and 2006, and the changes in its net assets available for plan benefits for each of the three years in the period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2007, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

1. Significant Accounting Policies

Investments Valuation and Income Recognition

The investment in Lincoln National Corporation (LNC) common stock is valued at the closing sales price reported on the New York Stock Exchange Consolidated Transactions Tape on the last business day of the year.

The Wells Fargo Bank Short-Term Investment Account, which is invested in the common stock fund, is valued at cost, which approximates fair value.

The fair value of participation units in pooled separate accounts estimated by The Lincoln National Life Insurance Company (Lincoln Life) is based on quoted redemption value of the underlying investments on the last business day of the year.

The investment contracts are valued at contract value as estimated by Lincoln Life. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. The Lincoln National Life Insurance Company Agents' Savings and Profit-Sharing Plan (Plan) adopted FSP AAG INV-1 in 2006. The adoption did not have a material effect on the Plan's financial statements, as interest rates are adjusted to market quarterly. Accordingly, contract value, which represents net contributions plus interest at the contract rate, approximates fair value. The contracts are fully benefit-responsive.

Participant loans are valued at their outstanding balances, which approximate fair value.

The cost of investments sold, distributed, or forfeited is determined using the specific identification method. Investment purchases and sales are accounted for on a trade-date basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

Preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncement

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 is effective for accounting periods beginning after

November 15, 2007. Lincoln Financial Group Finance is currently evaluating the impact, if any, that the adoption of SFAS 157 will have on the Plan's 2008 financial statements.

2. Description of the Plan

The following description of the Plan is a summary only and is qualified in its entirety by the terms and provisions of the Plan document itself.

The Plan is a contributory, defined contribution plan which covers eligible full-time agents of Lincoln Life, Lincoln Financial Advisors Corporation and Lincoln Life & Annuity Company of New York (Employer). Effective April 3, 2006, LNC acquired Jefferson-Pilot Financial Corporation (Jefferson-Pilot). Jefferson-Pilot sponsored a 401(k) plan for its eligible agents. On June 1, 2006, a plan amendment made legacy Jefferson-Pilot agents eligible to participate in the Plan, and assets from legacy Jefferson-Pilot plan accounts were transferred to this Plan. This increased the net assets of the Plan by \$14.4 million. Also effective June 1, 2006, participants were permitted to make pre-tax contributions at a rate of at least 1% but not more than 50% of eligible earnings (increased from the 25% maximum in effect from January 1, 2004 through May 31, 2006) up to a maximum annual amount as determined under applicable law. Highly compensated agents, as defined in the Plan, are limited to 9%.

In addition to each participant's pre-tax contributions, Employer matching contributions are provided to the Plan. As of January 1, 2007, the Employer matching contribution for eligible participants is equal to 50% of each participant's pre-tax contributions, not to exceed 6% of eligible earnings per pay period. Prior to January 1, 2007, the Employer matching contribution for eligible former Jefferson-Pilot agents was equal to 10% of each participant's pre-tax contribution, not to exceed 6% of eligible compensation. In addition, the Employer may contribute an additional discretionary matching contribution, the amount of which (if any) is determined at the sole discretion of LNC's Board after a review of whether Lincoln Financial Advisors has met certain performance-based criteria. To be eligible for the discretionary Employer match, the participant must be employed on the last day of the plan year or have died or become disabled during the plan year. The investment of any Employer matching contributions made are directed by the participant.

Participants' pre-tax, other contributions, and earnings thereon are fully vested at all times. Employer contributions vest based upon years of service as defined in the Plan agreement as follows:

Years of Service	Percent Vested
1	0%
2	50%
3 or more	100%

Participants direct the Plan to invest their contributions, the basic Employer matching contributions, and the Employer discretionary matching contribution in any combination of the investment options offered under the Plan. For 2007, Employer discretionary matching contributions were made in cash, and allocated to the investment funds in accordance with the Participant's elections. No Employer discretionary matching contributions were made for 2006. Employer discretionary matching contributions for 2005 were initially invested in the LNC Common Stock Account. Participants can immediately direct the investment of the Employer discretionary matching contributions to other investment options, subject to certain restrictions set forth in our Insider Trading and Confidentiality policy.

2. Description of the Plan (continued)

The Employer has the right to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested amounts allocated to participant accounts would become fully vested.

The Plan may make loans to participants in amounts up to 50% of the vested account value to a maximum of \$50,000, but not more than the total value of the participant's accounts, excluding Employer contributions that have not been in the Plan for two full years, less the highest outstanding loan balance in the previous 12-month period. Interest charged on new loans to participants is established monthly based upon the prime rate plus 1%. Interest income credited was \$293,769, \$225,353, and \$236,082 in 2007, 2006, and 2005, respectively. Loans may be repaid over any period selected by the participant up to a maximum repayment period of 5 years except that the maximum repayment period may be 20 years for the purchase of a principal residence.

Upon termination of service due to disability or retirement, a participant may elect to receive either a lump-sum amount equal to the entire value of the participant's account or an installment option if certain criteria are met; in cases of death, the participant's beneficiary makes that election. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Vested account balances less than \$1,000 are immediately distributable under the terms of the Plan, without the participant's consent, unless the participant has made a timely election of rollover to an Individual Retirement Account or other qualified arrangement.

Each participant's account is credited with the participant's contributions, Employer matching contributions, and applicable investment earnings thereon and is charged with an allocation of administrative expenses and applicable investment losses. Forfeited non-vested amounts are used to reduce future Employer contributions.

Net realized gain on sale and distribution of pooled separate accounts	\$ 8,568,425	\$ 5,920,004	\$ 3,712,858

The net change in unrealized appreciation of investments in total and by investment classification as determined by fair value is summarized as follows:

	Year ended December 31		
	2007	2006	2005
Fair value in excess of cost:			
At beginning of the year	\$ 63,347,381	\$ 48,422,185	\$ 42,460,285
At end of the year	55,277,366	63,347,381	48,422,185

Change in net unrealized (depreciation) appreciation of investments	\$ (8,070,015)	\$ 14,925,196	\$ 5,961,900

The investment contracts (Guaranteed Account) earned an average interest rate of approximately 4.0% in all three years. The credited interest rates for new contributions, which approximate the current market rate, were 4.0% at both December 31, 2007 and 2006. The rate on new contributions is guaranteed through the three succeeding calendar year quarters. The credited interest rates for the remaining contract value balance, which approximate the current market rate, were 4.0% at both December 31, 2007 and 2006, and were determined based upon the performance of Lincoln Life's general account. The credited interest rates can be changed quarterly. The minimum guaranteed rate is 3.5%. The guarantee is based on Lincoln Life's ability to meet its financial obligations from the general assets of Lincoln Life. Restrictions apply to the movement of funds to other investment options. The fair value of the investment contracts approximates contract value. Participants are allocated interest on the investment contracts.

Notes to Financial Statements (continued)

4. Investment Options (continued)

Investment options 3 through 26 are invested in pooled separate accounts of Lincoln Life through a group annuity contract issued by Lincoln Life.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 30, 2004, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan sponsor is committed to maintaining the tax-qualified status of the Plan, operating the Plan in compliance with the Code, and correcting any inadvertent operational errors that may have occurred or could occur.

6. Tax Implications to Participants

Federal (and most states) income tax is deferred on participants contributions, the Employer's contributions, and income earned in the Plan until actual distribution or withdrawal from the Plan.

7. Transactions with Parties-in-Interest

The Plan has investments in common stock of LNC and in pooled separate accounts and investment contracts with Lincoln Life. Lincoln Life charges the Plan for certain administrative expenses including trustee and audit fees. Total administrative expenses charged were \$152,742, \$173,808, and \$168,180 in 2007, 2006, and 2005, respectively.

8. Concentrations of Credit Risks and Market Risks

The Plan has investments in common stock of LNC, pooled separate accounts, and unallocated investment contracts with Lincoln Life of \$47,511,770, \$133,100,849, and \$14,604,738, respectively, at December 31, 2007 (23.4%, 65.6%, and 7.2% of net assets, respectively). LNC and Lincoln Life operate predominately in the insurance and investment management industries.

The Plan invests in various investment securities. Investment securities are exposed to various risks including, but not limited to, interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
