NOT APPLICABLE

(Former Name or Former Address, if Changed Since Last Report)

Item 5. Other Events and Required FD Disclosure

Terex Corporation (the "Company" or "Terex") maintains a deferred compensation plan (the "Plan") for participating employees that, prior to

Edgar Filing: TEREX CORP - Form 8-K

January 1, 2004, permitted participants to transfer funds between investment options, one of which is an option to invest in shares of Terex common stock. It has been the practice of the Plan to purchase shares of Terex common stock on an ongoing basis as participants contribute to the Terex common stock fund, in order to eliminate the risk associated with fluctuations in the price of Terex common stock.

Due to the ability of Plan participants to transfer their investments between Plan investment options, generally accepted accounting principles required the Company to record obligations to Plan participants invested in Terex common stock at the fair value of the Terex common stock (without making a corresponding adjustment for any change in value of the shares of Terex common stock held by the Plan). The Company, after discussions with its independent auditors, has now determined that it will amend its financial statements for the first three fiscal quarters of 2003 to revise the accounting for the Plan to record these obligations based on the fair value of the Terex common stock. The impact of this accounting treatment was not significant for prior year periods.

Effective January 1, 2004, the Plan has been revised to prohibit transfers between investment options, thereby eliminating the need for future adjustments based on the fair value of Terex common stock. Although an accounting change is being made, there is no resulting increase in cash impact or risk of loss to the Company, as the Plan has already acquired sufficient shares of Terex common stock to match investments made by Plan participants.

The Company will amend its financial statements for the first three fiscal quarters of 2003 to reflect the proper accounting treatment for the Plan. The amended financial statements will reflect additional after tax charges (credits) of: \$0.5 million in the first quarter; \$2.7 million in the second quarter; and (\$0.4) million in the third quarter of 2003. The impact of this adjustment is presented in the table below. The Company intends to file shortly with the Securities and Exchange Commission amended Quarterly Reports on Form 10-Q for each of the first three fiscal quarters of 2003 to provide this information.
