Item 7.01 Regulation FD Disclosure.

Cigna Corporation (“Cigna” or the “Company”) officials expect to participate in meetings with investors and analysts over the next several weeks. During these meetings, Company officials expect to reaffirm projected full year 2014 consolidated adjusted income from operations, which remains in the range of \$1.9 billion to \$2.0 billion. Company officials also expect to reaffirm 2014 global medical customer growth (excluding limited benefits) of approximately 1% to 2% over year-end 2013. In connection with U.S. health care reform legislation, the Company ceased offering limited medical benefits products effective December 31, 2013. Therefore, in determining medical customer growth expectations for 2014, the Company has excluded these products from the year-end 2013 customer numbers.

Cigna discussed its full year 2014 outlook in its press release dated February 7, 2014 and during the related investor conference call. The release and the conference call transcript are available under Quarterly Reports and SEC Filings in the Investor Relations section of the Company’s website located at www.cigna.com/aboutcigna/investors.

Adjusted income from operations (loss) is defined as segment earnings (loss) excluding (i) special items and (ii) the results of Cigna’s guaranteed minimum income benefits business. Segment earnings (loss) is defined as shareholders’ net income before net realized investment results. Adjusted income from operations is a measure of profitability used by Cigna’s management because it presents the underlying results of operations of Cigna’s businesses and permits analysis of trends in underlying revenue, expenses and shareholders’ net income. This measure is not determined in accordance with accounting principles generally accepted in the United States of America (GAAP) and should not be viewed as a substitute for the most directly comparable GAAP measures, which are segment earnings (loss) and shareholders’ net income. At this time, management is unable to identify or reasonably estimate future net realized investment results or special items; therefore, it is not possible to provide a forward-looking reconciliation of adjusted income from operations to shareholders’ net income for 2014.

This information shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act whether made before or after the date of this report, except as shall be expressly set forth by specific reference in such a filing.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K (the “Report”), and oral statements made with respect to information contained in this Report, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on Cigna’s current expectations and projections about future trends, events and uncertainties. These statements are not historical facts. Forward-looking statements may include, among others, statements relating to our projected full year 2014 consolidated adjusted income from operations and global medical customer growth for 2014 as reflected in Item 7.01 of this Report, as well as statements made in our press release dated February 7, 2014 and related investor conference call concerning: our projected adjusted income from operations outlook for 2014, on both a consolidated and segment-by-segment basis; projected global medical customer growth (excluding limited benefits) over year-end 2013; future financial or operating performance, including our ability to deliver improved health outcomes and productivity for our customers and clients and future growth, business strategy, strategic or operational initiatives; economic, regulatory or competitive environments, particularly with respect to the pace and extent of change in these areas; and financing or capital deployment plans, including whether and to what extent we may engage in share repurchases. You may identify forward-looking statements by the use of words such as “believe,” “expect,” “plan,” “intend,” “anticipate,” “estimate,” “predict,” “potential,” “may,” “should,” “will” or expressions of similar meaning, although not all forward-looking statements contain such terms.

Forward-looking statements are subject to risks and uncertainties, both known and unknown, that could cause actual results to differ materially from those expressed or implied in forward-looking statements. Such risks and uncertainties include, but are not limited to: our ability to achieve our financial, strategic and operational plans or initiatives; our ability to predict and manage medical costs and price effectively and develop and maintain good relationships with physicians, hospitals and other health care providers; our ability to realize the expected benefits of strategic transactions and/or acquisitions; the substantial level of government regulation over our business and the potential effects of new laws or regulations, or changes in existing laws or regulations; the outcome of litigation, regulatory audits, investigations and actions and/or guaranty fund assessments; uncertainties surrounding participation in government-sponsored programs such as Medicare; and unfavorable industry, economic or political conditions, as well as more specific risks and uncertainties discussed in our most recent report on Form 10-K and subsequent reports on Forms 10-Q and 8-K available on the Investor Relations section of www.cigna.com. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance or results, and are subject to risks, uncertainties and assumptions that are difficult to predict or quantify. Cigna undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by law.
